Dear Shareholders,

It is my privilege to present, on behalf of the Board of Directors of MRPL, the 37th Annual Report for the Financial Year 2024-25 to our valued shareholders and also present few highlights of the performance.

Standalone Financial Performance

- ◆ Your Company achieved a turnover (revenue from sale of products) of ₹ 1,09,239/- Crore during the Financial Year 2024-25 as against ₹ 1,05,190/- Crore during the Financial Year 2023-24.
- ◆ Your Company earned profit of ₹ 51 Crore (Profit After Tax) during the Financial Year 2024-25 as against profit of ₹3,596 Crore during the Financial Year 2023-24.
- ◆ The Gross Refining Margin (GRM) for Financial

Safety

- ♦ MRPL achieved 111 days for Refinery and 3442 days for Aromatic Complex without Reportable Lost Time Injuries (RLTI).
- ♦ Emergency Response & Disaster Management Plans of Refinery and Aromatics Complex have been successfully recertified.
- ♦ Pre-commissioning Safety Audit of Devangonthi Marketing Terminal, BBU train-2 & PFCC WSS (Wet Scrubber System) were carried out by Oil Industry Safety Directorate.

Direct Marketing

- ♦ During the Financial Year 2024-25, your company continues to maintain its dominant position in the institutional business segment of petroleum products market in Karnataka and adjoining States. Your Company retained its leadership position in its core marketing region across all key institutional business products such as Bitumen, Diesel, Sulphur, Pet coke, ATF (through Joint Venture), Polypropylene, Xylol, Benzene etc. Total institutional sales volume across these product categories in the domestic market reached 2.99 Million Metric Tonnes (MMT), generating a revenue of ₹15,214 Crore in Financial Year 2024-25. This represents a significant increase of 22.5% in volume and 23.6% in value, compared to the previous Fiscal Year 2023-24, which recorded sales of 2.44 MMT and revenue of ₹12,313 Crore.
- ♦ Your company has expanded its product portfolio with the introduction of Toluene and Mineral Turpentine Oil (MTO). These products have been highly appreciated by customers and have reported remarkable volume growth in a short period.
- ♦ In line with the strategy to strengthen and expand its retail footprints, your Company successfully commissioned 66 HiQ retail outlets during FY 2024-25. Notably, the Company marked its entry into the Tamil Nadu market by commissioning three HiQ outlets. As of 31st March 2025, the total number of operational HiQ retail outlets stood at 167, marking a substantial expansion across Karnataka, Kerala & Tamilnadu. Furthermore, as part of its forward-looking market penetration strategy, MRPL has initiated steps to expand into Andhra Pradesh by launching its first-ever advertisement campaign for

the award of MRPL HiQ Retail Outlet dealerships in the State.

- ♦ The Polymer segment continued its growth trajectory, achieving the highest-ever annual sales volume of Polypropylene at 473 Thousand Metric Tonnes (TMT) during Financial Year 2024-25 compared to 384 TMT in the previous year, reflecting a robust 23.2% year-on-year growth. MRPL has actively pursued deeper market integration by opening additional depots and CS locations in high-demand zones, particularly targeting small-volume buyers and MSME. Your company also introduced Cast Polypropylene (CPP film grade) in the market to cater to niche packaging applications, making its foray into specialty polymer product innovations.
- ♦ Your Company's joint venture, M/s Shell MRPL Aviation Fuel and Services Limited (SMAFSL), continued its steady performance in the Aviation Turbine Fuel (ATF) segment, expanding its market share across several airports in South India. SMAFSL achieved a turnover of ₹2,549 Crore during Financial Year 2024-25, a growth of 22.2% over the previous year's turnover of ₹2,087 Crore, underscoring the increasing trust placed in the JV by the aviation sector and the successful collaborative efforts of both JV partners.

Employee Relations

- ♦ Your Company holds its employees in the highest esteem and accordingly follows the best in class Human resource practices, reviews them periodically and strives to further improve upon that. As a result, the employee relations continue to be cordial and harmonious. As in the past years, this year too, not a single man-hour was lost on account of any industrial disturbance. MRPL believes in maintaining healthy, harmonious, and productive industrial relations. Standing Orders (Non-Management Employees) and CDA Rules (applicable for Management employees) define the model behavioral requirement of the relevant employee groups and recourse in case of deviations. Your Company adheres to all relevant statutory requirements and abides by guidelines/requirements of the relevant local authorities. The Company works towards ensuring safe working conditions and ensures that statutes are adhered.

Environment, Social Responsibility and Sustainable Development

- ◆ Your Company has set a Net Zero target (Scope-1,2) by the year 2038.
- ◆ Your Company continues to produce renewable energy through sources such as solar power to reduce its carbon footprint. In addition, MRPL has implemented energy-efficient technologies and practices to reduce energy consumption. During Financial Year 2024-25, total solar energy generated by MRPL was 8,838 MWh and total solar energy consumed was 56,729 MWh (including the solar energy purchased).
- ◆ Your Company has taken up several energy efficiency improvement measures and has achieved a total fuel savings of 38,725 MT of Oil equivalent.
- ◆ Your Company is having a robust waste management system, which includes recycling, reusing, and responsible disposal of hazardous waste. Hazardous waste is co-processed through cement industries where it is used as alternate source of energy. Spent catalyst is recycled through SPCB authorized recyclers and precious metals are recovered. During Financial Year 2024-25, 78.54% of total hazardous and non-hazardous waste was recycled and re-used and remaining hazardous and non-hazardous waste were co-processed in cement industry, thereby achieving minimum quantity of hazardous waste disposal to Treatment, Storage and Disposal Facility (TSDF) & Incineration, which are only 0.15% and 0.06% respectively. Oily sludge generated in ETP was re-used in the DCU unit as an effective method of reducing waste.
- ◆ Your Company has implemented many water-conservation measures by investing in water treatment and recycling technologies to reduce its water footprint. During Financial Year 2024-25, 57.50% of Effluent Treatment Plant (ETP) feed flow was recycled and re-used in the refinery. 56,77,318 M3 (Cubic Meter) of desalinated water from plant was utilized in MRPL during Financial Year 2024-25. In addition to the de-salination plant, MRPL is utilizing Mangalore city treated sewage water to reduce its fresh river water consumption. During Financial Year 2024-25, total Mangalore city treated sewage water utilized in the refinery is 52,64,327 M3.

- ◆ Your Company has undertaken several greenbelt development and compensatory afforestation initiatives to increase its green cover. A 50-acre greenbelt has been developed at Pilikula Biodiversity Park with approximately 4,000 native plant species of Western Ghats. Additionally, a 25-acre afforestation project at Bengre was carried out in coordination with the Karnataka Forest Department, planting locally adaptable tree species along the seashore, which helped to reduce the impact of salt-laden breeze on downstream coastal facilities.
- ◆ During Financial Year 2024-25, approximately 41 MT of vermi-compost was harvested from three in-house vermi-composting units. These units offer a sustainable solution for managing organic waste by converting it into nutrient-rich vermi-compost. This initiative not only supports effective waste management but also reduces the dependence on inorganic fertilizers by producing a natural alternative, thereby creating value from waste.
- ◆ As part of its green initiatives during Financial Year 2024-25, your company planted 5,762 saplings comprising of native, locally adaptable and fruit-bearing species within the refinery premises. Additionally, 2,239 fruit tree saplings were distributed under the 'Ek Ped Maa Ke Naam' plantation drive, promoting environmental stewardship and encouraging community participation.

I would like to acknowledge the support and guidance of the Government of India, especially our administrative ministry "Ministry of Petroleum and Natural Gas" (MoP&NG).

I also place on record my admiration for our employees for their excellent contribution and to the Board of Directors for their expertise and guidance.

On behalf of the Board, I would also like to express my gratitude to all our stakeholders for their continued support, patronage, trust and confidence.

Jai Hind.

PROJECTS

➤ **Devangonithi Marketing Terminal: (₹330 Crore)**

Marketing Terminal at Devangonithi, Bangalore was set up to cater to requirements of petroleum products for expanding industrial and retail business primarily in the State of Karnataka. The Terminal receives finished petroleum products (MS, HSD and ATF) through the existing PMHBL pipeline from MRPL, Mangalore. There are dosing facility of Ethanol with MS and Bio-Diesel with HSD and tank truck loading facility. Approved Project cost was ₹330 Crore. Mechanical completion of the project was achieved in May, 2024 and commissioned in August, 2024.

➤ **PFCC Regenerator Stack Wet Scrubber System: (₹129 Crore)**

Project was conceived to reduce SPM emission in flue gas from PFCC as a pollution control measure. The PFCC unit processes unconverted oil from HCU straight run low sulphur VGO, and hydro treated HCGO and converts to value added products such as propylene, LPG and gasoline. The regenerated stack wet scrubber system ensures meeting emission norms even under adverse situations since the system is installed just upstream of the regenerator stack. Project approved cost was ₹129 crore. The Mechanical completion of the project was achieved in December, 2024 and commissioned in March, 2025.

➤ **Bitumen Blowing Unit: (₹86 Crore)**

Commissioned a new Bitumen production train, powered by advanced 'Biturox' technology Licensed by M/s Porner, Austria. This new unit doubles MRPL's existing Bitumen production capability and is designed to produce high-quality VG40 Bitumen consistently, while also offering flexibility to produce VG30 and other grades as needed. Mechanical completion of the project was achieved in May, 2024 and commissioned in Nov, 2024.

➤ **Power System Upgradation Project: (₹385 Crore)**

The project envisages enhancement of grid connectivity and refinery system upgradation which includes implementation of Grid connectivity at 220 / 33 KV level to refinery and grid connectivity at 110/33 KV to Aromatics. Refinery electrical system upgradation, STG and cooling water system modifications along with other enabling activities, are part of the scope of the project. Integrated load-shedding is also included. MRPL will draw power from Bajpe Main Receiving Station which in turn will receive power from the 400 KV Substation situated at Kadandale. This 400 KV SS job and lines upto receiving station is carried out by M/s KPTCL. MRPL will draw full power from KPTCL facility once it is ready. Project approved cost is ₹385 crores. Project activities are in progress and targeted project completion is November, 2025.

➤ **Demo Bio-ATF Project of 20 KLPD capacity: (₹364 Crore)**

As a part of United Nations plan to offset aviation emissions, 'carbon offsetting and reduction scheme for

international aviation' (CORSIA) is being implemented to address any annual increase in CO2 emissions from international civil aviation above 2020 levels. However India will be participating in the second phase of CORSIA from 2027 onwards during which BIO ATF (also known as Sustainable Aviation fuel) is required to be blended with crude oil based jet fuel so as to reduce net CO2 emissions. As per directions of MoPNG, MRPL is setting up 20KLPD demo bio-ATF plant integrated with the refinery. Project approved cost is ₹364 crores. Project activities are in progress, targeted project completion is January, 2027.

➤ **Iso Butyl Benzene: (₹63 Crore)**

Iso-Butyl Benzene (IBB) is widely used in the industrial manufacture of ibuprofen, an analgesic, anti-inflammatory, over the counter painkiller. Proof-of-concept R&D and mini-pilot studies have already been completed by MRPL in collaboration with CSIR-NCL on IBB manufacturing process technology. The process technology has been patented and MRPL owns the 100% IP. MRPL is now in the process of setting up IBB demo plant of 200 TPA capacity from captive raw material streams. Project activities are in progress. The plant is targeted to be commissioned by August, 2025.

➤ **Rerouting of Aromatic Complex Pipelines From Jetty13 To Jetty10/11 of NMPA: (₹114 Crore)**

The project envisages Re-routing of the Aromatic complex products & feed cross country pipelines 18" Para xylene, 16" Benzene & 18" Naphtha from present Jetty 13 to Jetty 10 & 11. Project activities are in progress and targeted project completion is July, 2026.

➤ **Replacement of 20" Fuel Oil (FO) Line from Refinery to Jetty Area with New Above Ground Line: (₹112 Crore)**

The project envisages laying new 20" FO export line as replacement of existing line from refinery to NMPA. Project activities are in progress and targeted project completion is August, 2026.

➤ **Laying of New treated water Line From MRPL Effluent Treatment Plants 1&2 to APMC point: (₹75 Crore)**

Laying of New Effluent Line from MRPL Effluent Treatment Plants 1&2 to APMC point. The material of construction of the Pipe shall be with upgraded material i.e. High Density Polyethylene (HDPE). Project activities are in progress and targeted project completion is November, 2025.

DEVELOPMENT OF INFORMATION TECHNOLOGY, SOFTWARE, HARDWARE ETC

➤ **IT initiatives - Digital transformation:**

In today's rapidly evolving digital world, digital transformation is essential – not just a choice – for staying competitive and innovative. Our company understands that technology is the backbone of modern business, driving efficiency, adaptability, and enhanced customer experiences. We are dedicated to embracing these technological advancements through continuous investments in cutting-edge solutions and fostering a culture of innovation across all departments.

Over the past fiscal year, our IT department has spearheaded several transformative projects that have significantly enhanced our operational efficiency and positioned us at the forefront of technological innovation. One of our most notable achievements was the successful implementation of Enterprise Resource Planning (ERP) system, SAP S/4HANA in the cloud platform. As one of the first companies in our industry to adopt this cloud-based solution, we have streamlined our core business processes by seamless integration, and improved decision-making capabilities. The ERP system has enabled us to consolidate data from various business functions, resulting in enhanced transparency, faster response times, and greater agility in managing our operations.

We have made significant investments in fortifying our cybersecurity infrastructure. Recognizing that robust cybersecurity is critical in protecting sensitive information and maintaining stakeholder trust, we have implemented advanced security protocols and monitoring systems. These measures have provided us with a

resilient defence against emerging cyber threats, ensuring the integrity and confidentiality of our data. Our proactive approach to cybersecurity not only safeguards our digital assets but also reinforces our commitment to regulatory compliance and risk management, thereby securing our reputation in the industry.

Additionally, our journey into AI/ML implementation has taken a significant leap forward. We have initiated strategic projects to integrate artificial intelligence and machine learning into our business processes, setting the stage for advanced data analytics and automation. This initiative is expected to revolutionize how we handle large datasets, predict trends, and optimize operational efficiencies across various business functions.

MRPL has developed and implemented advanced real-time optimization solutions across various critical process units. These solutions leverage AI/ML technologies and digital twins to enhance operational efficiency, reduce delays, and minimize off-spec production. Real-time prediction capabilities have replaced traditional manual analysis, enabling faster decision-making and improving product quality.

AI/ML-driven closed-loop optimization has been introduced in key units to directly control process outputs and perform complex real-time calculations, resulting in improved yield and efficiency. Explainable AI models are being utilized to define safe operating conditions, address persistent quality challenges, and ensure product integrity across sensitive production lines.

In the area of predictive maintenance, real-time monitoring systems powered by AI have been deployed to detect anomalies and predict failures in critical equipment, enhancing reliability and minimizing unplanned downtime. Additionally, in-house developed AI/ML tools support energy optimization efforts, such as real-time flare monitoring and root cause analysis, which contribute to both operational and environmental performance.

These digital innovation initiatives have earned industry recognition as “Best Innovation in Refinery” award by the Ministry of Petroleum and Natural Gas, Government of India, demonstrating MRPL's leadership in applying cutting-edge technologies to drive continuous improvement and sustainable operations.

Together, these IT initiatives underscore our unwavering commitment to digital transformation and technological excellence. By integrating advanced ERP solution, strengthening our cybersecurity posture, and pioneering AI/ML applications, we are not only meeting current business challenges but also laying a solid foundation for future success. These targeted IT investments are vital for keeping our company agile, innovative, and well-equipped to tackle the challenges of today's dynamic digital environment.

SECRETARIAL STANDARDS

The Secretarial Auditor appointed by the Board for the FY 2024-25 has certified that your Company has complied with the applicable Secretarial Standards, i.e. SS-1 and SS-2, relating to 'Meetings of the Board of Directors' and 'General Meetings', respectively, during the FY 2024-25.

HEALTH, SAFETY & ENVIRONMENT PERFORMANCE

Occupational Health

1. Health

- Mangalore Refinery and Petrochemicals Limited (MRPL) has built a robust and forward-looking healthcare system, placing employee well-being, safety, and compliance at the core of its operations. Designed to serve employees, their families, and the secondary workforce, MRPL's healthcare framework is both preventive and responsive-aligning with national and global best practices and statutory requirements.
- The company operates three Occupational Health Centres (OHCs) and a Hospital, which comply fully with the Factories Act, 1948, the Karnataka Factory Rules, and relevant international occupational health standards. These centres are equipped to handle first aid, emergency care, routine health monitoring, and occupational surveillance, and are staffed by trained healthcare professionals.

- To enhance its occupational health capabilities, MRPL has invested in modern medical infrastructure. A Gas Chromatograph has been commissioned for the detection and monitoring of benzene exposure, ensuring timely identification and prevention of long-term chemical hazards. Additionally, a dedicated audiometry booth and a Pure Tone Audiometry Machine have been installed to conduct hearing assessments and support early intervention in cases of occupational hearing loss-common in high-decibel industrial environments.
- MRPL also emphasizes training and emergency readiness. The Health Department has procured high-quality training mannequins that are used to conduct practical first aid and CPR training for employees. Separate advanced mannequins allow healthcare professionals to simulate and practice emergency resuscitation, strengthening in-house response capabilities. Furthermore, the Health Department has prepared Standard Operating Procedures (SOPs) for all major accident scenarios. These SOPs are readily accessible to healthcare professionals to ensure swift and effective emergency medical treatment.
- A wide range of health awareness and wellness programs are regularly conducted across the organization. These include seminars on lifestyle diseases, mental health workshops, fitness campaigns, blood donation drives, and periodic first aid training sessions. These initiatives contribute to building a health-conscious, resilient workforce.
- In line with its commitment to continuous improvement, MRPL has renovated its OHCs and hospital facilities, making them more patient-friendly and efficient. The upgraded medical infrastructure enhances comfort, accessibility, and quality of care for all beneficiaries. New state-of-the-art equipment-including portable oxygen cylinders, BiPAP machines, and burn gel dressings-have been added to ensure timely and effective treatment, significantly improving patient comfort and recovery outcomes.
- MRPL has strategically installed Automated External Defibrillators (AEDs) at all major operational and administrative locations. These devices enable quick and effective life-saving intervention in the event of a sudden cardiac arrest, significantly improving survival outcomes through timely response.
- MRPL has incorporated Diphoterine solution into its emergency response kits. This specialized solution is highly effective in neutralizing both acid and alkali splashes, offering a crucial first line of treatment in chemical burn incidents. Its availability at key locations demonstrates MRPL's commitment to industrial chemical safety. Due to the higher prevalence of snakebite incidents in the region, anti-snake venoms are also stocked at the Health centres, ensuring rapid intervention in such critical emergencies.
- These initiatives reflect MRPL's unwavering commitment to the welfare and safety of employees & secondary workforce and regulatory compliance. The outcomes are reduced workplace medical incidents, improved employee and secondary workforce engagement, and a stronger organizational culture centered on health and safety.
- By integrating infrastructure development, international best practices, and continuous training, MRPL has positioned itself as a leader in industrial healthcare management. Its healthcare system stands as a model for responsible corporate citizenship, where people remain the most valued asset.

2. Fire & Safety

- MRPL achieved 111 days for Refinery and 3442 days for Aromatic Complex without Reportable Lost Time Injuries (RLTI).
- Emergency Response & Disaster Management Plans of Refinery and Aromatics Complex have been successfully recertified.
- Pre-commissioning Safety Audit of Devangonhi Marketing Terminal, BBU train-2 & PFCC WSS (Wet Scrubber System) were carried out by Oil Industry Safety Directorate.

3. Environment

- Consent for Operation was obtained for 40MLD De-salination plant, Devangonhi marketing terminal and Modernization Projects (RLNG facility, CCR-1 revamp, LATU, BBU & WSS) from State pollution control board.

- Environmental Clearance obtained for setting up 500TPA Green hydrogen unit from MoEF&CC.
- Extended producer responsibility obligation achieved for FY 2023-24 of 2167 MT of plastic packaging material, as per Plastic Waste Management Rule.
- Oil Spill Contingency Plan of MRPL SPM facility approved by Indian Coast Guard.
- Application filed with State pollution control board for Consent for Operation of Crude oil processing capacity to 18.4 MMTPA
- Application filed with State pollution control board for Consent for Establishment for setting up Bio-ATF and Green Hydrogen plants.
- Treated city sewage water, De-salinated water and treated effluent water is utilized in the refinery operations as sustainable water resources.
- A robust waste management system which includes recycling, reusing and responsible disposal of hazardous waste is in place.
- MRPL has set a Net Zero target (Scope-1&2) year of 2038 and is in the process of development of Net Zero strategy and its implementation plan.
- Organic manure of about 41MT produced from Vermicomposting units.
- 5259 MT of ETP oily sludge was processed internally in DCU unit.
- 1032 MT of oily sludge and 1368 MT of PFCC spent catalyst were co-processed in SPCB authorized cement industries where it is used as alternate source of energy.
- 323 MT of spent catalysts containing precious metals were disposed through SPCB authorized recyclers/ re-processors where precious metals are recovered.
- 200 MT of used oil (used Transformer oil) disposed to SPCB authorized recyclers/ re-processors.
- 31 MT of non-recyclable/ non-reusable hazardous waste disposed to secured landfill (TSDF) facility.
- 5762 numbers of tree saplings planted and 2239 numbers of fruit tree saplings were distributed as a part of “*Ek ped, maa ke naam*” plantation drive.

4. Sustainability Initiatives

Some of the key sustainability initiatives Your Company has undertaken during the FY 2024-25:

➤ **Net Zero**

MRPL has target for achieving Net Zero (Scope-1, 2) by the year 2038.

➤ **Renewable Energy**

MRPL continues to produce renewable energy through sources such as solar power to reduce its carbon footprint. In addition, MRPL has implemented energy-efficient technologies and practices to reduce energy consumption.

During FY 2024-25, total solar energy generated by MRPL was 8838 MWh and total solar energy consumed was 56,729 MWh (including the solar energy purchased).

➤ **Energy efficiency**

MRPL has taken up several energy efficiency improvement measures and has achieved a total fuel savings of 38,725 MT of Oil equivalent.

➤ **Waste Management**

MRPL is having a robust waste management system, which includes recycling, reusing, and responsible disposal of hazardous waste. Hazardous waste is co-processed through cement industries where it is used as alternate source of energy. Spent catalyst is recycled through SPCB authorized recyclers and precious metals are recovered.

During FY 2024-25, 78.54% of total hazardous and non-hazardous waste was recycled and re-used and remaining hazardous and non-hazardous waste were co-processed in cement industry, thereby achieving minimum quantity of hazardous waste disposal to Treatment, Storage and Disposal Facility (TSDF) & Incineration, which are only 0.15% and 0.06% respectively. Oily sludge generated in ETP was re-used in the DCU unit as an effective method of reducing waste.

➤ **Water conservation**

MRPL has implemented many water-conservation measures by investing in water treatment and recycling technologies to reduce its water footprint. During FY 2024-25, 57.50% of Effluent Treatment Plant (ETP) feed flow was recycled and re-used in the refinery. 56,77,318 M3 (Cubic Meter) of desalinated water from plant was utilized in MRPL during FY 2024-25. In addition to the de-salination plant, MRPL is utilizing Mangalore city treated sewage water to reduce its fresh river water consumption. During FY 2024-25, total Mangalore city treated sewage water utilized in the refinery is 52,64,327 M3.

➤ **Afforestation initiatives**

MRPL has undertaken several greenbelt development and compensatory afforestation initiatives to increase its green cover. A 50-acre greenbelt has been developed at Pilikula Biodiversity Park with approximately 4,000 native plant species of Western Ghats. Additionally, a 25-acre afforestation project at Bengre was carried out in coordination with the Karnataka Forest Department, planting locally adaptable tree species along the seashore, which helped reduce the impact of salt-laden breeze on downstream coastal facilities.

During FY 2024-25, approximately 41 MT of vermicompost was harvested from three in-house vermicomposting units. These units offer a sustainable solution for managing organic waste by converting it into nutrient-rich vermicompost. This initiative not only supports effective waste management but also reduces the dependence on inorganic fertilizers by producing a natural alternative, thereby creating value from waste.

As part of its green initiatives during FY 2024-25, MRPL planted 5762 saplings comprising of native, locally adaptable and fruit-bearing species within the refinery premises. Additionally, 2239 fruit tree saplings were distributed under the 'Ek Ped Maa Ke Naam' plantation drive, promoting environmental stewardship and encouraging community participation.

CORPORATE SOCIAL RESPONSIBILITY AND SUSTAINABILITY DEVELOPMENT

Corporate Social Responsibility:

MRPL is committed to operate its business in an economically, socially and environmentally responsible manner, while recognizing the interests of all its stakeholders and bringing them maximum value. Consequentially, MRPL's social welfare and community development initiatives revolve around the key areas of education, health care & sanitation and overall development of basic infrastructure in and around its operational area, which is Dakshina Kannada, and it is also extended to other districts of the State and outside the state as well. The CSR & SD Committee continues to evaluate the existing CSR strategy and bring about necessary changes in its implementation methods.

Major CSR Initiatives:

- CB-NAAT machines to various districts in support of eradicating the TB.
- Distribution of ECG machines to Primary Health Centre of Rural areas.
- Exterior painting to the government schools of MRPL surrounding schools
- Infrastructure facility and medical equipment's to PHCs.

- Millets distribution for HIV inmates and Senior Citizens in Dakshina Kannada.
- Free Artificial Limb camp to the Endosulfan victims.
- Drinking water purifiers to Schools, Government Hostels and Anganawadis
- Construction of additional classrooms, toilets blocks including Anganwadi centres

In addition, MRPL has committed considerable amount of financial support for the setting up of a new Astronomy & Space Science Gallery at Pilikula Regional Science Centre near Mangaluru, Procurement of Cancer detection mobile facility, Support for the construction of Palliative care centre in Mangaluru. Further, MRPL has committed support for the construction of additional floors in the Wenlock Govt Hospital in Mangaluru during the FY 2024-25.

The CSR budget of MRPL for FY 2024-25 was ₹ 82.85 Cr and the entire amount has been committed to various CSR initiatives in FY 2024-25. MRPL has identified education, healthcare, infrastructure and environment as focus areas for its CSR engagement for supporting the community. The result of these initiatives is not only a positive change in the community but also an image of the Company as a responsible business entity.

Mangalore Refinery & Petrochemicals Limited (MRPL) has been undertaking Corporate Social Responsibility (CSR) activities under the name of “Samrakshan”. This captures the spirit and commitment of MRPL's CSR initiative, which is to “protect, preserve and promote the social, cultural and environmental heritage and wealth in and around the area of our business and to usher in sustainable development”. CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN FX EXCHANGE EARNINGS AND OUTGO

[Section 134(3) (m) of The Companies Act, 2013 read with Rule 8(3) of The Companies (Accounts) Rules, 2014]

A. CONSERVATION OF ENERGY

Your company accords highest priority for energy conservation and takes proactive measures through Process Optimization, Continuous monitoring and implementation of several energy conservation measures.

1. Major Energy Conservation measures carried out for reduction of energy consumption during FY 2024-25 were:

S.No	Schemes Description	Energy Savings MTOE/Annum
1	Crude Distillation Unit-2 Hot Light Naphtha routing to Isomerization Unit	1044
2	Hot Lean Amine routing to Diesel Hydro-treating Unit (DHDT)	1573
3	Light Reformate (LR) Processing in FCC (Fluid catalytic cracking) gasoline Treatment Unit (FGTU) instead of Isomerization Unit	616
4	Hot Feed Maximization in Delayed Coker Unit	5840
5	Stoppage of Cooling Tower-1 Turbo Drive pump	5840
6	Maximization of Grid power import	11425
7	Optimization of Captive Power Plant-1/2/3 machines and maximization of Gas Turbine-2 load	7441
8	High Pressure (HP) Desalination Pump impeller trimming	119
9	Phase-3 Utility Boiler (UB) rotary air pre-heater (RAPH) air leak arresting	118
10	Gas Turbine-1 heat rate improvement with Natural Gas	4570
11	Gas Booster Compressor's performance optimization in Captive Power Plant-3	139
Total		38725

1 MTOE (Metric Tons of Oil Equivalent) = Fuel equivalent of 10,000 kcal/kg

B. TECHNOLOGY ABSORPTION

- Efforts made towards technology adaption:
 - Kero Merox-3 Reactor, conventional charcoal is replaced with pre impregnated charcoal to improve efficiency of Mercaptans removal in Aviation Turbine Fuel (ATF).
 - Hydrocracker-2 Catalyst replacement for seamless conversion of Vacuum Gas oil (VGO) into various value added products.
- Benefits derived like product improvement, cost reduction, product development or import substitution:
 - MRPL has successfully produced the Cast Polypropylene (CPP) grade of polypropylene for the first time, expanding its product portfolio in the polymer market.
- In case of imported technology (Imported during last 3 years reckoned from the beginning of the financial year):

i. Divided wall column technology (DWC)

Details of technology: Divided wall technology has been selected for implementation to improve separation efficiency of existing naphtha splitter unit in Crude Distillation Unit-2. Implementing this technology, will improve feed naphtha quality to Isomerization unit with respect to minimum heptane content and Catalytic

reforming Unit with respect to minimum hexane content. This will result in improvement in Motor Spirit yield. M/s DWC Innovations, USA is licensor for this technology.

Order placement: Q3 (2024/25).

Whether this technology has been fully absorbed: Implementation is planned during Q1 (2025/26).

4. Research and Development

Research and development activities at MRPL are spearheaded by the Innovation Centre, which serves as the nucleus for driving cutting-edge technological advancements across refining, petrochemicals, sustainability, and Active Pharma Ingredients (API) domains. MRPL Innovation Centre has achieved remarkable progress across refinery process optimization, Artificial Intelligent/Machine learning (AI/ML)-based systems for process and reliability, petrochemicals, plastic circularity, and pharmaceutical synthesis. It has successfully implemented real-time predictive models in polypropylene, power plant, and Petro-Fluid catalytic cracking unit (PFCCU), along with prescriptive models in hydro treating units, significantly enhancing throughput, yield, and energy efficiency. Notably, MRPL developed a Real-Time Optimization (RTO) system for its PFCC unit—one of the first AI/ML-driven applications to achieve closed-loop control of a large commercial process. In plastic recycling, MRPL is pioneering Polyethylene terephthalate (PET) depolymerisation technology to recover high-purity monomers, supported by a ₹6.67 crore OIDB grant in January 2025, with a pilot plant set for commissioning by the end of 2025. The Innovation centre is also innovating in pharma with in-house synthesis of isobutyl benzene (a key ingredient in Brufen) and development of APIs from low-value refinery streams. With focused efforts on the above domains, MRPL has filed 29 patents, out of which 12 have been granted and others are at different stages of approval.

MRPL Innovation Centre has been honoured with the "Special Innovation Award" by the Ministry of Petroleum and Natural Gas for the year 2024–25. This marks the third consecutive year MRPL has received recognition from the Ministry, reaffirming its leadership in industrial innovation. The Innovation Centre at MRPL has been re-recognized by the Department of Scientific and Industrial Research (DSIR) for the period from March 2025 to March 2028, repeating its continued excellence and commitment to advanced research and development.

The total expenditure on Research and Development activities for the financial year 2024-25 amounts to INR 40.18 crore.

- (ff) The Air (Prevention & Control of Pollution) Act, 1981 and rules made thereunder;
- (gg) The Special Economic Zone Act, 2005 and rules made thereunder.

For the compliances of Labour Laws & other General Laws, our examination and reporting is based on the documents, records as produced and shown to us and the information and explanations as provided to us, by the officers and management of the Company and to the best of our judgment and understanding of the applicability of the different enactments upon the Company. In our opinion, there are adequate systems and processes exist in the Company to monitor and ensure compliance with applicable General laws and Labour Laws.

The compliance by the Company of applicable financial laws, like direct and indirect tax laws, has not been reviewed in this audit since the same have been subject to review by the Statutory Auditors of the Company.

We have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by The Institute of Company Secretaries of India.
- (ii) Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.
- (iii) Listing Agreements entered into by the Company with BSE Limited and the National Stock Exchange of India Limited.

During the period under review the Company has generally complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above subject to the following observations:

1. During the year under review, the Company did not have the requisite number of Independent Directors as required under Regulation 17 (1) (b) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and thereby not meeting the provisions relating to composition of Board. Further, the Company did not have the requisite number of Independent Directors on the Board as required under Para 3.1.4 of the DPE Guidelines during the period from 1st April 2024 to 27th March 2025. However, the requirement as per the DPE Guidelines has been complied with effect from 28th March 2025.
2. During the year under review, the Company was non-compliant with the provisions of Regulation 17(1) (a) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, regarding having a Women Independent Director on the Board during the period from 1st April 2024 to 27th March 2025. However, the requirement has been complied with effect from 28th March 2025.
3. During the year under review, the Company has complied with provisions of Regulation 18(1)(b) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations 2015 and Para 4.1 of DPE Guidelines regarding requisite number of Independent Directors in the Audit Committee, Regulation 19(1)(c) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations 2015 and Para 5.1 of DPE Guidelines regarding requisite number of Independent Directors in the Nomination and Remuneration Committee, Regulation 20(2A) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations 2015 regarding requisite number of Independent Directors in the Stakeholders Relationship Committee, Regulation 21(2) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations 2015 regarding

requisite number of Independent Directors in the Risk Management Committee and Section 135 of the Companies Act, 2013 regarding requisite number of Independent Directors in the Corporate Social Responsibility & Sustainable Development Committee, except for the period from 8th November 2024 to 27th March 2025. However, the said committees were reconstituted and the requirements have been complied by the Company with effect from 28th March 2025.

4. During the year under review the Company did not have an optimum combination of nominee and independent directors as required under Para 3.1.1 of the DPE Guidelines and the number of Nominee Directors appointed by Government/ other CPSEs on the Board were more than the prescribed restriction to a maximum of two as per Para 3.1.3 of the DPE Guidelines.
5. During the year under review, the Company did not have the plans in place for orderly succession for appointment to the Board of Directors and senior management to the satisfaction of its Board of Directors as required under Regulation 17(4) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 as the Company being a Central Public Sector Enterprise (CPSE), the Plan for orderly succession for appointment of Directors is handled by Administrative Ministry, i.e., Ministry of Petroleum and Natural Gas (MoP&NG), Government of India, pursuant to DPE Guidelines.
6. During the year under review, the Company has not complied with the laws/ rules/guidelines with regard to Overtime working hours required under the Factories Act, 1948.
7. During the year under review, the Company was not able to comply with the Guidelines for Capital Structuring of Central Public Sector Enterprises (CPSEs) issued by Department of Investment and Public Asset Management (DIPAM), Ministry of Finance, Government of India with regard to payment of dividend. However, as per Clause 9.3 of the said Guidelines, the Company has applied for exemption from Department of Investment and Public Asset Management (DIPAM), Ministry of Finance for making lower payment of dividend.

We further report that,

The Board of Directors of the Company is constituted with proper combination of Executive Directors, Non-Executive Directors and Independent Directors **except for the reporting made hereinabove**. The changes in the composition of the Board of Directors that took place during the audit period were carried out in compliance with the provisions of the Act.

The Company, being a Central Public Sector Enterprise (CPSE) the appointment of Directors on the Board of the Company are made by the Administrative Ministry, i.e., Ministry of Petroleum and Natural Gas (MoP&NG), Government of India (GoI). The Company has been continuously following up with MoP&NG for appointment of requisite number of Independent Directors on the Board of the Company and the same is under active consideration with MoP&NG.

Adequate notices were given to all Directors to schedule the Board Meetings, Agenda and detailed notes on Agenda were sent in advance and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the Meeting.

Majority decision is carried through while the members' views were captured and recorded as part of the minutes.

The Thirty-Sixth Annual General Meeting of the Members of the Company was held on Thursday, August 22, 2024 at 11 AM (IST) through Video Conferencing (“VC”) / Other Audio Visual Means (“OAVM”).

No Extraordinary General Meeting of the Company was held during the Financial Year 2024-25.

We further report that based on the compliance mechanism established by the Company and on the basis of review of compliance reports pertaining to the laws applicable to the Company and taken note by the Board of the Company, we are of the opinion that the management has systems and processes in the Company commensurate with the size

and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We **further report that** during the audit period, there was no other specific event/ action in pursuance of the above referred laws, rules, regulations, guidelines, etc. having a major bearing on the Company's affairs.

MANAGEMENT DISCUSSION AND ANALYSIS

1. Economic Overview

1.1 Global Economy

The global economy was resilient despite ongoing trade tensions, inflationary pressures and the geopolitical conditions with a growth of around 3%. The growth was divergent and with uncertainty across the regions and countries. US continue to be the largest economy of the world followed by China and Germany.

While the largest economy of the world has shown better than expected growth, there was weak and slower growth due the post pandemic recovery and slowdown in the European regions, primarily in the manufacturing sector of Europe and Asia on account of supply chain disruptions and the weak external demand. The service sector performed better, supporting growth in many countries.

Going forward, global growth is projected to stabilize around the current levels. The growth forecast remains below the pre-pandemic growth rate of around 3.7%. Policy uncertainties, immigration and private investment destination uncertainties continue to remain. While the challenges to the growth of the world economy include factors such as ongoing conflicts, tensions in the Middle East, global trade route disruptions, cross-border investment and cyber threats, the overall growth is projected to be primarily driven by the emerging economies.

1.2 Indian Economy

Despite global uncertainty, India continues to be the world's fastest-growing major economy. India has crossed Japan to become the 4th largest economy in the world. India is projected to become third largest economy by 2030. The real GDP growth rate has maintained at the decadal average of about 6.4 %. Strong domestic consumption, robust services sector, Government's investments in infrastructure and digital front, resilience against global and economic shocks, improved investor confidence due to policy reforms and macroeconomic stability contributed to the growth.

The growth has been ably supported by stability on fronts such as inflation, fiscal health and external sector balance. The year saw a strong rural consumption with the private consumption expenditure growing. The services sector growth was driven by healthy activity in financial and professional services, real estate, public administration and Defence. The industrial sector grew by about 6.2%. Strong growth in construction, electricity, gas, water supply supported industrial expansion. Despite challenges India continues to register fastest growth in the Purchasing Managers Index (PMI), with the trend well within the expansionary zone. Agricultural growth remained steady during the financial year. Healthy Kharif production, above normal monsoons and an adequate reservoir level supported agricultural growth. On the inflation front, food inflation showed an overall increase, primarily driven by food items such as vegetables and pulses. The retail inflation softened.

Going ahead the headwinds to growth include elevated geopolitical uncertainties and possible commodity price shocks. India is primarily a domestic demand driven economy and fourth largest consumer market. Nearly 70% of the GDP growth is driven by domestic consumption. Factors such as relatively large domestic market, large population base, strong consumer spending, diversified economy that is not heavily dependent on any specific exports are likely to provide resilience against global uncertainty and ensure continued economic progress.

2. Overview of Energy Industry

2.1 Global scenario

The global oil consumption is projected to rise to around 120 million barrels per day by 2050 from the current levels of around 100 million barrels per day with a CAGR of approx. 0.7%. Overall global energy demand surged due to the increase in the consumption of power and ongoing rise in the electrification of various sectors.

The fossil fuels saw varied growth across different fuel types. Natural gas saw the strongest demand for growth among fossil fuels. The overall demand for fossil fuel, especially oil, remained upbeat. The growth in the liquid fuel was largely fuelled by the consumption in the non OCED countries and the future growth is projected to be driven from these economies. While the demand of oil is projected to maintain modest growth, the future growth will be impacted by the rise of renewable fuels and Electric Vehicles due to advancements in battery technology.

Although the fossil fuel still dominates the energy mix, the share of Renewable sources is seen to be increasing. The world still remains reliant on fossil fuels for energy needs despite renewables. While renewable energy has expanded, fossil fuels (coal, oil and gas) maintained an 80% share of total primary energy consumption. Nevertheless, share of fossil fuels in primary energy mix is projected to drop to around 70% by 2030 driven by energy transition, nevertheless conventional fossil fuels are projected to remain part of the energy mix beyond 2050 with regional differences. Fossil fuels will be the bridge to a just and orderly transition to clean energy.

2.2 Indian scenario

India's energy demand is directly linked to its economic growth. Hence the need for oil and gas is projected to rise supporting the overall economic growth and rising population. India imported approximately 4.84 million barrels per day (bpd) of crude oil during FY 2024-25, marginally higher than previous year. The country significantly diversified its crude oil sourcing basket, with Russia accounting for around 35% of total imports by volume, driven by favorable pricing amidst geopolitical sanctions. OPEC's share stood at around 50%, as Indian refiners optimized their procurement strategies to minimize landed costs. Geopolitical risks, including prolonged conflict in Ukraine, unrest in Red Sea region, and tight shipping capacity through the Suez Canal, led to increased freight premiums and voyage delays. India effectively managed supply side risks by adopting a diversified sourcing strategy, optimizing its global crude mix, and enhancing procurement flexibility.

India's energy demand continued its reliance on fossil fuels, while also marking the growing trend towards Renewable Energy sources driven by Government policies and enhanced awareness of climate change. Government of India, through the Ministry of Power, has officially expanded its Renewable Purchase Obligation (RPO) — now termed 'Renewable Consumption Obligation' (RCO) — trajectory from FY 2024-25 to FY 2029-30. These mandates require designated entities like DISCOMs, captive power users, and open-access consumers to source increasing shares of electricity from non-fossil source. Also during FY 2024-25, BEE rolled out the Detailed Procedure for Compliance Mechanism of 'Carbon Credit Trading Scheme' (CCTS) to reduce the emission of greenhouse gases. With RCO and CCTS becoming mandatory, this will accelerate the transition from fossil fuel to non-fossil fuel and electrification of Industrial energy consumption. The Indian energy market is experiencing dynamic changes in response to demographic and economic factors. The rise in the ownership of vehicles, the growing middle class and increasing urbanization with rising disposable incomes continue to shape the consumption pattern.

Indian Electric Vehicle sector is experiencing a rapid growth. The impetus of the government by providing policy support and the aspiration of reaching 30% electric mobility by 2030, rising environmental concerns and technological advancements is supporting the rise of the EV segment.

In spite of the continued rise in the EV segment, the consumption of petroleum products continues to grow. The oil demand in India is projected to double to about 11 million barrels per day by 2045, with HSD (High Speed Diesel) and MS (Petrol) covering 58% of India's oil demand by 2045. India's crude oil refining capacity has registered and increase from 215 MMTPA to 257 MMTPA in the past decade. Additional crude oil refining capacity addition of over 50 MMTPA is expected by 2028. India is expected to be one of largest contributors to the non OCED Petroleum consumption growth globally. The domestic refining sector maintained stable utilization rates averaging 96%, supported by consistent product demand.

3. Oil Market

During the year, the crude oil prices were very volatile and have declined sharply from about USD 90 per barrel at the start of the fiscal year 2024-25 to around USD 70 per barrel by the end of Q4. The occasional increase in prices is due to the Middle East flare ups and decrease is due to the combination of subdued demand from China and non-OPEC+ output and OPEC+ output restraint. Overall, the FY 2024-25 period has been dominated by a weak demand backdrop and strong non OPEC+ supply, anchoring prices lower. However, geopolitical shocks have intermittently triggered sharp, though fleeting, price reversals—underlining oil's enduring sensitivity to global instability.

Crude Oil Prices for the last 3 years

The year FY 2024-25 also saw a sharp drop in the demand for key products along with its cracks. The cracks (difference between crude oil & refined product price) of HSD, ATF and MS dropped down by 42%,36% and 33% respectively.

HSD (10 PPM AG) crack spreads for FY 2024-25 were lower as compared to 2022-23 & 2023-24. This is attributed to slow down of Chinese economy coupled with growth of alternative clean fuels. The decline accelerated in Q2 of FY 2024-25, driven by ramp up of diesel output from newly operational refineries in Kuwait and China and Weaker global diesel demand, particularly from key markets in Europe.

HSD Cracks (\$/bbl)

The post-pandemic travel surge, which significantly boosted ATF (MOPS) crack spreads during FY 2022-23 and FY 2023-24, eased in FY 2024-25 as global air travel demand normalized. In the early part of the fiscal year, refineries increased ATF yields to capitalize on favourable margins and this led to an oversupply in certain regions.

The reduction in MS-AG (petrol) crack spreads during Q2 of FY 2024–25 was less severe compared to the same period in FY 2023–24 and FY 2022–23. Flat to subdued margins were primarily driven by a weaker-than-expected U.S. driving season, reducing global gasoline demand, rising electric vehicle (EV) adoption in China, impacting gasoline consumption growth and additional product supply from newly commissioned refineries, contributing to regional oversupply. MS cracks coming down was another connotation. Though the demand of products remained fast growing in India, the cracks are coming down due to Global scenario. This enigma “Local market – Global Prices” poses challenges in long term view of economics of India.

4. Performance of MRPL

MRPL has processed highest ever 18.04 MMT of crude during the year, which translates to 120% of capacity utilization with a distillate yield of 81.93 %. Earlier best was 17.116 MMT (114% capacity utilization) during FY 2022-23. MRPL has once again become the single largest PSU refinery at a single location based on the crude processed during the year. MRPL also surpassed its own milestones on production of MS, Reformate, ATF and HSD and sales of Polypropylene.

MRPL has launched Toluene, a new product during the year for the supply in the domestic market. Introduction of Toluene enhances the value addition to product portfolio and realising higher margin.

During the last year MRPL has commissioned 66 retail outlets with retail sales volume touching 229.8 million liters. MRPL has made its retail presence in Tamil Nadu and now operates its retail outlets in Karnataka, Kerala and Tamil Nadu. Going ahead, increasing its presence in other states and consolidating the presence in the existing states will continue. MRPL has also achieved 15.5 % ethanol blending as part of EBP during the year. The Marketing Terminal Infrastructure Project at Devangonhi was successfully commissioned, providing the required infrastructure to market our products HSD, MS and ATF from its own marketing terminal at Devangonhi. MRPL's leadership position in its region of operations for polypropylene sales continued.

5. Crude Basket

MRPL is capable of processing various grades of crude oil and has 273 different types of crude in its basket from various regions. Till date MRPL has processed 104 different types of crude from various parts of the globe. Crudes have been sourced from Asia, South America, Africa, USA and Russia. Crude was sourced from various National Oil Companies of exporting countries on term basis and from open market on spot basis.

Following new crudes were processed during the year:

- a) Kaliningrad (Russia, API-39.4)
- b) Varandey (Russia, API-37.6)
- c) Eocene (Neutral Zone, API-18.1)
- d) Peregrino (Brazil, API-14.4)
- e) Sandibinskaya (Russia, API-31.8)
- f) Merey-16 (Venezuela, API-15.69)

7. Key Financial Ratios are presented below:

				FY 2024-25	FY 2023-24	Change in %
Sl No.	Ratio Name	Formula	UoM	Ratio		
1.	Debtor Turnover Ratio	Sales / Average Trade Receivable	No. of times	29.64	25.26	17.35%
2.	Inventory Turnover Ratio	Sales / Average Inventory	No. of times	13.63	13.95	(2.26%)
3.	Interest Service Coverage Ratio (ISCR)	EBIDTA / (Interest & Finance Charges Net Of Amount Transferred To Expenditure During Construction)	No. of times	2.45	7.09	(65.45%)
4.	Current Ratio	Current Assets / Current Liabilities	No. of times	0.98	1.03	(5.22%)
5.	Debt Equity Ratio	Total Debt / Share Holder's Equity	No. of times	0.99	0.94	(5.87%)

6.	Operating Profit Margin	(Profit Before Exceptional Item And Tax+Finance Cost-Other Income) /Revenue From Operations Net Of Excise Duty on Sale of Goods	%ge	1.00	7.14	(86.04%)
7.	Net Profit Margin	Profit After Tax For The Period/Revenue From Operations Net Of Excise Duty on Sale of Goods	%ge	0.05	3.98	(98.66%)
8.	Return On NetWorth	(Total Comprehensive Income - Preferred Dividend) / Equity (NetWorth)	%ge	0.24	27.10	(99.11%)

Major Reasons for Significant Change in Ratio (i.e. 25% or more from previous year):

- Interest Service Coverage Ratio (ISCR):** Mainly due to decrease in EBIDTA during the current financial year.
- Operating Profit Margin:** Mainly due to decrease in Operating Profit (Profit before Exceptional Item and Tax + Finance Cost - Other Income) during current financial year as compared to previous financial year.
- Net Profit Margin:** Mainly due to decrease in Profit after Tax (PAT) during current financial year as compared to previous financial year.
- Return on Net Worth:** Mainly due to decrease in Total Comprehensive Income (TCI) during current financial year as compared to previous financial year.

8. Opportunities and Threats:

Although the global demand of fossil fuels has been sluggish, from India's point of view, the opportunity and demand come from its growing internal requirement. Although we are the fourth largest economy in terms of GDP, our per capita consumption is still lower. As we move towards the target of Vikasit Bharat, the per capita consumption is projected to rise, and this will translate into demand for petroleum products.

The transportation sector is at the forefront of energy transition to renewables. In spite of the growing trends and disruptive projections of the alternate fuels, immediate impact due to transition is far from reality due to strong underlying economic growth and the technological maturity.

A burgeoning middle class and increasing rural and urban consumption creates high demand for petrochemicals. The present petrochemical consumption of India is lower than the global average. Opportunities continue to exist for the refineries that are well integrated with petrochemicals.

Demand for refinery streams rich in Ethylene and Propylene molecules will continue to grow with rising wealth, as these are primarily used in the production of polymers for plastics, synthetic fibers, and other petrochemical intermediates. MRPL is working on options available and exploring calculated investment opportunities in petrochemicals to embrace the rising demand. MRPL is well placed by virtue of inherent flexibility for petrochemical integration. The presence of refining and petrochemicals at a single location provides an added advantage to the refinery to realize production of petrochemical intermediates at a low cost compared to the full cracker route.

Refinery streams having certain key molecules can serve as a feedstock for creating high-value (Active

Pharmaceutical Ingredients) APIs through complex chemical synthetic processes, adding value to traditional refining operations. APIs are used to prepare drug formulations. Valorizing such molecules enables the conversion of petrochemical molecules into pharmaceutical ingredients, driving sustainability and diversification in the refining industry. MRPL is setting up a demo plant for Isobutyl Benzene (IBB) and its production is expected by the beginning of third quarter for FY 2026. MRPL is further working on various others API's for production from captive streams.

India has set the Net Zero target year as 2070 for the country. India has targeted for reducing its emission intensity per unit of GDP by 33 - 35% from 2005 levels by 2030 in line with the commitment given during the COP 21 meeting at Paris. Meeting the net zero targets shall involve huge capex and necessity to diversifying into other segments such as Biofuels apart from the Green/ Renewable Energy. However, the company cannot afford to ignore these developments and has taken calculated steps towards its adoption. MRPL has set the target for meeting the Scope-1 and 2 net zero target by 2038 aligning with parent company ONGC. A consultant has been appointed to study and recommend road map to meet this target.

In today's emerging Renewable Energy market, opportunities exist for diversifying into and for capitalizing on this source as an alternative to the power derived from the fossil fuel. Government's mission to reach to the target of 500 GW RE power by 2030 and reaching EV mobility to 30% by 2030 is creating the required supply and demand side infrastructure for tapping this resource.

Energy costs are significantly affected by crude costs. Global uncertainty in the supply and demand of crude oil poses challenges to this imperative requirement of the industry. Refineries are currently heavily dependent on the fossil fuel for their energy needs, and this poses a threat to the shrinking GRM's of the refiners. MRPL's grid power infrastructure augmentation project is a step towards creating infrastructure to decouple from variations in its energy costs by sourcing green power from the grid. This will also help MRPL to meet the RCO obligations mandated by Government of India.

As a part of UN plan to offset aviation emissions, Carbon Offsetting & Reduction Scheme for International Aviation (CORSIA) is being implemented to address increase in CO₂ emission from International civil aviation above 2020 levels by ICAO. India will be participating in the second mandatory phase of CORSIA from 2027. Government has indicated 1%, 2% and 5% SAF blending in ATF from 2027, 2028 and 2030 respectively for all international flights from India. Considering the same, MRPL is setting up a 20 KLPD Bio-ATF plant based on the indigenous technology from CSIR-IIP & EIL. The production from this plant is expected to be started in early 2027. Further, plans are being worked out for production of SAF from existing Refinery units.

MRPL is in the process of setting up a Green Hydrogen plant with a capacity of 500 TPA. In line with the National Green Hydrogen Mission, MRPL has initiated action for procurement of Green Hydrogen on BOO mode under SIGHT-2B Scheme. The transition to the future by the company will include well researched efforts in clean energy, carbon footprint reduction, sustainable initiatives and effective deployment of capital resources towards diversifying into these future markets for sustained growth in coming years.

9. Risks

9.1 Crude Supply and Price Risk

Refining due to it's inherent nature of Business, is exposed to potential disruptions in crude oil supply, particularly from the Middle East, which constitutes a major portion of our import basket. Geopolitical tensions, port congestion, freight volatility, or logistical chokepoints such as the Strait of Hormuz may impair the timely arrival of crude cargoes. Although strategic diversification efforts basis qualitative, quantitative & commercial evaluation, it is our constant & consistent endeavor to remain balanced amidst various regions & domestic producers. This approach enables effective opportunity capture and significant risk mitigation, provided that crude availability, quality compatibility, voyage economics, and operational challenges remain balanced and satisfactorily aligned for processing. The company maintains an agile crude procurement strategy

supported by a mix of term contracts and opportunistic purchases, coupled with adequate inventory buffers to ensure continuity of refining operations.

MRPL's linear programming model is regularly updated to reflect the evolving availability, quality and price of various crude oils for helping in decision making and arriving at the most optimum slate for procurement. This has been valuable for MRPL to tap into opportunity crudes quickly and secondary feedstock based on economics. The SPM facility ably supports crude procurement in large quantities for freight advantage.

9.2 Refinery Margin Risk

Refinery margins are inherently volatile and driven by a complex interplay of crude differentials, product cracks, and regional demand-supply balances. Margins are particularly sensitive to Asian middle distillate and MS economics, seasonal demand patterns, and export competitiveness. While periods of strong cracks in diesel and MS markets support margins, episodes of feedstock price spikes or product oversupply exerts downward pressure. The company actively manages margin risk through dynamic crude slate optimization, & calibrated run-rate adjustments to align with market signals, thereby safeguarding profitability.

MRPL has been improving the physical parameters by achieving high capacity utilization, accessing low cost feedstock, diversifying the sourcing of crude, addition of new value added products to its portfolio and increasing its retail foot print. However, owing to external factors such as sharp drop in cracks, price fluctuations in short durations has impacted the operating margins. It may also be noted that Singapore benchmark margin was also dragged by over 40% during the financial year due to similar reasons.

10. Internal Control Systems

MRPL has a well-established internal control mechanism which ensures an effective internal control environment. MRPL is constantly improving and upgrading its system of internal control towards ensuring management effectiveness and efficiency, reliable reporting on operations and finances and securing high level legal compliance and risk management. Adequate systems of internal control are in place to commensurate with the Company's size and nature of its operations. These have been designed to provide reasonable assurance with regard to recording and providing reliable financial and operational information, complying with applicable statutes, safeguarding assets from unauthorized use or losses, executing transactions with proper authorization and ensuring compliance of corporate policies.

The Internal Audit is supervised by the Audit Committee which continuously monitors the effectiveness of the internal control systems with an objective to provide to the Board of Directors, an independent, objective and reasonable assurance on the adequacy and effectiveness of the organization's risk management control and governance process. The Audit Committee reviews the audit and effectiveness of the Company's internal control environment and monitors the implementation of audit recommendations and follow up actions.

MRPL is also covered by regular compliance and performance audits by the Comptroller and Auditor General of India. CAG has deputed a Resident auditor to the company. The company is also under the jurisdictional oversight of the Central Vigilance Commission and has a full-fledged Vigilance Department headed by a Chief Vigilance Officer.

11. Joint Ventures

11.1 Shell MRPL Aviation Fuel Services Limited (SMAFSL)

The Company has Joint Venture viz. Shell MRPL Aviation Fuel Services Limited (SMAFSL) with Shell B.V. Netherlands wherein your Company holds 50% of share capital and the balance is held by Shell Gas BV, The Netherlands. The accounts of SMAFSL have been consolidated with MRPL's Accounts.

SMAFSL supplies Aviation Turbine Fuel (ATF) to both domestic and international airlines at several Indian airports and acts as a contracting Company for Indian carrier's International Aviation Fuel requirements. The total income for FY 2024-25 is ₹2576.47 Crore as against ₹2112.16 Crore in FY 2023-24 with Pre-tax profit of ₹70.82 Crore (Previous Year ₹40.90 Crore) and post-tax profit of ₹53.62 Crore (Previous Year ₹30.80 Crore).

11.2 Mangalam Retail Services Limited (MRSL)

During 2017-18, the Company reduced its shareholding in Mangalam Retail Services Limited (MRSL) to 18.98% and accordingly MRSL presently is not an associate Company of MRPL. MRSL has not yet started commercial operations.

12. Conclusions

The physical performance of MRPL in FY 2024-25 was one of its best ever. It's once again the largest, single location PSU refinery. The company is well placed in key metrics of Capacity Utilization and Leverage. The company is focused additionally on improving product margins through operational efficiency, launch of new value products and marketing expansion. MRPL has commissioned 167 Retail Outlets covering Karnataka, Kerala and has made a presence in Tamil Nadu. These will be further expanded, and new outlets will be rolled out in adjoining states.

13. Forward Looking Statements

All statements that address expectations or projections about the future, but not limited to the Company's strategy for growth, product development, market position, expenditures and financial results, are forward-looking statements. Since these are based on certain assumptions and expectations of future events, the Company cannot guarantee that these are accurate or will be realized. The Company's actual results, performance or achievements could thus differ from those projected in any forward-looking statements. The Company assumes no responsibility to publicly amend, modify or revise any such statements on the basis of subsequent developments, information or events. The Company disclaims any obligation to update these forward-looking statements, except as may be required by law.

CORPORATE GOVERNANCE REPORT

1. OUR CORPORATE GOVERNANCE PHILOSOPHY

Corporate Governance encompasses a set of systems and practices to ensure that the Company's affairs are being managed in a manner which ensures accountability, transparency and fairness in all transactions in the widest sense. MRPL maximizes shareholders value while safeguarding and promoting the interest of stakeholders and maintains a steadfast commitment to ethics and code of conduct. The philosophy of the Company on Corporate Governance envisages the attainment of the highest levels of transparency, accountability and ethics, in all facets of its operations, with the primary objective of enhancing shareholder value.

The Company complies with the changes brought in the area of Corporate Governance by the Companies Act, 2013 and the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 [**“SEBI (LODR) Regulations, 2015”**]. Besides adhering to provisions of SEBI (LODR) Regulations, 2015, the Company also follows the Guidelines on Corporate Governance for Central Public Sector Enterprises (CPSEs) issued by the Department of Public Enterprises (DPE), Government of India except with regard to availability of requisite number of Independent Directors on the Board of the Company under SEBI (LODR) Regulation, 2015. MRPL being a CPSE, Directors on the Board of the Company are appointed by the Administrative Ministry i.e. Ministry of Petroleum & Natural Gas (MoP&NG), Government of India. Appointment of requisite number of Independent Directors on the Board of MRPL as per SEBI (LODR) Regulations, 2015 is pursued with MoP&NG.

The Company believes that an active, well-informed and independent Board is necessary to ensure the highest standards of Corporate Governance. The Board of Directors of the Company is at the core of adopting the best practices of Corporate Governance. The Board thus oversees the Management functions and protects the long- term interests of our stakeholders.

The Corporate Governance framework of the Company is based on the following broad principles:

- Protecting and facilitating the exercise of shareholders' rights;
- Committed to a transparent system and values; which recognize the rights of the stakeholders and encourages co-operation between Company and the Stakeholders;
- Timely and accurate disclosure on all material matters including the financial situation, performance, ownership and governance of the Company;

We have examined the compliance of the conditions of Corporate Governance by Mangalore Refinery and Petrochemicals Limited ('the Company') for the financial year ended 31st March, 2025, prescribed under Regulations 17 to 27, Clause (b) to (i) of Regulation 46(2) and paragraph C, D and E of Schedule V of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('SEBI LODR') and as stipulated in the Guidelines on Corporate Governance for Central Public Enterprises, issued by Department of Public Enterprises, Ministry of Finance, Government of India ('DPE Guidelines').

The compliance of the conditions of Corporate Governance is the responsibility of the management. Our examination was limited to the review of procedures and implementation thereof, as adopted by the Company for ensuring compliance with conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, and the representations made and considering the relaxations granted by the Ministry of Corporate Affairs and Securities and Exchange Board of India, we certify that the Company has complied with the conditions of Corporate Governance stipulated in the aforesaid provisions of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and the Guidelines on Corporate Governance for Central Public Sector Enterprises issued by Department of Public Enterprises for the year ended on March 31, 2025 except the following:

- a) The Company did not have the requisite number of Independent Directors as required under Regulation 17 (1) (b) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 during the year ended 31st March 2025.

Further, the Company did not have the requisite number of Independent Directors on the Board as required under Para 3.1.4 of the DPE Guidelines during the period from 1st April 2024 to 27th March 2025.

The Company being a Central Public Sector Enterprise (CPSE), Directors on the Board are appointed by the Administrative Ministry, i.e., Ministry of Petroleum and Natural Gas (MoP&NG), Government of India. The Company has been pursuing with the Administrative Ministry, for appointment of requisite number of Independent Directors on its Board. However, the requirement as per the DPE Guidelines has been complied with effect from 28th March 2025.

- b) The Company did not have a Women Independent Director on the Board during the period from 1st April 2024 to 27th March 2025 as required under the provisions of Regulation 17(1) (a) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

The Company has complied with the requirement with effect from 28th March 2025.

- c) The Company has complied with Regulation 18(1)(b), 19(1)(c), 20(2A) and 21(2) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Section 135 of the Companies Act, 2013 regarding requisite number of Independent Directors in the Audit Committee,

Nomination and Remuneration Committee, Stakeholders Relationship Committee, Risk Management Committee and Corporate Social Responsibility & Sustainable Development Committee respectively except for the period from 8th November 2024 to 27th March 2025.

Further, the Company has complied with requirements as per Para 4.1 and 5.1 of the DPE Guidelines regarding requisite number of Independent Directors in the Audit Committee and Nomination and Remuneration Committee respectively except for the period from 8th November 2024 to 27th March 2025.

The said committees were reconstituted and the Company has complied with the requirements with effect from 28th March 2025.

- d) The Company did not have the plans in place for orderly succession for appointment to the Board of Directors and senior management to the satisfaction of its Board of Directors as required under Regulation 17(4) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

The provisions have not been complied as the Company being a Central Public Sector Enterprise (CPSE), the Plan for orderly succession for appointment of Directors is handled by Administrative Ministry, i.e., Ministry of Petroleum and Natural Gas (MoP&NG), Government of India, pursuant to DPE Guidelines.

- e) The Company did not have an optimum combination of nominee and independent directors during the financial year ended 31st March 2025 as per Para 3.1.1 of the DPE Guidelines and the number of Nominee Directors appointed by Government/ other CPSEs on the Board were more than the prescribed restriction to a maximum of two as per Para 3.1.3 of the DPE Guidelines.

We further state that such compliance is neither an assurance as to the future viability of the Company nor of the efficiency or effectiveness with which the management has conducted the affairs of the Company.

26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Climate Change Adaptation, Resilience and Transition	Risk	Climate change poses significant risks through potential disruptions and regulatory changes. Proactively adapting to climate risks and transitioning to a low-carbon economy can reduce vulnerabilities and leverage emerging opportunities.	MRPL is actively working on reducing the carbon footprint. In addition, MRPL is in process of developing the Net-zero roadmap to mitigate emissions from operations.	Negative Implication: Not addressing carbon footprint may result in negative perspective in the market and low investor involvement.
2	Energy Management and Efficiency	Opportunity	MRPL's operations are energy-intensive and efficient energy management is essential for reducing operational costs and complying with energy regulations. Transitioning to low-carbon interventions can also enhance energy security and sustainability.	-	Positive Outcome: Reducing energy consumption and dependency on fossil fuels lowers operational costs and enhances sustainability credentials.
3	Emissions Management	Risk	Managing emissions is critical for MRPL to comply with stringent environmental regulations and to minimize environmental impact. Reducing emissions also presents opportunities for innovation and leadership in sustainable practices.	Adopting cleaner technologies, improving energy efficiency and implementing carbon capture and storage solutions. Regularly monitoring and reporting emissions to ensure compliance and transparency. Investing in research and development for innovative emission reduction technologies.	Positive Outcome: Reducing emissions enhances regulatory compliance and environmental reputation, potentially opening new markets. Negative Outcome: Failure to manage emissions can lead to regulatory fines, increased costs and reputational damage.

4	Water Stewardship	Risk	Efficient water management is crucial for MRPL's operations, especially in regions with water scarcity. Effective water stewardship can improve operational sustainability and community relations.	Implementing water-efficient technologies and recycling systems. Conducting regular water audits to identify areas for improvement. Engaging with local communities and stakeholders to address water-related concerns and ensure sustainable water use.	Negative Outcome: Inadequate water management can lead to resource scarcity, causing operational disruptions and increased production costs. Poor stewardship can also strain relationships with local communities and stakeholders, potentially resulting in regulatory penalties and reputational damage.
5	Clean Technology Initiatives	Opportunity	Investing in clean technologies can help reduce pollution, conserve resources and drive sustainable growth, enhancing its reputation as a responsible corporate entity.	-	Positive Outcome: Adopting clean technologies reduces environmental impact, complies with regulations and can attract sustainability-focused investors and customers, potentially leading to new revenue streams and cost savings.
6	Waste Management and Circularity	Opportunity	Owing to the generation of over 70% of hazardous waste during the operations, integrating circularity can reduce waste, lower disposal costs and create new business opportunities by reusing materials.	-	Positive Outcome: Reducing waste and adopting circularity can lower operational costs, enhance regulatory compliance and open up new revenue streams from recycled materials.
7	Biodiversity and Ecosystem Conservation	Risk	MRPL's operations can significantly impact local ecosystems and biodiversity. Proactively managing these impacts can enhance MRPL's sustainability performance and community relations while mitigating legal and reputational risks.	Conducting environmental impact assessments and implementing biodiversity management plans. Restoring habitats and engaging in conservation projects. Collaborating with environmental organizations to ensure best practices.	Negative Outcome: Failure to manage biodiversity impacts can lead to legal issues, community opposition and reputational damage.
8	Product Stewardship	Opportunity	Increasing consumer and regulatory demand for sustainable products presents an opportunity for MRPL to innovate and lead in product stewardship, incorporating ESG considerations throughout the product lifecycle to meet evolving market needs.	-	Positive Outcome: Leading in product stewardship can enhance market positioning, meet regulatory requirements and attract sustainability-focused customers, potentially increasing sales and market share.

9	Occupational Health and Safety	Risk	Ensuring a safe and healthy workplace is critical for MRPL due to the high-risk nature of operations. A strong safety culture can prevent accidents, improve employee morale and enhance operational efficiency.	Implementing comprehensive safety management systems, conducting regular training and audits and promoting a safety-first culture. Ensuring compliance with all health and safety regulations to minimize risks.	Negative Outcome: Poor safety management can lead to accidents, legal liabilities, increased insurance costs and reputational damage.
10	Human Capital Development	Opportunity	Investing in employee training and development enhances MRPL's human capital, leading to improved performance, innovation and employee satisfaction. A skilled workforce is essential for maintaining competitiveness in the evolving energy sector.	-	Positive Outcome: Enhanced human capital development leads to increased innovation, better performance, higher employee retention and attractiveness as an employer. This can improve operational efficiency and drive long-term growth.
11	Diversity, Equity, and Inclusion	Opportunity	Promoting diversity, equity and inclusion can enhance MRPL's innovation, decision-making and overall performance. A diverse workforce can better reflect the customer base and bring varied perspectives to problem-solving.	-	Positive Outcome: Enhanced diversity and inclusion can improve employee satisfaction and retention, drive innovation and strengthen company's reputation.
12	Human Rights	Risk	Upholding human rights is essential for MRPL to maintain ethical standards and comply with international norms. Ensuring fair labor practices and preventing discrimination can improve employee morale and mitigate legal risks.	Implementing policies that ensure fair labor practices, conducting regular training on human rights, and establishing grievance mechanisms to address issues promptly.	Positive Outcome: Strong human rights practices can enhance company reputation, improve employee satisfaction, and attract socially conscious investors. Negative Outcome: Human rights violations can lead to legal issues, reputational damage, and decreased employee morale.
13	Community Development	Opportunity	Engaging with local communities and contributing to their development can enhance MRPL's social license to operate and foster goodwill. Effective community development initiatives	-	Positive Outcome: Positive community relations can enhance MRPL's reputation, facilitate project approvals and reduce conflicts.

			can lead to improved community relations and support for company projects.		
14	Customer Relationship and Experience.	Risk & Opportunity.	Building strong customer relationships and delivering exceptional service are critical for MRPL's success. Understanding customer needs and addressing pain points can enhance customer satisfaction and loyalty, leading to increased market share and revenue.	Implementing robust customer feedback systems, providing excellent after-sales service and continuously improving product offerings based on customer input.	Positive Outcome: Improved customer satisfaction and loyalty can lead to increased market share and revenue growth. Negative Outcome: Poor customer relationships can result in lost business, negative reviews and decreased revenue.
15	Supply Chain Management	Risk & Opportunity	Integrating sustainability into supply chain practices is essential for MRPL to manage risks and ensure responsible sourcing. A sustainable supply chain can enhance operational efficiency, reduce costs and improve supplier relations.	Establishing criteria for supplier selection based on social, ethical and environmental performance. Engaging with suppliers to build their capacity for sustainable sourcing and conducting regular audits to ensure compliance.	Positive Outcome: A sustainable supply chain can reduce operational risks, lower costs and enhance reputation. Negative Outcome: Failing to manage supply chain sustainability can lead to disruptions, increased costs and reputational damage.
16	Business Ethics	Risk & Opportunity	Adhering to high standards of business ethics is critical for MRPL to maintain stakeholder trust and ensure long-term success. Ethical practices can prevent corruption, enhance transparency and foster a culture of integrity within the organization.	Developing and enforcing a robust code of conduct, providing ethics training for employees and establishing whistleblower mechanisms to report unethical behavior.	Positive Outcome: Strong business ethics can enhance reputation, attract ethical investors and prevent legal issues. Negative Outcome: Unethical practices can lead to legal consequences, reputational damage and loss of stakeholder trust.
17	Corporate Governance	Risk & Opportunity	Effective corporate governance is essential for MRPL to ensure accountability, transparency and fairness in decision-making. Strong governance practices can enhance investor confidence, improve operational efficiency and support long-term sustainability.	Establishing a robust governance framework, ensuring the independence and effectiveness of the board and regularly reviewing governance practices to align with best practices.	Positive Outcome: Strong corporate governance can enhance investor confidence, improve operational efficiency and support long-term sustainability. Negative Outcome: Poor governance can lead to regulatory issues, loss of investor confidence and operational inefficiencies.

18	Anti-corruption Practices	Opportunity	Preventing corruption is vital for MRPL to maintain integrity, comply with regulations and avoid legal and reputational risks. Implementing anti-corruption measures can enhance transparency and foster a culture of honesty within the organization.	-	Positive Outcome: Strong anti-corruption measures can enhance reputation, prevent legal issues and attract ethical investors.
19	Economic Performance	Opportunity	Ensuring strong economic performance is crucial for MRPL's growth and sustainability. Focusing on profitability, efficiency and sustainable growth can create value for shareholders and support long-term business objectives.	-	Positive Outcome: Strong economic performance can attract investors, support business expansion and enhance shareholder value.
20	Public Policy	Risk & Opportunity	Engaging in public policy development is important for MRPL to influence regulations that impact the industry and support beneficial policies. Responsible advocacy can enhance the company's reputation and align business practices with societal needs.	Engaging with policymakers and industry associations to advocate for favorable regulations. Ensuring transparency in lobbying activities and aligning public policy engagement with corporate values and sustainability goals.	Positive Outcome: Effective public policy engagement can influence favorable regulations, enhance reputation and support business objectives. Negative Outcome: Poor public policy engagement can lead to regulatory challenges, reputational damage and potential legal issues.
21	Risk Management	Risk & Opportunity	Effective risk management is essential for MRPL to identify, assess and mitigate potential threats to operations and reputation. Proactive risk management can enhance resilience, support informed decision-making and protect against financial losses.	Developing and implementing comprehensive risk management frameworks, conducting regular risk assessments and establishing mitigation strategies for identified risks.	Positive Outcome: Strong risk management can enhance resilience, protect against financial losses, and support informed decision-making. Negative Outcome: Poor risk management can lead to operational disruptions, financial losses, and reputational damage.

Governance, leadership, and oversight	
7	Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements (listed entity has flexibility regarding the placement of this disclosure) At MRPL, we view sustainability not as a destination but as an ongoing journey, one that is continuously shaped by innovation, responsibility and long-term value creation. As we progress through FY 2025–26, we remain committed to embedding sustainability into every layer of our operations, decision-making processes and stakeholder engagement. The past year has further strengthened our role in supporting India's energy transition while enhancing our own institutional capacity to address the climate challenges, environmental stewardship and inclusive development. We have moved beyond compliance-based reporting towards an integrated, outcome-oriented sustainability approach. Guided by the National Guidelines on Responsible Business Conduct (NGRBC) and supported by the Board-level oversight, our ESG strategy is operationalized through cross-functional coordination and sustained leadership focus. Our business model continues to align with national priorities on energy security, net-zero ambitions and equitable growth. We are deepening our focus across multiple key areas - clean energy adoption, emission reduction, waste circularity, social empowerment and digital innovation. Our roadmap includes targeted investments in emerging technologies and cleaner fuels, reinforcing our low-carbon growth aspirations and our commitment to achieving Net Zero emissions by 2038. Over the past year, we achieved improvements in our energy and emissions performance. We continued to make strides in enhancing operational efficiency and driving our sustainability agenda forward. Achieving the highest-ever crude throughput during the year, we also implemented focused optimization initiatives, resulting in improvement in energy intensity. The measures also led to a decline in our overall GHG emission intensity (scope-1,2) per MT of crude processed by 5.9% from last financial year. Simultaneously, our efforts in resource conservation and process enhancement enabled reduction in water usage intensity by 15.2% from last financial year. These achievements illustrates our commitment to low-carbon growth and the responsible stewardship of natural resources, aligned with our long-term vision for sustainable and resilient operation. Environmental responsibility remains core to our strategy, reflected in our focus on improving resource efficiency and enhancing green infrastructure across our operations. These actions are not merely technical upgrades, but part of a broader shift toward regenerative practices that reduce environmental impact while enhancing long-term business resilience. Equally, our commitment to social responsibility remains a key pillar of our value system. We have continued to deepen our engagement with local communities through participatory development models focused on improving quality of life and enabling long-term socio-economic upliftment. During the year, we supported several community development projects, including the construction of a rehabilitation and skill training centre for women and girls, community halls for marginalized groups such as the Koraga tribe and infrastructure support for government schools across Karnataka. Health, safety and human capital development remain priority areas, with sustained focus on inclusion, skill enhancement and employee well-being. Looking ahead, we aim to deepen ESG integration across all levels of the organization, supported by innovation, transparent disclosures and accountable governance. MRPL remains committed to contributing meaningfully to India's sustainable growth journey while creating enduring value for all stakeholders.

4. Does the entity have an anti-corruption or anti-bribery policy? If yes, provide details in brief and if available, provide a web-link to the policy.

Yes, MRPL has a well-defined Code of Conduct for its employees and Directors, which provides guidance on business ethics, bribery, corruption and appropriate conduct. It includes clear protocols for giving and receiving gifts and entertainment, specifying monetary thresholds, an approval mechanism for exceptions and illustrative examples of acceptable practices. MRPL upholds the highest standards of ethics and integrity, reinforcing its commitment to transparent and accountable governance. Ethical conduct is viewed as a core driver of trust and performance across the organization.

The company has an established Vigilance Administration led by the Chief Vigilance Officer (CVO), covering preventive vigilance, punitive vigilance and surveillance & detection. The CVO monitors misconduct, oversees investigations, processes disciplinary actions and refers matters to the Central Vigilance Commission (CVC) when necessary. Proactive measures are also taken to prevent unethical practices and foster a culture of integrity within the organization.

- Whistle Blower Policy – This policy allows MRPL directors and employees to raise genuine concerns about unethical behaviour, suspected fraud, or violations of the company’s code of conduct or ethics policy. It also ensures protection against retaliation for individuals using this mechanism.

Essential Indicators

- Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.

	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)	Details of improvements in environmental and social impacts
R&D	3.50%	21.57%	₹ 1.1 Crores spent for deodorizing unit out of ₹ 5.1 Crores total R&D expense in FY 2023-24. After the commissioning of the deodorizing unit, the caustic processing efficiency in the downstream Wet Air Oxidation (WAO) unit has improved and the unit is now operating with an odor reduction efficiency of 85–90%. An amount of ₹ 1.4 Crore was spent on scaling up PET depolymerization as part of the total R&D expenditure of ₹ 40.18 crores in FY 2024–25. This novel technology enables the conversion of used PET plastic back into its monomer form.
Capex	0.67%	5.03%	IRT-Inlet receive tanks for better oil recovery and to reduce shock load.

- Does the entity have procedures in place for sustainable sourcing? (Yes/No)**

Yes. MRPL follows comprehensive sustainable sourcing procedures governed by its Material Management (MM) Manual. This Manual outlines standardized processes for procuring goods and services necessary for refinery operations in a consistent, cost-effective and environmentally responsible manner. Crude and other inputs are sourced from credible suppliers vetted through a structured registration and NOC process. Additionally, MSDS (Material Safety Data Sheet) requirements are followed to ensure safety and sustainability across the supply chain.

- If yes, what percentage of inputs were sourced sustainably?**

MRPL has established procedures in place for sustainable sourcing, as outlined in its comprehensive Material Management (MM) Manual. The Manual provides clear guidelines for procuring goods and services essential for the operation and maintenance of the refinery in a consistent, reliable and environmentally responsible manner.

Key highlights of MRPL's sustainable sourcing practices include:

- **Structured Procurement Processes:** All procurement follows the MM Manual, promoting efficiency and reduced environmental impact.
- ◆ **Long-Term and Rate Contracts:** Help manage volatility and ensure secure, continuous supply.
- ◆ **Eco-Conscious Procurement Principles:** Emphasis on transparency, fairness, competitiveness and environmental stewardship.
- ◆ **Digitization and Paperless Procurement:**
 - ◆ End-to-end digitized PR-to-PO (Purchase Requisition to Purchase Order) process.
 - ◆ E-office-based internal approvals to eliminate paper.
 - ◆ A dedicated e-tender portal enables transparent electronic bidding, aligning with MRPL's green procurement goals.
- **MSME Inclusion:**
 - ◆ Purchase preferences, EMD waivers and relaxed eligibility criteria for MSEs.

◆ Efforts to meet Public Procurement Policy targets:

- 25% from MSEs
- 4% from SC/ST MSEs
- 3% from Women-led MSEs

- **Labor Compliance:** MRPL enforces adherence to Minimum Wages Act, Contract Labour Regulations and ensures safe working conditions through tender-linked clauses, PPE provision and safety training.
- **Zero Tolerance:** Child labor and forced labor are strictly prohibited.
- **Grievance Redressal:** Active grievance handling via MSME Champion Portal, Samadhan Portal, CPGRAMS and Independent External Monitors (IEMs) for high-value tenders.

10. Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage such system?

Yes, MRPL has implemented an Occupational Health and Safety Management System certified under ISO 45001:2018. The system covers all employees and contract workers whose work and/or workplace is under the operational control of the organization. Its implementation is aligned with applicable legal and regulatory requirements, including the Factories Act, 1948, Model Rules under the Factories Act, Karnataka Factories Rules, 1969 and OISD Guidelines

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

The entity has established robust processes to identify, assess and mitigate work-related hazards for both routine and non-routine activities. These include:

- Medical surveillance through periodic on-the-job health check-ups and full-body examinations for vulnerable groups such as food handlers
- Diagnostic tests such as Urine Phenol Testing and Pure Tone Audiometry to monitor potential chemical and noise-related exposure
- Industrial Hygiene Surveys to detect exposure to physical, chemical, or biological agents
- Risk-based safety assessments such as Quantitative Risk Assessment (QRA), Hazard and Operability Study (HAZOP), Job Safety Analysis (JSA), Pre-Commissioning Safety Audits and both internal and third-party External Safety Audits (including by OISD)
- Additionally, HIRA of existing facility is performed, reviewed & updated in all respective departments every year to identify & mitigate risks.

The outcomes of these assessments are used to take necessary risk control measures and the processes are reviewed periodically to ensure continual improvement.

c. Whether you have processes for workers to report the work related hazards and to remove themselves from such risks. (Y/N)

Yes, the entity has established defined processes that allow workers to report work-related hazards and withdraw from unsafe situations, in alignment with its commitment to proactive safety management. Workers are encouraged to actively participate in safety committee meetings, where concerns related to workplace risks can be discussed. Additionally, mechanisms such as safety suggestion boxes and an online reporting platform hosted on the entity's internal portal are in place to facilitate anonymous or direct reporting of near-miss incidents, unsafe acts and unsafe conditions. These systems are designed to ensure that all safety-related issues are captured, assessed and addressed in a timely and transparent manner. The entity also fosters a culture where employees and contract workers are empowered to stop work in the event of imminent danger, thereby reinforcing their right to a safe working environment.

d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/ No)

Yes, all employees and contract workers have access to comprehensive healthcare services provided through Occupational Health Centres (OHCs) and an in-house MRPL Hospital, which operate 24x7. All OHC services, including Outpatient (OPD) and Inpatient (IPD) treatment, are provided free of cost to employees and workers. Extended services at the MRPL Hospital are available on a chargeable basis. Medical services include:

- Pre-employment, pre-placement, periodic and follow-up medical examinations
- Diagnostic services such as Urine Phenol Testing and Pure Tone Audiometry

- Access to first aid, ambulance services and on-site emergency medical care

In addition, regular health awareness sessions are conducted for employees and contract workers. All facilities are operated by qualified medical officers, EMTs, nurses and support staff, with medical infrastructure maintained in line with current standards and operational needs.

11. Details of safety related incidents, in the following format:

Safety Incident/Number	Category	FY 2024-25 Current Financial Year	FY 2023-24 Previous Financial Year

	Workers	2	0
No. of fatalities	Employees	0	0
	Workers	1	0
High consequence work-related injury or ill-health (excluding fatalities)	Employees	0	1
	Workers	3	0

12. Describe the measures taken by the entity to ensure a safe and healthy work place.

MRPL undertakes comprehensive measures to ensure a safe and healthy work environment for all employees and contract workers. These include:

- Identification and mitigation of workplace hazards through structured risk assessments and regular safety audits, including third-party audits
- Training programs for employees and workmen on emergency response, hazard identification, first aid, firefighting techniques, ergonomics and proper use of personal protective equipment (PPE)
- Mandatory reporting and investigation of near-miss incidents, first-aid cases, reportable lost-time injuries and fatal incidents
- Installation of safety signage at high-risk areas to promote awareness and caution
- Active functioning of Area and Central Safety Committees, which meet regularly to review safety performance and drive improvements
- Onsite and offsite emergency mock drills are conducted periodically to ensure preparedness across all operational levels
- Regular housekeeping of work areas to maintain safe, clean and hazard-free environments

These measures, supported by documented procedures and 24x7 emergency medical facilities, reinforce MRPL's strong commitment to occupational health and safety and continuous improvement in workplace safety culture.

13. Number of Complaints on the following made by employees and workers:

	FY 2024-25 (Current Financial Year)			FY 2023-24 (Previous Financial Year)

14. Assessments for the year:

	% of your plants and offices that were assessed (by entity or statutory authorities or third parties)
Health and safety practices	100%
Working Conditions	100%

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health & safety practices and working conditions.

All safety-related incidents are thoroughly investigated and the learnings from investigation reports are shared across the organization to enhance awareness and prevent recurrence. Corrective actions are implemented based on the root cause analysis and their effectiveness is monitored to ensure closure.

Significant risks or concerns identified through safety assessments and audits related to health and safety practices or working conditions are evaluated systematically. These are addressed using the hierarchy of risk controls and compliance is verified through regular internal and external safety audits. This continuous feedback and improvement process supports MRPL's commitment to proactive and preventive safety management.

Leadership Indicators
1. Does the entity extend any life insurance or any compensatory package in the event of death of (A) Employees (Y/N) (B) Workers (Y/N).

a. Employees (Yes/No)	Yes
b. Workers (Yes/No)	Yes

2. Provide the measures undertaken by the entity to ensure that statutory dues have been deducted and deposited by the value chain partners.

MRPL ensures statutory compliance by incorporating specific clauses in its General Conditions of Contract (GCC), requiring vendors to deduct and deposit applicable dues, including GST and TDS. MRPL does not directly engage any contract workmen; instead, orders are placed for specific jobs with contractors, who in turn engage contract workmen as per their operational needs. As the Principal Employer, MRPL ensures that contractors comply with all applicable statutory requirements, including timely disbursement of wages through e-payment, remittance of statutory contributions to EPFO and ESIC and provision of other statutory benefits. Contractors are required to submit proof of wage payment and statutory compliance before their bills are processed. To ensure accountability, periodic audits are conducted at three levels by the concerned officer, the HR team and the finance team, to verify adherence to all compliance requirements.

3. Provide the number of employees / workers having suffered high consequence work-related injury / ill-health / fatalities (as reported in Q11 of Essential Indicators above), who have been rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment:

	Total no. of affected employees/ workers		No. of employees/workers that are rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment	
	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
Employees	1	1	1	0
Workers	4	0	0	0

4. Does the entity provide transition assistance programs to facilitate continued employability and the management of career endings resulting from retirement or termination of employment? (Yes/ No)

Yes, transition assistance programs are provided to support employees in managing career endings due to retirement or separation.

5. Details on assessment of value chain partners:

	% of value chain partners (by value of business done with such partners) that were assessed
Health and safety practices	100%
Working Conditions	100%

6. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from assessments of health and safety practices and working conditions of value chain partners.

MRPL undertakes periodic assessments of health and safety practices across its value chain, based on which the following corrective and preventive actions have been implemented:

- Notices are issued to vessels to maintain hygiene standards prior to berthing. Port Health Officer clearance is obtained before loading/unloading, especially during health emergencies.
- Transport Partner Safety:
 - ◆ Safety training provided to all Public Carrier Vehicle Operators (PCVOs) and TT crews.
 - ◆ Defensive Driver Training (DDT) and mock emergency drills conducted.
 - ◆ Eye testing camps held and spectacles distributed.
 - ◆ Canteen and rest facilities upgraded at loading points.
- Regular audits are conducted and time-bound action plans implemented to address gaps in safety and hygiene.
- Contracts include mandatory clauses on legal compliance, workplace safety (PPE, safety training, work permit systems) and access to redressal mechanisms like MSME Champion Portal, Samadhan, CPGRAMS and Independent External Monitors (IEM) for high-value tenders.
- All accidents are investigated, with lessons shared organization-wide. Effectiveness of corrective actions is reviewed and compliance is verified through audits.

Value chain partners are required to comply with MRPL's HSE standards as per contractual obligations. Identified risks are addressed through structured controls and continuous monitoring.

PRINCIPLE 4: Businesses should respect the interests of and be responsive to all its stakeholders

Essential Indicators

1. Describe the processes for identifying key stakeholder groups of the entity.

MRPL employs a comprehensive stakeholder engagement process. This process uses both formal and informal communication methods to identify the needs and expectations of stakeholders. It consists of four key phases: planning, identifying, engaging and reporting.

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

S.No.	Stakeholder Group	Whether identified as Vulnerable & Marginalized Group (Yes/No)	Channels of communication (Email, SMS, Newspaper, Pamphlets, Advertisement, Community Meetings, Notice Board, Website), Other	Frequency of engagement (Annually/ Half yearly/ Quarterly / others – please specify)	Purpose and scope of engagement including key topics and concerns raised during such engagement

6	Government/ Regulatory bodies	No	E-mails, notices, website	On a requirement basis	Regarding compliances on act and rules

Leadership Indicators

- 1. Provide the processes for consultation between stakeholders and the Board on economic, environmental and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.**

Stakeholder consultations are primarily conducted by functional teams, business heads and relevant company officers. Feedback and issues of strategic or material significance arising from these engagements are escalated to the Board through formal reporting structures or routed via dedicated Board Committees. These committees such as those overseeing Business Risk, CSR and Sustainability, Marketing Strategies & IT Oversight, Planning & Projects and Dispute Settlement serve as key channels for reviewing stakeholder inputs and ensuring Board-level consideration and action where required.

- 2. Whether stakeholder consultation is used to support the identification and management of environmental and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.**

Yes, inputs are received from stakeholders during community awareness program which is conducted quarterly on various environmental indicators. MRPL extensively uses stakeholder consultation to identify areas of improvement in environmental and social topics. Many of the company's major decisions are influenced as a result of outcomes of stakeholder engagement. While undertaking CSR projects under the specified focus areas, MRPL undertakes consultation with concerned stakeholders of the community/ local authorities/ representative bodies to tailor programs/ projects to address their needs.

- 3. Provide details of instances of engagement with and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.**

- MRPL undertakes targeted community development initiatives focused on vulnerable and marginalized groups. These include infrastructure support for government-aided schools, vocational training centers and rehabilitation facilities, particularly benefiting women, girls and students in under served regions of Karnataka.
- MRPL follows the Public Procurement Policy for Micro and Small Enterprises (MSEs), which mandates procurement from MSE vendors, including those owned by entrepreneurs from Scheduled Castes (SC), Scheduled Tribes (ST) and women-led enterprises.
- The company promotes inclusive employment by providing opportunities to individuals from socially and economically disadvantaged communities, reinforcing its commitment to equitable workforce representation.

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes, MRPL has established robust systems and processes to address and prevent adverse human rights impacts across its operations. The company strictly prohibits child labor and upholds a zero-tolerance policy towards human rights violations. All MRPL policies are aligned with the fundamental rights enshrined in the Constitution of India, applicable labor laws and international frameworks, including relevant ILO conventions.

To ensure implementation, an Engineer-in-Charge is appointed for each unit, office, or installation to oversee compliance with human rights and labor standards. Additionally, a designated focal point from the HR team addresses human rights concerns and grievances. Awareness is promoted among employees, security personnel, contractors and vendors through regular communication and training.

MRPL adheres to Presidential Directives and Government of India guidelines to eliminate any form of discrimination. The organization fosters freedom of speech and association through established bodies like the MRPL Staff Association and MRPL Employees Union, ensuring an inclusive and respectful work environment.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

MRPL is committed to upholding and promoting human rights across all its operations. MRPL has institutionalized a structured Grievance Redressal Mechanism to address employee concerns, including those related to human rights. Employees can register their grievances by writing it to the Committee. These grievances are reviewed by the respective Grievance Redressal Committee, which engages with the aggrieved employees to seek a fair resolution. If the employee is not satisfied with the committee's decision, an appeal can be filed for further review.

For Contractual Workforce, the grievances pertaining to human rights are resolved through the respective Engineer-in-Charge (EIC) & through the dedicated HR Team (Contract Section). MRPL also ensures strict compliance with the provisions of the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013. In alignment with the Act, Internal Complaints Committee (ICC) have been reconstituted at all relevant locations. Detailed guidelines governing the constitution, roles and procedures of the ICC have been widely circulated to ensure transparency and adherence to due process.

- The methodology for calculating 'Emission intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP)' was revised in FY 2024-25 in line with updated industry guidelines. As a result, the figures for FY 2023-24 have been restated.
- Emissions calculations are as per GHG protocol and includes emissions from MRPL refinery, aromatic complex and associated facilities.

b. Indicate if any independent assessment/ evaluation/assurance has been carried out for total GHG Emissions by an external agency? (Yes/No)

No

8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

Yes, MRPL is adopting a comprehensive decarbonization strategy aimed at minimizing environmental impacts from its operations. In alignment with its parent organization ONGC, MRPL has set a Net Zero target year of 2038 for Scope 1 and 2 emissions.

Key initiatives include:

- **Green Hydrogen:** A 500 TPA Green Hydrogen plant is being established, targeted for commissioning by FY 2026–27. Additionally, under the SIGHT-2B scheme, MRPL has floated a tender for a 10 KTPA capacity plant to further scale green hydrogen production.
- **Renewable Energy Integration:** MRPL has installed solar units with a total capacity of 8.76 MW and is enhancing its renewable energy mix. A project to upgrade grid power import capacity from 32 MVA to 125 MVA by FY 2027–28 is underway to enable greater renewable energy usage.
- **Biofuels:** A 20 KLPD Sustainable Aviation Fuel (Bio-ATF) plant is under development within the refinery. This facility will use feedstocks like palm stearin, used cooking oil and tree-borne oils.
- **Fuel Switch to Natural Gas:** MRPL has commissioned a RLNG facility with 0.8 MMSCMD capacity, facilitating a transition to cleaner fuels.
- **Energy Conservation:** MRPL continues to implement energy efficiency and conservation initiatives across units to reduce both energy consumption and GHG emissions.

9. a. Provide details related to waste management by the entity, in the following format:

Parameter	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
Total Waste generated (in metric tonnes)		
Plastic waste (A)	2,434	1,948
E-waste (B)	213	3.2
Bio-medical waste (C)	1.1	0.8
Construction and demolition waste (D)	0	0.0
Battery waste (E)	17.8	9.5
Radioactive waste (F)	0	0.0

Other Hazardous waste. Please specify, if any. (G) - Oily sludge, spent catalyst, spent activated carbon, Discarded Containers, used oil, Furnace Residue etc.	9,356	7,588
Other Non-hazardous waste generated (H). Please specify, if any. (Break-up by composition i.e. by materials relevant to the sector)	3,223	4,896
Total (A+B + C + D + E + F + G + H) (MT)	15,245	14,445
Waste intensity per rupee of turnover (Total waste generated/Revenue from operations) – MT/ INR million	0.014	0.014
Waste intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total waste generated / Revenue from operations adjusted for PPP) – MT/ USD million	0.29	0.31*
Waste intensity in terms of physical output – MT/ MT of crude oil processed	0.00085	0.00087
Waste intensity (optional)– the relevant metric maybe selected by the entity	-	-

Note:

- For intensity calculation, the adjusted PPP conversion factor of ₹20.66/USD (as per latest IMF rates) has been applied. Source: <https://www.imf.org/external/datamapper/PPPEX@WEO/OEMDC/IND>
- The methodology for calculating 'Waste intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP)' was revised in FY 2024-25 in line with updated industry guidelines. As a result, the figures for FY 2023-24 have been restated.
- E-waste was disposed through CPCB/ KSPCB-approved recyclers.
- Hazardous waste is handled as per Hazardous Waste Rules, 2016. Spent catalysts and other waste are stored and disposed through authorized recyclers approved by CPCB/KSPCB.

For each category of waste generated, total waste recovered through recycling, re-using or other recovery operations (in metric tonnes)

Category of waste		
(i) Recycled	6,712	6,039
ii) Re-used	5,266	3,348
(iii) Other recovery operations	0	0
Total	11,978	9,387
For each category of waste generated, total waste disposed by nature of disposal method (in metric tonnes)		
Category of waste		
(i) In cineration	8.9	264.9
(ii) Land filling	24.1	0
(iii) Other disposal operations	3,383	4,048
Total	3,449	4,313

- b. Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency?

No

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

MRPL is embracing circular economy principles to minimize waste and optimize resource utilization through the promotion of 5R: refuse, reduce, reuse, repurpose & recycle practices. This includes the utilization of recycled materials and blending slop oil into the Crude Distillation Unit (CDU) alongside crude oil, while the sludge from the Effluent Treatment Plant (ETP) is reprocessed in the Delayed Coker

Unit (DCU). Comprehensive standard operating procedures are in place to ensure effective waste management practices. In FY 2024–25, 99.75% of hazardous waste generated at the refinery was diverted from landfill through reuse, recycling and co-processing initiatives.

These practices are aimed at minimizing the use and impact of hazardous and toxic materials across the entity's operations and promote sustainable production practices

11. **If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:**

S. No.	Location of operations/offices	Type of operations	Whether the conditions of environmental approval/ clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any
NA			

12. **Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:**

S. No	Name and brief details of project	EIA Notification No	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
1	Environmental Impact Assessment (EIA) report for the capacity expansion from 16.6 to 18.2 MMTPA has been updated through an addendum to include details of the 500 TPA Green Hydrogen Plant at MRPL, Mangalore.	NA	13/01/2025	Yes	Yes	EC uploaded on MRPL website https://mrpl.co.in/sites/default/files/9.%20Modernization.pdf

13. **Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:**

Yes, MRPL is compliant with all applicable environmental law/ regulations/ guidelines in India

S. No.	Specify the law/regulation/guidelines which were not complied with	Provide details of the non-compliance	Any fines/penalties/action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any
1	Nil	Nil	Nil	NA

Leadership Indicators

1. **a. Water withdrawal, consumption and discharge in areas of water stress (in kilolitres): For each facility / plant located in areas of water stress, provide the following information:**

(i) **Name of the area**

(ii) **Nature of operations**

(iii) **Water withdrawal, consumption and discharge in the following format:**

Not Applicable

- b. Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.**

Not Applicable

- 2. Please provide details of total Scope 3 emissions & its intensity, in the following format:**

Parameter	Unit	FY 2024-25 (Current Financial Year)	FY 2023-24 (Previous Financial Year)
Total Scope 3 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , Nf ₃ , if available)	Metric tonnes of CO ₂ equivalent	5,49,64,477	5,04,36,705
Total Scope 3 emissions per rupee of turnover	tCO ₂ e/INR million	50.30	47.95
Total Scope 3 emission intensity (optional) – the relevant metric may be selected by the entity	tCO ₂ e/MT of crude processed	3.05	3.05

Note: Emissions calculations are as per GHG protocol and includes emissions from MRPL refinery, aromatic complex and associated facilities.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No

- 3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.**

Not Applicable

- 4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:**

S. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	Wet scrubber system	The existing PFCC unit incorporated a WetScrubber system to eliminate particulate matter and sulfur oxides from stack emissions.	Reduction in Particulate Matter Emissions into the atmosphere
2	Municipal STP water	Utilization of 3.1 MGD Municipal STP water in MRPL operations in FY 2024-25	Reduced dependency on freshwater intake
3	RLNG utilization	MRPL has implemented a Natural Gas facility with a capacity of 1.2 MMSCMD to utilize natural gas in Processing Units (HGU) and CPPs, which is now operational.	Reduction in emissions from heaters

- 5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.**

Yes, The entity has a comprehensive Emergency Response and Disaster Management Plan that includes both On-Site and Off-Site Emergency Plans. The On-Site Plan is approved by the Directorate of Factories, Boilers, Industrial Safety & Health, Government of Karnataka and covers multiple accident scenarios with mitigation measures. Biannual mock drills are conducted to ensure preparedness. The Off-Site Plan is approved by the Chairman of the District Disaster Management Authority (DDMA), Dakshina Kannada. The plan addresses natural disasters including floods, earthquakes, cyclones and pandemics and is developed in line with PNGRB guidelines and DDMA directives.

6. **Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.**

Not Applicable

7. **Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.**

100% of all vessels hired for crude and vessel accepted for export necessarily comply environmental compliance terms covered under MARPOL.

All Suppliers and Service providers give undertaking to abide by General Guidelines for Environment and Energy Compatibility which is part of Tender GCC. This process incorporates clauses pertaining to environmental, social, labour practice criteria and quality compliance, ensuring alignment with internal control mechanisms and statutory requirements.

PRINCIPLE 7 Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

Essential Indicators

1. a. Number of affiliations with trade and industry chambers/ associations.

MRPL is affiliated with four trade and industry associations as indicated below.

b. List the top 10 trade and industry chambers/ associations (determined based on the total members of such body) the entity is a member of/ affiliated to.

S. No.	Name of the trade and industry chambers/associations	Reach of trade and industry chambers /associations (State/National)
1	Federation of Indian Export Organisations (FEIO)	National
2	Global Compact network India	National
3	Standing Conference of Public Enterprises (SCOPE)	National
4	Confederation of Indian Industry	National
5	Federation of Indian Petroleum Industry (FIPI)	National

2. Provide details of corrective action taken or underway on any issues related to anti-competitive conduct by the entity, based on adverse orders from regulatory authorities.

Name of authority	Brief of the case	Corrective action taken
Not Applicable, since there were no such issues reported in FY 2024-2025.		

Leadership Indicators

1. Details of public policy positions advocated by the entity:

Sl. No.	Public policy advocated	Method resorted for such advocacy	Whether information available in public domain? (Yes/No)	Frequency of Review by Board (Annually/Half yearly/Quarterly/ Others – please specify)	Web link, if available
MRPL contributes to the development of public policies and industry standards by actively engaging with key government and regulatory bodies such as the Ministry of Petroleum & Natural Gas (MoP&NG), Oil Industry Safety Directorate (OISD), Centre for High Technology (CHT) and the Petroleum and Natural Gas Regulatory Board (PNGRB). Through these channels, MRPL provides technical inputs and supports policy formulation and standard-setting initiatives aimed at advancing national energy priorities and public welfare.					

PRINCIPLE 8 Businesses should promote inclusive growth and equitable development

Essential Indicators

1. Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.

Name and brief details of project	SIA Notification No.	Date of notification	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Weblink
No Social Impact Assessments were conducted for FY 2024-25.					

2. Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:

S. No.	Name of project for which R&R is ongoing	State	District	No. of Project Affected Families	% of PAFs covered by R&R	Amounts paid to PAFs in the FY (in INR)
1	MRPL Phase IV	Karnataka	Dakshina Kannada	R & R data collection is under process	R & R data collection is under process	Nil

3. Describe the mechanisms to receive and redress grievances of the community.

For mechanisms, telephonic communication is in place to address grievances of the local community on any environmental impacts. MRPL checks the refinery boundary area for any abnormalities and provides feedback to the community that lodged the complaint.

4. Percentage of input material (inputs to total inputs by value) sourced from suppliers:

	FY 2024-25 (Current Financial Year)	FY 2023-24* (Previous Financial Year)
Directly sourced from MSMEs/ small producers	54.82%	34.19%
Directly from within India	21.78%	29.45%

*The calculation methodology for FY 2023-24 has been revised in FY 2024-25 to ensure consistency and comparability applying uniform exclusions for both years. The percentage of inputs sourced from MSMEs/small producers excludes the following categories: (a) Crude purchases, (b) Single tender procurements, (c) Proprietary orders, (d) Plant and machinery orders with a single line item value of ₹50 crore or more and (e) Ethanol-related purchases.

5. Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent / on contract basis) in the following locations, as % of total wage cost

Location	FY 2024-25 (Current Financial Year)	FY 2023-24* (Previous Financial Year)
Rural	0.79%	0.00%
Semi-urban	0.00%	0.00%
Urban	93.88%	93.73%
Metropolitan	5.33%	6.27%

Leadership Indicators

- Provide details of actions taken to mitigate any negative social impacts identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):

Details of negative social impact identified	Corrective action taken
Not Applicable	

- Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:

S. No.	State	Aspirational District	Amount spent (in INR)
1	Karnataka	Raichur	9,47,000
2	Karnataka	Yadgir	1,28,000

- (a) Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized /vulnerable groups? (Yes/No)

Yes. MRPL follows the Public Procurement Policy for Micro and Small Enterprises (MSEs) notified by the Ministry of MSME, which includes specific provisions for SC/ST and women entrepreneurs.

- From which marginalized /vulnerable groups do you procure?

MRPL procures from MSEs owned by SC/ST and women entrepreneurs.

- What percentage of total procurement (by value) does it constitute?

During the reporting year, 1% was sourced from MSEs owned by SC/ST entrepreneurs and 3.9% from MSEs owned by women entrepreneurs.

The calculation excludes procurements made through Single Tender, Proprietary items, Plant and Machinery orders with individual line items exceeding ₹50 crore, Ethanol purchases and Crude oil procurement.

- Details of the benefits derived and shared from the intellectual properties owned or acquired by your entity (in the current financial year), based on traditional knowledge:

S. No.	Intellectual Property based on traditional knowledge	Owned/Acquired (Yes/No)	Benefit shared (Yes/No)	Basis of calculating benefit share
Not Applicable				

- Details of corrective actions taken or underway, based on any adverse order in intellectual property related disputes wherein usage of traditional knowledge is involved.

Name of authority	Brief of the Case	Corrective action taken
Not Applicable		

- Details of beneficiaries of CSR Projects:

S. No.	CSR Project	No. of persons benefitted from CSR projects	% of beneficiaries from vulnerable and marginalized groups
1	Total 213 CSR Projects executed in FY 2024-25 relating to construction of toilets, additional classrooms, Anganawadi, community halls etc, infrastructure facilities like bench, desk, tables, sports equipment's, drinking water coolers etc to schools, SC/ST hostels and medical equipment's like CB - NAAT, X-ray machines etc to district hospitals and PHCs, artificial limb camps etc.	3.80 Lakhs	82%

PRINCIPLE 9 Businesses should engage with and provide value to their consumers in a responsible manner
Essential Indicators
1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

Customers can register feedback, suggestions or complaints about products and services related issues through email to concerned Sales Officer or in complaint register/ suggestion book available at the retail outlet (Petrol Pump).

2. Turnover of products and/ services as a percentage of turnover from all products/services that carry information about:

Parameters	As a percentage to total turnover
Environmental and social parameters relevant to the product	100% Tank Trucks of petroleum products use HAZCHEM labels
Safe and responsible usage	Material safety data sheet (MSDS) is available on request to all stakeholders for safe handling of material during transit/ usage.
Recycling and/or safe disposal	100% bags used for packaging purpose of PP are labelled with Recycling Mode

3. Number of consumer complaints in respect of the following:

	FY 2024-25 (Current Financial Year)		Remarks	FY2023-24 (Previous Financial Year)		Remarks
	Received during the year	Pending resolution at end of year		Received during the year	Pending resolution at end of year	
Data privacy	0	0	NA	0	0	NA
Advertising	0	0	NA	0	0	NA
Cyber-security	0	0	NA	0	0	NA

Restrictive Trade Practices	0	0	NA	0	0	NA
Unfair Trade Practices	0	0	NA	0	0	NA
Other	0	0	NA	0	0	NA

4. Details of instances of product recalls on account of safety issues:

	Number	Reasons for recall
Voluntary recalls	Nil	NA
Forced recalls	Nil	NA

5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy.

Yes, MRPL has an Information Security policy in place and MRPL is certified for Information Security Management Systems (ISMS), ISO/IEC 27001.

The weblink to the information security policy is :

https://mrpl.co.in/Content/Information_Security_Policy.pdf

In addition, MRPL is in process of preparing the Framework/Policy for Data Privacy (As per Digital Personal Data Protection)

6. Provide details of any corrective actions taken or underway on issues relating to advertising and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services.

No incidents related to cyber security or data privacy were reported and therefore, no corrective actions were necessary.

4. Provide the following information relating to data breaches:

a. Number of instances of data breaches: 0

b. Percentage of data breaches involving personally identifiable information of customers: 0

c. Impact, if any, of the data breaches: NA

Leadership Indicators

1. Channels / platforms where information on products and services of the entity can be accessed (provide web link, if available).

Information of MRPL's products and services can be accessed through the following links:
https://mrpl.co.in/en/Parent/Marketing_and_Products

2. Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.

- o Polymer bags are printed with necessary guidelines pertaining to plastic waste management.
- o Product related information accessed by customers through <https://mrpl.co.in>.
- o Suitable safety signages/ Do's and Don'ts banners/ hoardings placed in retail outlets.
- o Retail outlets attendants including dealers are imparted regular trainings to ensure customers are provided with correct information about the product.
- o Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

MRPL has well established contact mechanism with both institutional and retail customer, through various regional offices as well as channel partners, regarding information dissemination on product availability. The company also communicates by way of Emails/ Telephone/ Social Media/ SMSs and notices to notify end users.

4. Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/Not Applicable) If yes, provide details in brief. Did your entity carry out any survey about consumer satisfaction relating to the major products/services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)

- A) Regular information regarding grade name, batch number, quality type etc are displayed on Polypropylene product packaging. Details of product specs are shared with customers as per their requirement.
- B) Yes, the company carries out product/ services feedback from the customers.

INDEPENDENT AUDITOR'S REPORT

To The Members of
Mangalore Refinery and Petrochemicals Limited
Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **MANGALORE REFINERY AND PETROCHEMICALS LIMITED** (“the Company”), which comprise the Standalone Balance Sheet as at March 31, 2025, and the Standalone Statement of Profit and Loss, (including other comprehensive income), the Standalone Statement of Changes in Equity and the Standalone Statement of Cash flows for the year then ended, and notes to the Standalone Financial statements, including a summary of the Material Accounting Policies and other explanatory information (hereinafter referred to as the “standalone financial statements”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the “Act”) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, including the (Indian Accounting Standards) Rules, 2015, as amended, (“Ind AS”) and the relevant rules issued thereunder, of the state of affairs of the Company as at March 31, 2025, and its profit (including other comprehensive income), changes in equity and cash flows for the year ended on that date.

Basis for opinion

We conducted our audit in accordance with the Standards on Auditing (“SAs”) specified under Section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the audit of the standalone financial statements section of our report. We are independent of the company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (“ICAI”) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Companies Act, 2013 and the rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the auditors' responsibilities for the audit of the Standalone Financial Statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Standalone Financial Statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Standalone Financial Statements.

Sr. No	The Key Audit Matters	Auditors' Response
1.	Property, Plant and Equipment - (Refer Note No.5) There are areas where management judgement impacts the carrying value of property, plant and equipment, and their respective depreciation rates. These include the decision to capitalise or expense costs; the review of useful life and residual value on reporting date; the use of management assumptions and estimates for the determination or the measurement criteria for Property, Plant and Equipment (PPE) derecognised upon disposal, replacement, deduction and reclassification. Due to the materiality in the context of the Balance Sheet of the Company and the level of judgement and estimates required, we consider this to be as area of significance.	We assessed the controls in place over the Property, Plant & Equipment, evaluated the appropriateness of capitalisation process, performed tests checks on costs capitalised, and the de-recognition criteria for assets disposed, replaced, and reclassified. In performing these procedures, we reviewed the judgements made by management including the nature of underlying costs capitalised; the appropriateness of useful life and residual value considered for calculation of depreciation; the useful lives of assets prescribed in Schedule II to the Companies Act and the useful lives of certain assets as per the technical assessment of the management. We observed that the management has regularly reviewed the aforesaid judgements and there are no material changes.
2.	Evaluation of Contingent Liabilities and Recoverability of pre-deposit thereto (Refer Note No 45) Contingent liabilities disclosed are in respect of items which in each case are above the threshold limit. There are several claims and litigations pending before various forums against the company which have not been acknowledged as debt by the company and are disclosed as contingent liabilities. These claims and litigations involve significant judgement to determine the possible outcome of these disputes. In view of significant management estimate and judgement involved, we considered this as a key audit matter	The following audit procedures were carried out in this regard: We examined items above the threshold limit for determination of contingent liabilities and obtained details of Excise, customs, VAT/ Sales Tax/ Entry Tax, Goods and Services Tax, Income tax assessments/demands as well as other disputed claims against the Company as on March 31, 2025. Obtained an understanding of the nature of litigations pending against the Company and discussed the developments during the year for key litigations with the management and legal department of the company. We have assessed the Management's underlying assumptions in estimating the possible outcome of such disputed claims/ cases against the Company, based on records and judicial precedents made available.

3.	Recognition and measurement of Deferred Tax Assets (Refer Note No.25) As per “Ind AS 12 – Income Taxes”, Deferred Tax Assets are the amount of income tax recoverable in future periods in respect of (a) deductible temporary differences (b) the carry forward of unused tax losses and (c) the carry forward of unused tax credits A deferred tax asset shall be recognised for the carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised. Determination of probable future taxable profit is a matter of judgment based on convincing evidence. Considering the management's involvement in estimation and judgement of determining the future taxable profits which have a degree of uncertainty, this matter has been determined as a key audit matter.	Our audit procedure included, but was not limited to the following: Considered the company's past and current year's taxable profits, taxes paid, obtained details of carry forward losses under income tax and details of estimates of future taxable profits. Tested the period over which the deferred tax assets on such unused tax losses and unused tax credits would be recovered against future taxable income. Tested the management's underlying assumptions and judgments in estimating the probable future taxable profits and the existence of sufficient taxable temporary difference against which the unused tax losses or unused tax credits can be utilised by the company. Assessed the adequacy and appropriateness of the disclosures in the Standalone financial statements.

Responsibilities of Management and those charged with governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the the Companies Act, 2013 with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting

Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Board of Directors is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the company's financial reporting process.

Auditors' Responsibilities for the audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing an opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in

aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2020 (the "Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Companies Act 2013, we give in the **"Annexure - A"**, a statement on the matters specified in the paragraph 3 and 4 of the order, to the extent applicable.
2. Based on the verification of books of account of the Company and according to the information and explanations given to us, we give in **"Annexure - B"** a report on the directions issued by The Comptroller and Auditor General of India in terms of sub-section 5 of Section 143 of the Act.
3. The company does not have the required number of Independent Directors on its Board due to vacancy arising out of end of term of the existing independent directors, from September 2020 onwards hence being non-compliant with relevant Regulations of SEBI Listing Obligation and Disclosure Requirements (LODR) Regulations, 2015. Also refer Note No.56 to the Standalone Financial Statements.
4. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) The Standalone Balance Sheet, Standalone Statement of Profit and Loss (including other comprehensive income), the Standalone Statement of Cash Flows and the standalone statement of changes in Equity dealt with by this Report are in agreement with the books of account;
 - d) In our opinion, the aforesaid standalone financial statements comply with Indian Accounting Standards specified under Section 133 of the Act.
 - e) In view of exemption given vide notification no. G.S.R. 463(E) dated June 5, 2015, issued by Ministry of Corporate Affairs, provisions of Section 164(2) of the Act regarding disqualification of directors, are not applicable to the Company, since it is a Government Company.
 - f) With respect to the adequacy of the internal financial controls with reference to standalone financial

statements of the Company and the operating effectiveness of such controls, refer to our separate report in “Annexure -C”.

- g) Being a Government Company, pursuant to the notification No GSR 463 (E) dated June 5, 2015 issued by Ministry of Corporate Affairs, the provisions of Section 197 of the Act as regards managerial remuneration are not applicable to the company.
- h) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note No. 45 to the Standalone Financial Statements;
 - (ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - (iii) There has been no delay in transferring amounts required to be transferred to the Investor Education and Protection Fund by the Company.
 - (iv) a. The Management has represented that, to the best of its knowledge and belief, as disclosed in the Note no. 48.11 to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - b. The Management has represented that, to the best of its knowledge and belief, as disclosed in the Note no. 48.12 to the standalone financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - c. Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) of the Companies (Audit and Auditors) Rules, 2014, as provided under (a) and (b) above, contain any material mis-statement.
- (v) The dividend declared and paid during the year by the Company is in compliance with section 123 of the Act.
- (vi) Based on our examination which included test checks, the company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with.

Audit trail has been preserved by the company as per the statutory requirements for record retention in accordance with the requirements of Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014.

[Referred to in paragraph 1 of “Report on Other Legal and Regulatory Requirements” of our Report of even date to the members of **Mangalore Refinery and Petrochemicals Limited** (“the Company”) on the Standalone Financial Statements for the year ended March 31, 2025]

To the best of our information and according to the explanations provided to us by the management of Company and the books of account and records examined by us in the normal course of audit, we state that:

- i) In respect of the Company's Property, Plant and Equipment and intangible assets;
 - a. (i) The Company has maintained proper records showing full particulars, including quantitative details and situation of the Property, Plant and Equipment and relevant details of right of use assets.
 - (ii) The Company has maintained full particulars of the Intangible Assets.
 - b. As per information and explanations given to us and the records of the company examined by us, all the Property, Plant and Equipment have not been physically verified by the management during the year. However, there is a regular programme of verification, which, in our opinion, is reasonable having regard to the size of the Company and nature of its assets. As per the reports submitted by the Company, no material discrepancies have been noticed on such verification.
 - c. According to the information and explanations given to us and the records of the company examined by us, the title deeds of immovable properties are held in the name of the company except in respect of immovable properties taken on lease and disclosed as right-of-use-assets in the standalone financial statements, the lease agreements/ title deeds for lands amounting to ₹ 1,888.15 million (Previous Year ₹ 2,571.49 million) are yet to be executed (Refer Note no. 6.2 and 48.1 to the standalone financial statements).
 - d. The Company has not revalued any of its Property, Plant and Equipment (including right-of-use assets) and intangible assets during the year.
 - e. As disclosed in Note No. 48.6 of the Standalone Financial Statements, the Company does not have any proceedings initiated or pending for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder, (as amended in 2016).
- ii) a. According to the information made available and based on the records examined by us, the Company is conducting physical verification of inventories (excluding goods in transit) at reasonable intervals. The coverage and procedure of such verification by the management in our opinion, is appropriate having regard to the size of the company and nature of its business. As per the reports made available there are no discrepancies of 10% or more in aggregate for each class of inventory have been noticed on such verification by the company.
- b. The Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate from banks on the basis of security of current assets. As per the information obtained and explanations given to us and as disclosed/ demonstrated by the records/reconciliations produced to us for our verification, the quarterly returns or statements filed by the Company with such banks and financial institutions are in agreement with the books of account of the Company. (Refer Note no 48.4 to the standalone financial statements).
- iii) During the year, the Company has not made any investments and/or granted loans, secured or unsecured, to companies, firms, Limited Liability Partnerships except loan to employees and certain category of Dealers.
 - (a) The Company has provided loans and advances to other entities/parties including employees of the Company, during the year the details which are given below:

(₹in million)	
Particulars	Loans
Aggregate amount granted/provided during the year:	
- Subsidiary	-
- Joint Venture	-
- Associate	-
- Others	621.82
Balance outstanding as at balance sheet date in respect of above case:	
- Subsidiary	-
- Joint Venture	-
- Associate	-
- Others	628.61

- (b) In our opinion, the investments made and the terms and conditions of the grant of loans and advances during the year are not prejudicial to the company's interest.
- (c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and repayment of principal amounts and receipts of interest have generally been regular and as per stipulation.
- (d) In respect of loans granted by the Company, there is no overdue amount for more than ninety days as at the balance sheet date.
- (e) According to the information and explanations given to us, no such cases were found where the loan or advance in the nature of loan granted which have fallen due during the year, have been renewed or extended or fresh loan granted to settle the over dues of existing loans given to the same parties.
- (f) In our opinion and according to the information and explanations given to us, no such cases were found where the Company has granted any loans or advance in the nature of loans either repayment on demand or without specifying any terms or period of repayment.
- iv) In our opinion and according to the information and explanations given to us, in respect of loans, investments, guarantees, and security, the Company has complied with provisions of Sections 185 and Section 186 of the Companies Act, 2013.
- v) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits or amounts which are deemed to be deposits within the meaning of Sections 73 to 76 or any other relevant provisions of the Companies Act, 2013 and the rules made there under. Hence, the provisions of clause (v) of paragraph 3 of the Order are not applicable to the company.
- vi) We have broadly reviewed the records maintained by the Company pursuant to the rules prescribed by the Central Government for maintenance of cost records under Subsection (1) of Section 148 of the Companies Act, and are of the opinion that the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the same with a view to determining whether they are accurate or complete.
- vii) a. According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is generally regular in depositing undisputed statutory dues including Provident Fund, Income Tax, Goods and Services Tax, Sales Tax, Duty of Excise and other statutory dues

applicable to it during the year with appropriate authorities.

Further we report that, there were no undisputed amounts payable in respect of Provident Fund, Income Tax, Goods and Service Tax, Sales Tax, Duty of Excise and other statutory dues outstanding as at 31st March, 2025 for a period of more than six months from the date they became payable.

- b. According to the information and explanations given to us and as per our verification of records of the Company, the statutory dues referred to in sub-clause (a) above which have not been deposited with the appropriate authorities as at 31st March, 2025 on account of disputes are given below.

“ANNEXURE - C” TO THE INDEPENDENT AUDITORS' REPORT

[Referred to in paragraph 4(f) under “Report on Other Legal and Regulatory Requirements” in our Independent Auditors Report of even date on the Standalone Financial Statements to the members of Mangalore Refinery and Petrochemicals Limited for the year ended March 31, 2025]

Report on the Internal Financial Controls Over the Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Mangalore Refinery and Petrochemicals Limited** (“the Company”) as of March 31, 2025 in conjunction with our audit of the Standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal controls with reference to financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls system with reference to the standalone financial statements reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to Standalone Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls system with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to these standalone financial statements reporting and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to the standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to these standalone financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control system with reference to these standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions

and dispositions of the assets of the company;

- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial control system with reference to the standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls system with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls systems with reference to these standalone financial statements and such internal financial controls system with reference to these standalone financial statements were operating effectively as at 31 March 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Standalone Financial Statements for the period ended March 31, 2025

1. Corporate information

Mangalore Refinery and Petrochemicals Limited ('MRPL' or 'the Company') is a Central Public Sector Enterprise domiciled and incorporated in India having its registered office at Mudapadav, Kuthethoor P.O. via Katipalla, Mangaluru, Karnataka - 575030. The Company's equity shares are listed and traded on BSE Limited and National Stock Exchange of India Limited. The Company is engaged in the business of refining of crude oil. The Company is a subsidiary of Oil and Natural Gas Corporation Limited which holds 71.63% equity shares.

2. Application of new and revised Indian Accounting Standards

All the Indian Accounting Standards issued under Section 133 of the Companies Act, 2013 and notified by the Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) till the financial statements are approved have been considered in preparing these Financial Statements.

In accordance with the amendments to the Indian Accounting Standards (Ind AS) effective April 1, 2023, the Company is now disclosing only material accounting policy information in its financial statements, instead of significant accounting policies as required previously. This change aligns the Company's disclosure practices with the updated Ind AS framework and does not affect the financial statements themselves.

As on the reporting date, there were no new Indian Accounting Standards (Ind AS) issued by the Ministry of Corporate Affairs (MCA) which would have been applicable from April 1, 2025.

3. Material Accounting Policy Information :

3.1. Statement of compliance

These Financial Statements have been prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") as prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules as amended from time to time and the presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the financial statements.

3.2. Basis of preparation

The Financial Statements have been prepared on going concern basis on the historical cost convention using accrual system of accounting except for certain assets and liabilities which are measured at fair value / amortized cost / net present value at the end of each reporting period, as explained in the accounting policies for financial instruments.

All Assets and Liabilities have been classified as current or non-current as per the Company's normal operating cycle (same has been assumed to have duration of 12 months) and other criteria set out in Ind AS – 1 "Presentation of Financial Statements" and the Schedule III to the Companies Act, 2013.

The Financial Statements are presented in Indian Rupees (₹) which is also company's functional currency. All values are rounded off to the nearest two decimal million except otherwise stated.

3.3. Goodwill

- 3.3.1 Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.
- 3.3.2 Goodwill arising on amalgamation of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.
- 3.3.3 The Company has elected to use the exemption available under Ind AS 101 to continue the carrying value for goodwill as recognized in the financial statements as at the date of transition to Ind AS, measured as per

the previous GAAP and use that as its deemed cost as at the date of transition (April 1, 2015).

3.4. Revenue Recognition

- 3.4.1 Revenue from sales of goods and services are recognized upon the satisfaction of a performance obligation, which occurs when control transfers to the customer. Control of the goods is determined to be transferred to the customer when the title of goods passes to the customer, which typically takes place when product is physically transferred into a vessel, pipeline (other than Company owned pipeline) or other delivery mechanism. In respect of revenue contracts for goods which provide for provisional pricing (wherever applicable) at the time of shipment, the final price adjustment if any will be given effect in the period in which it is finalised/ settled.
- 3.4.2 Revenue is measured at the transaction price of the consideration received or receivable and represents amounts receivable for goods and services including excise duty provided in the normal course of business, net of discounts or rebates, GST and sales tax. Any retrospective revision in prices is accounted for in the year of such revision.

3.5. Leases

To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) The contract involves use of an identified assets.
- (ii) The company has substantially all the economic benefits from the use of the asset through the period of the lease, and
- (iii) The company has the right to direct the use of the asset.

Company as a Lessee:

At the date of commencement of the lease, the Company recognizes a Right-of-Use Asset (ROU Asset) and a corresponding Lease Liability for all lease contracts / arrangements in which it is a lessee, except for lease with a term of twelve months or less (i.e. short term leases) and lease of low value assets.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. Right-of-Use Assets and Lease Liabilities include these options when it is reasonably certain that they will be exercised.

The Lease Liability is initially measured at present value of the future lease payments over the reasonably certain lease term. The lease payments are discounted using the interest rate implicit in the lease, if it is not readily determinable, using the incremental borrowing rate. For leases with similar characteristics, the Company, on a lease by lease basis applies either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole.

The Right-of-Use Assets are initially recognized at cost, which comprises the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the inception date of the lease along with any initial direct costs, restoration obligations and lease incentives received.

Subsequently, the Right-of-Use Assets are measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The Right-of-Use Assets are depreciated using the straight-line method, except in case of leasehold lands where the ownership will be transferred to the Company, from the commencement date over the shorter of lease term or useful life of Right-of-Use Assets. However, in case of ownership of such right-of-use asset transfers to the lessee at the end of the lease term, such assets are depreciated over the useful life of the underlying asset. The Company applies Ind AS 36 to determine whether a Right-of-Use Asset are impaired and accounts for any identified impairment loss as described in the accounting policy below on "Impairment of Non-Financial Assets".

The interest cost on Lease Liability (computed using effective interest method) is expensed in the Statement of Profit and Loss unless eligible for capitalization as per accounting policy below on "Borrowing or Finance costs".

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract in accordance with Ind AS 116 and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

Right-of-Use Assets are derecognized upon completion or cancellation of the lease contract.

Lease Liability and Right-of-Use Assets have been separately presented in the Balance Sheet and lease payments have been classified as financing activity in the Statement of Cash Flows.

Lease modification impact is on prospective basis.

The Company has elected not to apply Ind AS 116 "Leases" to intangible assets.

3.6. Foreign Currency Transactions

Transactions in currencies other than the Company's Functional Currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated using closing exchange rate prevailing on the last day of the reporting period.

Exchange difference arising in respect of foreign currency monetary items is recognised in the Statement of Profit and Loss either as 'Exchange Rate Fluctuation loss/ (gains) (Net)' or as 'Finance Costs' except for the exchange difference related to long term foreign currency monetary items outstanding as at March 31, 2016, in so far as, they relate to the acquisition of depreciable assets, are adjusted against the cost of such assets and depreciate the said adjustment, over the balance life of asset.

3.7. Borrowing or Finance Costs

Borrowing costs specifically identified to the acquisition or construction of qualifying assets are capitalized as part of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Capitalization of borrowing costs is suspended when active development of the qualifying asset is interrupted other than on temporary basis and charged to the statement of Profit and Loss during such extended periods. All other borrowing costs are charged to the Statement of Profit and Loss in the period in which they are incurred.

3.8. Government Grants

Government Grants including the export incentives are not recognised until there is reasonable assurance that the Company will comply with the conditions attached to them and that the grants will be received.

Government Grants are recognised in Statement of Profit and Loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate.

Specifically, Government Grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in the Balance Sheet and transferred to Statement of Profit and Loss on a systematic and rational basis over the useful lives of the related assets.

The benefit of a Government loan at a below market rate of interest is treated as a Government Grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

3.9. Employee Benefits

Employee benefits include salaries, wages, Contributory provident fund, gratuity, leave encashment towards un-availed leave, compensated absences, post-retirement medical benefits and other terminal benefits.

3.9.1. Short Term Employee Benefits

All short term employee benefits are recognized at their undiscounted amount in the accounting period in which they are incurred.

3.9.2. Post-Employment benefits

Defined Contribution Plans:

Employee Benefit under defined contribution plans comprising Contributory provident fund, superannuation benefit, Employee pension scheme-1995, etc. is recognized based on the undiscounted amount of obligations of the Company to contribute to the plan. The superannuation benefit is paid to a fund administered through a separate trust.

Defined Benefit Plans:

Defined employee benefit plans comprising of gratuity, post-retirement medical benefits and other terminal benefits, are recognized based on the present value of defined benefit obligation which is computed using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. These are accounted either as current employee cost or included in cost of assets as permitted.

Net interest on the net defined liability is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset and is recognised in the Statement of Profit and Loss except those included in cost of assets as permitted.

Remeasurement of defined retirement benefit plans except for leave encashment towards un-availed leave and compensated absences, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest as defined above), are recognized in other comprehensive income except those included in cost of assets as permitted in the period in which they occur and are not subsequently reclassified to profit or loss.

The Company contributes all ascertained liabilities with respect to gratuity to the MRPL Gratuity Fund Trust (MGFT). Liability towards post-retirement medical benefits and other terminal benefits etc. are unfunded.

The retirement benefit obligation recognised in the Financial Statements represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of reductions in future contributions to the plans.

3.9.3. Other Long-term Employee Benefits :

Other long term employee benefit comprises of leave encashment towards un-availed leave. These are recognized based on the present value of defined obligation which is computed using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. These are accounted either as current employee cost or included in cost of assets as permitted.

Re-measurements of leave encashment towards un-availed leave are recognized in the Statement of profit and loss except those included in cost of assets as permitted in the period in which they occur.

3.9.4. Termination Benefits :

Expenditure on account of schemes like premature retirement on medical grounds, post-retirement benefit and benefit on separation and Benefits of separation under SABF etc. are charged to Statement of Profit and Loss as and when incurred.

3.10. Income Taxes

Income Tax Expense represents the sum of the Current Tax and Deferred Tax.

(i) Current Tax

The tax currently payable is based on Taxable Profit for the year together with any adjustment to tax payable in respect of previous years. Taxable profit differs from 'Profit Before Tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's Current Tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current Income Tax Assets and Liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities.

(ii) Deferred Tax

Deferred Tax is provided using the Balance Sheet method and is recognized on temporary differences between the carrying amounts of Assets and Liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit. Deferred Tax Liabilities are generally recognised for all taxable temporary differences. Deferred Tax Assets are generally recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses to the extent that it is probable that taxable profits will be available against which those deductible temporary differences, the carry forward of unused tax credits and any unused tax losses can be utilized.

Deferred Taxes are recognised in respect of temporary differences which originate during the tax holiday period but reverse after the tax holiday period. For this purpose, reversal of temporary difference is determined using first in first out method.

The carrying amount of Deferred Tax Assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred Tax Liabilities and Assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

The measurement of Deferred Tax Liabilities and Assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its Assets and Liabilities.

Deferred Tax Assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT is recognised as Deferred Tax Asset in the Balance Sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with asset will be realised.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Current and Deferred Tax for the year

Current and Deferred Tax are recognised in Statement of Profit and Loss, except when they relate to items that are recognised in Other Comprehensive Income or directly in equity, in which case, the Current and Deferred Tax are also recognised in Other Comprehensive Income or directly in Equity respectively.

3.11. Property, Plant and Equipment (PPE) and Right of Use Assets (ROU)

3.11.1. Recognition

Property, Plant and Equipment including Capital Work in Progress (CWIP) are stated in the Balance Sheet at cost, less accumulated depreciation and accumulated impairment losses if any.

The Company has elected to use the exemption available under Ind AS 101 to continue the carrying value for all of its Property, Plant and Equipment as recognized in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition (April 1, 2015).

3.11.2. Cost of Property, Plant and Equipment

Parts of an item of PPE having different useful lives and material value as assessed by management and subsequent capital expenditure on Property, Plant and Equipment are accounted for as separate components.

Catalyst whose useful life is more than one year is capitalised as Property, Plant and Equipment.

Stores and Spares which qualifies as Property, Plant and Equipment are capitalised based on materiality threshold (if any). [Refer para 4.3].

Item of PPE having basic value not exceeding ₹1,000/- (other than company employee's asset purchase scheme) are fully charged to statement of Profit and Loss in the year of purchase.

Item of PPE purchased under employee's asset purchase scheme are capitalized based on Company's policy for the applicable scheme.

Directly identifiable expenditure on overhaul and repairs on account of planned shutdown (other than replacement spare) which are of significant value i.e. 5% of the gross value of particular asset / unit or ₹10 million or more for a particular asset /unit whichever is lower is capitalized as component of relevant items of PPE and will be depreciated over the period till next planned shutdown on straight line basis. All replacement spares procured and consumed during overhaul and repairs on account of planned shutdown are capitalised.

In respect of the capital goods common for both GST and non-GST products, the GST input tax credit is taken on the eligible portion based on GST and non-GST product ratio in the month of accounting and the ineligible portion is capitalized. Subsequently, this ratio is reviewed every month as per the GST provisions and the differential GST amount (if any) arising due to changes in the ratio is capitalized when it is beyond the materiality threshold. [Refer para 4.3].

3.11.3. Useful Life

The useful life of PPE (other than employee's asset purchase scheme) and their components are either based on useful life as stated in Schedule II to the Companies Act, 2013 or based on technical assessment by the Company.

The useful life of assets purchased under employee's asset purchase scheme are based on Company's policy for the applicable scheme.

In respect of immovable assets constructed on leasehold land, useful life as per Schedule II or lease period of land (including renewable/likely renewable period) whichever is earlier is considered.

Estimated useful life of the Assets are as follows:

Sl. No.	Particulars	Useful life (in years)
1.	Buildings	3-60
2.	Plant and Equipment –Refinery and Petrochemical Plant • Civil and Structural works. • Piping Items. • Offshore Components. • SPM and related components. • Storage tanks. • Pipelines. • Boiler, Electrical items, Exchanger, Air Coolers, Fire protection and Safety, Heater, Packages, Reactors, Rotary Equipment, Spares, Static Equipment and Miscellaneous items. • DCS, EOT crane, Instrumentation items. • Catalyst. • Continuous Process Plant not covered under Specific Industries (Triple shift).	2-42
3.	Plant and Equipment –Power Plant • Power producing equipment. • Civil and Structural works. • Instrumentation items.	15-40
4.	Plant and Equipment –Desalination Plant • Offshore Components. • Civil and Structural works. • Piping items. • Electrical items, Exchange Air cooler, Fire protection and Safety items, Packages, Rotary equipment, Static Equipment and Miscellaneous Items. • DCS, EOT crane and Instrumentation items	15-30
5.	Furniture and fittings	3-15
6.	Motor vehicles	4-15
7.	Railway Siding	15
8.	Office Equipment	3-15
9.	Computers and data processing units	3-10
10.	Laboratory Equipment	5-15
11.	Retail outlets • Dispensing Units • Tankages • Electrical installation & Equipment's • Automation	7-15 7-15 10 5

3.11.4. Residual Value

The Company has assessed the estimated residual value of its Property, Plant and Equipment and has adopted the same as prescribed in Schedule II i.e. up to 5% except for the assets purchased under employee's asset purchase scheme are based on Company's policy (10% to 20%).

3.11.5. Depreciation

Depreciation is provided on the cost of PPE (other than Freehold Land and Properties under construction) less their residual values over their useful lives, using Straight Line Method.

Catalysts are depreciated over the guaranteed useful life as specified by the supplier /technical evaluation (whichever is earlier) when the catalyst is put to use.

Planned shutdown cost which are recognized as PPE are depreciated over the period till next planned shutdown on straight line basis.

Depreciation on stores and spares which are capitalised as Property, Plant and Equipment are depreciated over the period starting when it is available for use i.e. from date of acceptance of material and continuing over the shorter of its useful life or the remaining expected useful life of the asset to which it relates.

The depreciation for assets purchased under employee's asset purchase scheme are based on Company's policy for the applicable scheme.

Depreciation on additions to PPE during the year is provided for on a pro-rata basis with reference to the date of additions except low value items not exceeding basic value of ₹ 5,000/- per unit (other than company asset purchase scheme for employee's) which are fully depreciated at the time of addition.

Depreciation on subsequent expenditure on PPE arising on account of capital improvement or other factors is provided for prospectively over the remaining useful life. The Company depreciates significant components of the main asset (which have different useful lives as compared to the main asset) based on the individual useful life of those components.

Right-of-Use Assets are depreciated on a straight line basis over the lease term or useful life of the underlying asset, whichever is lower, except leasehold lands where the ownership will be transferred to the Company.

3.1.6. De-recognition

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising on de-recognition of an item of Property, Plant and Equipment is determined as the difference between the net disposal proceeds (if any) and the carrying amount of the item.

In the event of replace of spare, the written down value of the old spare is charged to the Statement of Profit and Loss as and when replaced.

3.12 Intangible Assets

3.12.1. Intangible Assets other than Goodwill

Intangible Assets with finite useful lives that are acquired separately are carried at cost less Accumulated amortisation and Accumulated impairment losses, if any. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are not subject to amortization and are carried at cost less Accumulated impairment losses if any.

The Company has elected to use the exemption available under Ind AS 101 to continue the carrying value for all of its intangible assets as recognized in the financial statements as at the date of transition to Ind AS,

measured as per the previous GAAP and use that as its deemed cost as at the date of transition (1st April 2015).

3.12.2. Useful lives of Intangible Assets

Estimated useful life of the Intangible Assets are as follows:

SL. No.	Particulars	Useful life (in years)
1.	Computer Software	2-10
2.	Licence and Franchise	3-5

3.13 Impairment of Non-financial Assets

The Company reviews the carrying amounts of its Non-financial assets other than inventories, deferred tax assets and non-current assets classified as held for sale at the end of each reporting period to determine whether there is any significant indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the Cash Generating Unit (CGU) to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or Cash Generating Unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or Cash Generating Unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the Statement of Profit and Loss.

An assessment is made at the end of each reporting period as to see if there are any indications that impairment losses recognized earlier may no longer exist or may have come down. The impairment loss is reversed, if there has been a change in the estimates used to determine the Asset's recoverable amount since the previous impairment loss was recognized. If it is so, the carrying amount of the asset is increased to the lower of its recoverable amount and the carrying amount that have been determined, net of depreciation / amortization, had no impairment loss been recognized for the asset in prior years. After a reversal, the depreciation / amortization charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life. Reversals of Impairment loss are recognized in the Statement of Profit and Loss.

3.14. Statement of Cash Flows

Statement of Cash Flows are reported using the indirect method, whereby Profit After Tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with Investing or Financing activities. The Cash Flows are segregated into Operating, Investing and Financing activities.

3.15. Inventories

Inventories are valued at lower of cost and net realizable value. Cost of inventories comprises of purchase cost and other costs incurred in bringing inventories to their present location and condition. The cost has been determined as under:

Raw Materials (Crude)	On First in First Out (FIFO) basis.
Other Raw Materials	On Weighted Average Cost basis.
Finished Goods	On First In First Out (FIFO) basis.
Stock-in-Trade	On Weighted Average Cost basis.
Stock-in-Process	At Raw Material and Proportionate Conversion Cost.
Stores and Spares including packing materials	On Weighted Average Cost basis.

Raw Materials are not written down below cost except in case where their prices have declined subsequently and it is estimated that the cost of the finished goods will exceed their net realizable value.

Excise duty on Finished Goods lying at manufacturing location is provided for at the assessable value based on applicable duty.

Customs duty on Raw Materials lying in bonded warehouse is provided for at the applicable rates.

Obsolete, Slow Moving, Surplus and Defective Stocks are identified at the time of physical verification of stocks and where necessary, provision is made for such stocks.

3.16 Provisions, Contingent Liabilities, Contingent Assets and Commitments

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Contingent assets are disclosed in the Financial Statements by way of Notes to Accounts when an inflow of economic benefits is probable.

Contingent liabilities are possible obligations whose existence will only be confirmed by future events not wholly within the control of the Company, or present obligations where it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured with sufficient reliability. Contingent liabilities are disclosed on the basis of judgement of the management / independent experts in the Financial Statements by way of Notes to Accounts, unless possibility of an outflow of resources embodying economic benefit is remote. **[Refer para 4.3].**

Contingent assets and contingent liabilities are reviewed at each balance sheet date to reflect the current management estimate.

Capital and Other Commitments disclosed are in respect of items which in each case are above the threshold limit. **[Refer para 4.3].**

3.17 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments. A financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another entity or a contract that will or may be settled in the entity's own equity instruments and is a non-derivative for which the entity is or may be obliged to deliver a variable number of the entity's own equity instruments.

Initial recognition and measurement

Financial Assets and Financial Liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of Financial Assets and Financial Liabilities (other than Financial Assets and Financial Liabilities at fair value through profit or loss) are added to or deducted from the fair value of the Financial Assets or Financial Liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of Financial Assets or Financial Liabilities at fair

value through profit or loss are recognised immediately in Statement of Profit and Loss. [Refer para 4.3].

3.18. Financial Assets

Subsequent Measurement

All recognised Financial Assets are subsequently measured in their entirety at either amortised cost or fair value, based on the business model for managing the financial assets and the contractual cash flow characteristics.

(i) Financial Assets at Amortised Cost

Financial Assets are subsequently measured at amortised cost using the effective interest method if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the Financial Asset give rise on specified dates to Cash Flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

(ii) Financial Assets at Fair value through Other Comprehensive Income (FVOCI)

Financial Assets are measured at fair value through Other Comprehensive Income if these Financial Assets are held within a business whose objective is achieved by both selling Financial Assets and collecting contractual Cash Flows, the contractual terms of the Financial Asset give rise on specified dates to Cash Flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

(iii) Financial Assets at Fair value through Profit or Loss (FVTPL)

Financial Assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through Other Comprehensive Income.

After initial measurement, any fair value changes including any interest income, impairment loss and other net gains and losses are recognized in the Statement of Profit and Loss.

(iv) Cash and Cash Equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be Cash Equivalents. Cash and Cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

(v) Equity Investments:

Equity Investments (Other than Subsidiaries, Joint Ventures (JV) and Associates):

All Equity Investments in the scope of Ind AS 109 are measured at Fair value. Equity Instruments which are held for trading are classified as at FVTPL. For all other such equity investments, the Company decides to classify the same either as FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

Equity Investments (In subsidiaries, Joint Ventures (JV) and Associates):

Investment in Subsidiaries, Joint Ventures (JV) and Associates are accounted for at cost in Standalone Financial Statements.

(vi) Impairment of Financial Assets

The Company assesses at each Balance Sheet date whether a Financial Asset or a group of Financial Assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to 12 month expected credit losses or at an amount equal to lifetime expected losses, if the credit risk on the financial asset has increased significantly since initial recognition.

(vii) Derecognition of Financial Assets

The Company derecognises a Financial Asset when the contractual rights to the cash flows from the asset expire, or when it transfers the Financial Asset and substantially all the risks and rewards of ownership of the

asset to another party.

On derecognition of a Financial Asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in the Statement of Profit and Loss.

3.19. Financial Liabilities and Equity Instruments

3.19.1 Financial Liabilities

Subsequent measurement

(i) Financial liabilities at amortised cost:

Financial Liabilities are measured at Amortised Cost at the end of subsequent accounting periods. The carrying amounts of Financial Liabilities that are subsequently measured at amortised cost are determined based on the Effective Interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance Costs' line item.

(ii) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include derivatives. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss.

(iii) Embedded derivatives

Derivatives embedded in all other host contract except for an asset are separated only if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host and are measured at fair value through profit or loss. Embedded derivatives closely related to the host contracts are not separated.

Derecognition of Financial Liabilities

The Company derecognises Financial Liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the Financial Liability derecognised and the consideration paid and payable is recognised in the Statement of Profit and Loss.

3.19.2 Equity Instruments

An Equity Instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received. Incremental costs directly attributable to the issuance of new ordinary equity shares are recognized as a deduction from equity, net of tax effects.

3.20. Financial Guarantee

Financial guarantee contracts issued by the Company are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of

- i. The amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- ii. The amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 115.

When the Company receives Financial Guarantee from its holding company, initially it measures guarantee fees at the fair value. The Company records the difference between the fair value of Corporate Guarantee received and the consideration paid by the company as **"Deemed Equity"** from Holding Company with a corresponding asset recorded as prepaid guarantee charges or by debiting to statement of Profit and Loss as the case may be. Such deemed equity is presented under the head 'Other Equity' in the Balance Sheet. Prepaid guarantee charges are recognized in the Statement of Profit and Loss over the period of Financial Guarantee received.

4 Critical Accounting Judgements, Assumptions and Key Sources of Estimation Uncertainty

Inherent in the application of many of the Accounting Policies used in preparing the Financial Statements is

the need for management to make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses. Actual outcomes could differ from the estimates and assumptions used.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Key source of judgements, assumptions and estimation uncertainty in the preparation of the Financial Statements which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are in respect of useful lives of Property, Plant and Equipment, Employee Benefit Obligations, Provision for Income Tax and measurement of Deferred Tax Assets.

4.1 Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (Refer note 4.2 below), that the Management have made in the process of applying the Company's accounting policies and that have the significant effect on the amounts recognized in the Financial Statements.

Determination of Functional Currency

Currency of the primary economic environment in which the Company operates (“the Functional Currency”) is Indian Rupee (₹) in which the company primarily generates and expends cash. Accordingly, the management has assessed its Functional Currency to be Indian Rupee (₹).

4.2 Assumptions and key sources of estimation uncertainty

Information about estimates and assumptions that have the significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may differ from these estimates.

a) Useful life of Property, Plant and Equipment and Intangible Assets

Management reviews its estimate of the useful lives of PPE and Intangible Assets at each reporting date, based on the future economic benefits expected to be consumed from the Assets.

b) Defined Benefit Obligation (DBO)

Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, medical cost trends, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

c) Provision for Income Tax

Significant judgements are involved in determining the provision for Income Taxes, including amount expected to be paid/recovered for uncertain tax positions.

d) Recognition of Deferred Tax Assets

The extent to which Deferred Tax Assets can be recognized is based on an assessment of the probability of the Company's future taxable income against which the Deferred Tax Assets can be utilized. In addition, significant judgement is required in assessing the impact of any legal or economic limits or uncertainties.

e) Leases

Identifying whether a Contract includes a Lease

The Company enters into hiring/service arrangements for various assets/services. The Company evaluates whether a contract contains a lease or not, in accordance with the principles of Ind AS 116. This requires significant judgements including but not limited to, whether asset is implicitly identified and substantive substitution rights available with the supplier, decision making rights with respect to how the underlying asset will be used, economic substance of the arrangement, etc.

Determining Lease Term (Including Extension and Termination Options)

The Company considers the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. Assessment of

extension/termination options is made on lease by lease basis, on the basis of relevant facts and circumstances. The lease term is reassessed if an option is actually exercised. In case of contracts, where the Company has the option to hire and de-hire the underlying asset on some circumstances (such as operational requirements), the lease term is considered to be initial contract period.

Identifying Lease Payments for Computation of Lease Liability

To identify fixed (including in-substance fixed) lease payments, the Company consider the non-operating day rate/standby as minimum fixed lease payments for the purpose of computation of Lease Liability and corresponding Right of Use Assets.

Low Value Leases

Ind AS 116 requires assessment of whether an underlying asset is of low value, if lessee opts for the option of not to apply the recognition and measurement requirements of Ind AS 116 to leases where the underlying asset is of low value. For the purpose of determining low value, the Company has considered nature of assets and concept of materiality as defined in Ind AS 1 and the conceptual framework of Ind AS which involve significant judgement.

Determining Discount Rate for Computation of Lease Liability

For computation of Lease Liability, Ind AS 116 requires lessee to use their incremental borrowing rate as discount rate if the rate implicit in the lease contract cannot be readily determined.

For leases denominated in Company's Functional Currency, the Company considers the incremental borrowing rate to be Corporate Bond Rates for similar rated Organizations.

4.3 The Company has adopted materiality threshold limits in the preparation and presentation of Financial Statements as given below:

Threshold Limit	Threshold Limit Value for FY 2024-25	Threshold Limit Value for FY 2023-24
Capitalization of spares parts (other than replacement spares procured and consumed during shutdown) meeting the definition of Property, Plant and Equipment in each case (Basic Value per unit)	₹ 1.50 million and above	₹ 1.50 million and above
GST on common capital goods per unit per month capitalized (differential ineligible GST arising on account of change in GST and Non GST product ratio)	₹ 1.50 million and above	₹ 0.50 million and above
Income/ expenditure (net) in aggregate pertaining to prior year(s)	₹ 600 million and above	₹ 500 million and above
Re-classification of items in Financial Statements in aggregate pertaining to prior year(s)	₹ 1,800 million and above	₹ 500 million and above
Prepaid expense in each case	₹ 1.50 million and above	₹ 0.30 million and above
Disclosure of contingent liabilities in each case	₹ 1.50 million and above	₹ 0.50 million and above
Disclosure of Capital Commitments in each case	₹ 1.50 million and above	₹ 0.50 million and above

Refundable Non-current Financial Deposits (not yielding interest i.e. “interest free” or concessional interest rate i.e. “below market rate”) excluded from fair-valuation	Less than ₹ 5.00 million	Less than ₹ 3.00 million
Low Value Lease (exemption given for not making lease accounting as per Ind AS 116)	NPV of Future Rental Payment(s) less than ₹ 5 million or Average Annual Rent less than ₹ 0.50 million	NPV of Future Rental Payment(s) less than ₹ 2.50 million or Average Annual Rent less than ₹ 25,000

- 21.1** An amount of ₹ 76.78 million as at March 31, 2025 (As at March 31, 2024 ₹ 63.76 million) shown as deemed equity which denotes the difference between the fair value of Corporate Guarantee received from Holding Company and the consideration paid by the company .
- 21.2** The Company created capital redemption reserve on redemption of preference share capital during the financial years 2011-12 and 2012-13.
- 21.3** The Company created securities premium on issue of equity share capital and the same can be utilized as per the requirement of the Companies Act, 2013.
- 21.4** The General reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to Statement of Profit and Loss.

- 21.5** Other reserve represents excess consideration paid towards acquisition of non-controlling interest in erstwhile subsidiary company ONGC Mangalore Petrochemicals Limited (OMPL) from non-controlling share holders.
- 21.6** The amount that can be distributed by the Company as dividend to its equity shareholders is determined considering the requirements of the Companies Act, 2013 and the dividend distribution policy of the Company. Thus, the amount reported in General Reserve is not entirely distributable.
- 21.7** On August 22, 2024, the shareholders of the Company approved the final dividend of ₹ 2.00 per share (20%) for FY 2023-24 amounting to ₹ 3,505.20 million which has since been paid. This was in addition to the interim dividend of ₹ 1.00 per share for FY 2023-24 (10%) amounting to ₹ 1,752.60 million declared by the Board of Directors paid during FY 2023-24.
- 21.8** The company has a dividend distribution policy in line with SEBI (LODR) Regulation, 2016, Department of Investment and Public Asset Management (DIPAM) guidelines, Provisions of Companies Act, 2013, Companies (Declaration & Payment of Dividend) Rules, 2014 and other guidelines to the extent applicable. As per the guidelines with respect to payment of dividend issued by DIPAM, Government of India, the company is required to pay a minimum annual dividend of 30% of PAT or 4% of the net-worth, whichever is higher subject to maximum dividend permitted under extant legal provisions. Though the company endeavours to declare dividend as per these guidelines, during the Financial Year, considering Company's Capital Expenditure and loan repayments plans due in FY 2024-25 and FY 2025-26, the Company did not declare dividends as prescribed by the DIPAM for FY 2024-25. The dividend as per extant guidelines works out to ₹1,752.60 million and ₹ 10,787.81 million for FY 2024-25 and FY 2023-24 respectively against which ₹ Nil million and ₹ 5,257.80 million was paid / proposed to be paid respectively [**Refer Note No. 21.7**].

The Company has represented to the Ministry of Petroleum and Natural Gas (MoPNG) being its Administrative Ministry, for grant of exemption from payment of dividend for FY 2024-25 and for payment of lower dividend in comparison to the amount payable as per DIPAM guidelines and reply from MoPNG in this regard is awaited.

2024-25	Nil	Nil	705.21	Nil	Nil	705.21	Nil

An amount of ₹ 225.78 million representing unspent money on ongoing projects for FY 2023-24 has been transferred to Specified Bank account on April 29, 2024.

@ An amount of ₹ 705.21 million representing unspent money on ongoing projects for FY 2024-25 will be transferred to Specified Bank account within the stipulated timeline as applicable.

(e) Reason for Shortfall :

The Company has allocated a total CSR budget of ₹ 828.52 Million for various projects under the items listed in Schedule VII of the Companies Act, 2013 in FY 2024-25. During the financial year, an expenditure of ₹ 123.31 Million was incurred against the allocated budget. The shortfall of ₹ 705.21 Million is primarily due to milestone-based payments for multi-year ongoing projects, which are currently in various stages of implementation.

In compliance with statutory provisions, the unspent amount of ₹ 705.21 Million will be transferred to the Unspent CSR Account (UCSRA) within the stipulated timeline as applicable, and will be utilized in accordance with the applicable CSR Rules.

Additionally, ₹ 25.03 Million was transferred to the UCSRA (Unspent CSR Account) for the financial year 2022-23, which was fully utilized during the financial year 2023-24 as per CSR guidelines. Furthermore, ₹ 225.78 Million was transferred to the UCSRA for the financial year 2023-24, out of which ₹ 162.30 Million has been utilized during 2023-24. The remaining balance is planned to be utilized by 2025-26.

Total	-	82.90

36.5.1 During the previous financial year, certain arbitration cases have been settled which were pertaining to earlier years.

36.5.2 In compliance with the norms of the Karnataka Electricity Regulatory Commission, Company had made provision towards purchase of Renewable Energy Certificates (REC) in order to meet compliance requirement of Renewable Purchase Obligation (RPO) and accordingly, provision for same was recognized

in the books amounting to ₹ 1,211.70 million till March 31, 2023.

During the previous financial year, the REC price had reduced substantially resulting in closing provision in the books pertaining to the said purchase obligation being restated to ₹ 459.97 million. Further, considering the legal opinion along with other favourable judgements in similar matter, during the previous Financial Year, the company had re-assessed the requirement of carrying the provision in books of accounts and concluded that the provision was no longer required to be carried in the books. Accordingly, the said provision had been reversed.

Besides, the company being a Co-generation Captive user, is not an obligated entity for RPO. Nevertheless, it has fulfilled the RPO requirements based on power generated from own solar roof top, captive plant gas turbine using refinery fuel gas, green energy purchase from open access and Heat Recovery Steam Generators. Considering the fact that the outflow of resource for the company is also remote, no contingent liability has been disclosed.

40.1.2 Defined benefit plans

40.1.2.1 Brief Description: A general description of the type of Defined benefit plans are as follows:

a) Gratuity:

15 days salary for every completed year of service. Vesting period is 5 years and the payment is restricted to ₹ 2 million. Besides the ceiling of gratuity will increase by 25% whenever IDA rises to 50%. The MRPL Gratuity Fund Trust was formed on April 20, 2007 and investments of the funds received from the company after actuarial valuation and the investment of the funds upto June 28, 2013 was made in the manner prescribed by Income tax Rule 67(1) of the Income Tax Rules, 1962 as amended from time to time. The Funds of MRPL Gratuity Fund Trust after June 28, 2013 are being invested in Group Gratuity Cash Accumulation Scheme (Traditional Fund) of various insurance companies.

b) Post-Retirement Medical Benefits (PRMB):

After retirement, on payment of one time lump sum contribution, the superannuated employee and his/her dependent spouse and dependent parents will be covered for medical benefit as per the rules of the Company.

During the current financial year, the company has invested part portion of its PRMB liability in LIC's Group Post Retirement Medical Benefit Plan to the tune of ₹ 140.39 million.

c) Resettlement Allowance:

At the time of superannuation, employees are entitled to settle at a place of their choice and they are eligible for Settlement Allowance.

40.1.2.2 These plans typically expose the Company to actuarial risks such as: investment risk, interest rate risk, longevity risk and salary risk.

Investment risk	The present value of the defined benefit plan liability (denominated in Indian Rupee) is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds; if the return on plan asset is below this rate, it will create a plan deficit. Currently it has a relatively balanced mix of investments in government securities, insurance investment and other debt instruments.
Interest risk	A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.
Longevity risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
Salary risk	The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

No other post-retirement benefits are provided to these employees.

In respect of the plans, the most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out as at March 31, 2025 by a member firm of the Institute of Actuaries of India. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method. The liabilities for Defined Benefit Plans are recognized and charged to Statement of Profit and Loss.

40.1.2.3 The principal assumptions used for the purposes of the actuarial valuations were as follow

Sl. No.	Particulars	As at March 31, 2025	As at March 31, 2024
	Gratuity (Funded)		
1	Expected return on plan assets	6.82%	7.21%
2	Rate of discounting	6.82%	7.21%
3	Rate of salary increase	7.50%	7.50%
4	Rate of employee turnover	2.00%	2.00%
5	Mortality rate during employment	Indian Assured lives Mortality (2012-14) Urban	Indian Assured lives Mortality (2012-14) Urban

Sl. No.	Particulars	As at March 31, 2025	As at March 31, 2024
	Post-Retirement Medical Benefits		
1	Rate of discounting	7.05%	7.24%
2	Medical cost inflation	0.00%	0.00%
3	Rate of employee turnover	2.00%	2.00%
4	Mortality rate during employment	Indian Assured lives Mortality (2012-14) Urban	Indian Assured lives Mortality (2012-14) Urban
5	Mortality rate after employment	Indian Individual AMT (2012-15)	Indian Individual AMT (2012-15)
	Resettlement Allowance:		
1	Rate of discounting	7.05%	7.24%
2	Rate of salary increase	7.50%	7.50%
3	Rate of employee turnover	2.00%	2.00%
4	Mortality rate during employment	Indian Assured lives Mortality (2012-14) Urban	Indian Assured lives Mortality (2012-14) Urban

The rate of discounting is based upon the market yield available on Government bonds at the accounting date with a term that matches. The salary growth takes account inflation, seniority, promotion and other relevant factor on long term basis. Expected rate of return on plan assets is based on market expectation, at the beginning of the year, for return over the entire life of the related obligation.

Significant actuarial assumptions for the determination of the defined benefit obligations are discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

40.1.2.9 Sensitivity Analysis as at March 31, 2025

(All amounts are in ₹ million unless otherwise stated)

Significant actuarial assumptions	Gratuity	Post-Retirement Medical Benefits	Resettlement Allowance
Rate of discounting			
- Impact due to increase of 50 basis points	(109.37)	(18.92)	(5.39)
- Impact due to decrease of 50 basis points	118.69	21.06	5.96
Rate of salary increase			
- Impact due to increase of 50 basis points	117.95	-	-
- Impact due to decrease of 50 basis points	(120.09)	-	-
Rate of Employee turnover			
- Impact due to increase of 50 basis points	7.14	(7.16)	(0.24)
- Impact due to decrease of 50 basis points	(7.41)	6.58	0.25
Future Cost Escalation			
- Impact due to increase of 50 basis points	-	-	-
- Impact due to decrease of 50 basis points	-	-	-

Sensitivity Analysis as at March 31, 2024

(All amounts are in ₹ million unless otherwise stated)

Significant actuarial assumptions	Gratuity	Post-Retirement Medical Benefits	Resettlement Allowance
Rate of discounting			
- Impact due to increase of 50 basis points	(97.24)	(9.30)	(1.44)
- Impact due to decrease of 50 basis points	105.48	10.35	1.60
Rate of salary increase			
- Impact due to increase of 50 basis points	104.11	-	-
- Impact due to decrease of 50 basis points	(105.44)	-	-
Rate of Employee turnover			
- Impact due to increase of 50 basis points	9.39	(3.56)	(0.04)
- Impact due to decrease of 50 basis points	(9.84)	3.21	0.04
Future Cost Escalation			
- Impact due to increase of 50 basis points	-	-	-
- Impact due to decrease of 50 basis points	-	-	-

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

42.3 Transactions with other Government-Controlled Entities

The Company is a Government related entity, engaged in the business of refining of crude oil and marketing of petroleum products. The Company also deals on regular basis with entities directly or indirectly controlled by the Central / State Governments through its Government authorities, agencies, affiliations and other organizations (collectively referred as “Government related entities”).

Apart from transactions with Company’s group Companies, the Corporation has transactions with other Government related entities, including but not limited to the followings:

- Sale and purchase of products;
- Rendering and receiving services;
- Leasing of assets;
- Depositing and borrowing money; and
- Use of public utilities

These transactions are conducted in the ordinary course of the Company’s business on terms comparable to those with other entities that are not Government related.

43 Financial instruments
43.1 Capital Management

The Company’s objective when managing capital is to safeguard its ability to continue as going concern so that the Company is able to provide maximum return to stakeholders and benefits for other stakeholders; and maintain an optimal capital structure to reduce the cost of capital.

The Company maintains its financial framework to support the pursuit of value growth for shareholders, while ensuring a secure financial base. In order to maintain or adjust the capital structure, the Company may vary the distribution of dividends to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The capital structure of the Company consists of net debt (borrowings as detailed in note 22 offset by cash and bank balances) and total equity of the Company.

The Company’s management reviews the capital structure of the Company on quarterly basis. As part of this review, the management considers the cost of capital and the risks associated with each class of capital requirements and maintenance of adequate liquidity.

43.1.1 Gearing Ratio

(d) Other financial liabilities	8,455.33	8,118.94

43.2.1 Investment in Joint Venture has not been disclosed above as these are measured at cost less impairment, if any.

43.3 Financial risk management objectives

The Company's Risk Management Committee monitors and manages key financial risks relating to the operations of the Company by analysing exposures by degree and magnitude of risks. These risks include market risk (including currency risk and interest rate risk), credit risk and liquidity risk.

43.4 Market Risk

Market risk is the risk or uncertainty arising from possible market price movements and their impact on the future performance of a business. The major components of market risk are foreign currency exchange risk and interest rate risk.

43.5 Foreign currency risk management

The Company undertakes transactions denominated in foreign currencies, primarily for purchases of crude oil and exports sales and has borrowings denominated in foreign currency; consequently, exposures to exchange rate fluctuations arise. Significant carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

(All amounts are in ₹ million unless otherwise stated)

Transaction Currency	Liabilities		Assets	
	As at March 31, 2025	As at March 31, 2024	As at 31 March, 2025	As at 31 March, 2024
USD	76,757.05	1,03,494.24	10,178.73	5,390.45
AED	10,037.03	5,398.54	-	-
EURO	106.28	41.89	-	-
CHF	0.34	0.32	-	-
GBP	0.42	0.40	-	-
JPY	8.69	0.50	-	-

43.5.1 Foreign currency sensitivity analysis

The Company is mainly exposed to the currency of United States of America (USD). Sensitivity of profit or loss arises mainly from USD denominated receivables and payables.

As per management's assessment of reasonable possible changes in the exchange rate of +/- 5% between USD-INR currency pair, sensitivity of profit or loss only on outstanding foreign currency denominated monetary items at the period end is presented below:

(All amounts are in ₹ million unless otherwise stated)

USD sensitivity at year end	Year Ended March 31, 2025	Year Ended March 31, 2024
Receivables:		
Weakening of INR by 5%	508.94	269.52
Strengthening of INR by 5%	(508.94)	(269.52)
Payables:		
Weakening of INR by 5%	(3,837.85)	(5,174.71)
Strengthening of INR by 5%	3,837.85	5,174.71

43.5.2 Forward foreign exchange contracts

The Company books short term forward contracts upto a maximum period of 30 days to the limited extent when export receivables date and import payments date do not fall within the spot date.

43.6 Interest rate risk management

The Company has availed borrowings at fixed and floating interest rates, hence is exposed to interest rate risk. The Company has not entered into any of the interest rate swaps and hence the Company is exposed to interest rate risk.

Interest rate sensitivity analysis

The sensitivity analysis below have been determined based on the exposure to interest rates at the end of the reporting period. For floating rate borrowings, the analysis is prepared assuming the amount of the borrowings outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used for disclosing the sensitivity analysis. If interest rates had been 50 basis points higher/lower and all other variables were held constant, the

Company's profit for the year ended March 31, 2025 would decrease/increase by ₹ 232.16 million (for the year ended March 31, 2024 : decrease/increase by ₹ 260.32 million). This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowings (considered on closing balance of borrowings as at year end).

43.7 Credit risk management

Credit risk refers to the risk that a counter party will default on its contractual obligations resulting in financial loss to the Company. Credit risk arises from cash and cash equivalents, deposits with banks as well as customers including receivables. Credit risk management considers available reasonable and supportive forward-looking information including indicators like external credit rating (as far as available), macro-economic information (such as regulatory changes, government directives, market interest rate etc.).

Major customers comprise of public sector undertakings (Oil Marketing Companies - OMCs) having highest credit ratings and carry negligible credit risk. Concentration of credit risk to any other counterparty did not exceed 10% of total monetary assets at any time during the year.

Only high rated banks are considered for placement of deposits. Bank balances are held with reputed and creditworthy banking institutions.

43.8 Liquidity risk management

The Company manages liquidity risk by maintaining sufficient cash and cash equivalents including bank deposits and availability of funding through an adequate amount of committed credit facilities to meet the obligations when due. Management monitors rolling forecasts of liquidity position and cash and cash equivalents on the basis of expected cash flows. In addition, liquidity management also involves projecting cash flows considering level of liquid assets necessary to meet obligations by matching the maturity profiles of financial assets & liabilities and monitoring balance sheet liquidity ratios. The Company manages liquidity risk by maintaining adequate cash & credit lines and continuously monitoring forecast and actual cash flows and by matching the maturity profiles of financial assets and liabilities.

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows. The contractual maturity is based on the earliest date on which the Company may be required to pay.

Integration of Human Resource of erstwhile subsidiary company ONGC Mangalore Petrochemicals Limited:

Pursuant to the scheme of Amalgamation ('the Scheme') approved by the Ministry of Corporate Affairs (MCA) vide its order No. 24/3/2021-CL-III dated April 14, 2022, Human Resource (HR) integration of erstwhile subsidiary company ONGC Mangalore Petrochemicals Limited (OMPL) with the company is carried out w.e.f May 1, 2022 (effective date of the scheme).

Subsequently, the management grade employees of erstwhile subsidiary company OMPL represented the matter before Honourable High Court of Karnataka with regard to HR integration during FY 2022-23. The judgement was pronounced by single bench of Honourable High Court of Karnataka in May 2024. Currently writ appeals have been filed seeking to challenge the judgement before the division bench of Honourable High Court of Karnataka and the matter is subjudice.

Furthermore, memorandum of settlement with respect to non-management employees of erstwhile subsidiary company OMPL was concluded and same was signed on July 30, 2024 in presence of conciliation officer and assistant labour commissioner.

The Company also operates in special economic zone (SEZ) in Mangalore, accordingly is eligible for certain economic benefits such as

51

exemptions from GST, custom duty, excise duty, service tax, value added tax, entry tax, etc. which are in the nature of government assistance. These benefits are subject to fulfilment of certain obligations by the Company.

- 52 The Company has a system of periodic physical verification of Inventory, Property, Plant and Equipment and capital stores in a phased manner to cover all items over a period. Adjustment differences, if any, is carried out on completion of reconciliation.
- 53 The Company did not have any long term contracts including derivative contracts for which there were any material foreseeable losses.
- 54 Some balances of trade and other receivables, trade and other payables and loans are subject to confirmation/reconciliation. Adjustments, if any, will be accounted for on confirmation/reconciliation of the same, which will not have a material impact.
- 55 During FY 2021-22, company was awarded with 87,748 Nos of Energy Saving Certificates (EScerts) from Bureau of Energy Efficiency (BEE) as part of "Perform, Achieve and Trade" (PAT) scheme, India for achieving reduction in Specific Energy Consumption above targets set by them for the performance during FY 2018-19. Further to that, during FY 2023-24, Monitoring and Verification Audit was conducted as per the guidelines of Bureau of Energy Efficiency (BEE) by approved Empanelled Accredited Energy Auditor (EmAEA) and they have submitted the Certificate of Verification indicating an equivalent reduction of 48,269 EScerts due to non-achievement of Specific Energy Consumption against the targets set by them for the performance during FY 2022-23 which will result in net 39,479 Nos of Energy Saving Certificates (EScerts) available with the company. The final Monitoring and Verification report and related forms are submitted to State Designated Agency, which is Karnataka Renewable Energy Development Limited (KREDL). The final issuance of EScerts for PAT - VI cycle is yet to be done by Ministry of Power. The Calculated floor value of the remaining 39,479 Nos of the said certificates correspond to ₹ 85.47 million as per formula prescribed by Hon'ble Ministry of Power for determining the floor price. The Company intends to redeem the EScerts only to meet refineries own shortfall (if any) based on Monitoring & Verification to be conducted in future and hence the same has not been carried in inventory. Company was not notified under Perform, Achieve and Trade (PAT) cycle during FY 2023-24 and FY 2024-25.

Further, as per the notification of Ministry of Power titled "Carbon Credit Trading Scheme" (CCTS), dated June 28, 2023, BEE sponsored third party agency has conducted base line audit of Company for FY 2023-24 data and submitted to BEE, for an anticipated CCTS annual targets effective from April 2025. Company EScerts available in BEE custody can be used to convert / redeem against CCerts which will be issued under CCTS scheme at a future date. The mechanism for conversion of EScerts to CCerts to be notified by BEE.

- 56 The number of independent directors on the Board during previous financial years were less than the minimum number of Independent Directors required in terms of the provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and the Companies Act, 2013, the composition of the Board Level Committees viz., Audit Committee, Nomination & Remuneration Committee, Stakeholders Relationship Committee and Risk Management Committee were not complied. Consequently penalty for the said non-compliances was levied by both BSE and NSE for an amount of ₹ 15.52 million and ₹ 15.52 million respectively upto December 2024. The company being a Central Public Sector Enterprise (CPSE), the nomination of Directors on the Board of the Company is made by the Administrative Ministry, i.e. Ministry of Petroleum and Natural Gas (MoPNG), Government of India (GoI). The company has been continuously following up with MoP&NG for appointment of requisite number of Independent Directors on the Board of the Company. MoP&NG has appointed 4 (Four) independent directors during 2021-22 which enabled the Company to comply with regard to composition of above referred Committees. Further the Policy for exemption of fines, provides for waiver/ reduction of penalty in case of inability of the Company to make any appointment on the Board due to pending approval from the

Government (Ministry) / Regulator or any statutory Authority. In view of the above, the Exchanges were requested by the company to waive off the fine citing the above fact and subsequently based on the request by the company, BSE has waived fines up to September 2020 for Regulation 17(1), and upto December, 2020 for Regulations 18(1), 19(1) & 21(1) of SEBI (LODR), Regulations, 2015 and NSE from December 2020 to March 2022 under Regulation 18(1), 19(1) & 21(1) of SEBI (LODR), Regulations, 2015 for an amount of ₹ 3.32 million and ₹ 2.48 million, respectively. For the balance amount of ₹ 12.20 million and ₹ 13.04 million levied by BSE and NSE, waiver is awaited.

- 57** The Company has assessed the possible effect that may result from US Tariffs and Russia-Ukraine War, which is not significant on the carrying amounts of Property, Plant and Equipment, Inventories, Receivables and Other Current Assets. In the opinion of the management, the carrying amount of these assets will be recovered.
- 58** Figures in parenthesis as given in these notes to financial statements relate to previous years. Previous year figures have been regrouped wherever required.
- 59** **Approval of financial statements**

The financial statements were approved for issue by the Board of Directors on April 26, 2025.

INDEPENDENT AUDITOR'S REPORT

To The Members of

Mangalore Refinery and Petrochemicals Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **MANGALORE REFINERY AND PETROCHEMICALS LIMITED** ("the Company") and its jointly controlled entity, **SHELL MRPL AVIATION FUELS AND SERVICES LIMITED**, which comprise the Consolidated Balance Sheet as at 31st March 2025, the Consolidated Statement of Profit and Loss, (including other comprehensive income), the Consolidated Statement of Changes in Equity, the Consolidated Statement of Cash flows for the year then ended, and notes to the Consolidated Financial statements, including a summary of the Material Accounting Policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Company and its jointly controlled entity as at 31st March 2025, and its consolidated profit (including other comprehensive income), consolidated changes in equity and consolidated cash flows for the year ended on that date.

Basis for opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the company and its jointly controlled entity in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Companies Act, 2013 and the rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined, taking into consideration audit report issued by us on the consolidated financial statements of the company and the audit report issued by other auditor of the jointly controlled entity not audited by us, the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the auditors' responsibilities for the audit of the Consolidated Financial Statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Consolidated Financial Statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Consolidated Financial Statements.

Sr. No	The Key Audit Matters	Auditors' Response
1.	Property, Plant and Equipment - (Refer Note No.5) There are areas where management judgement impacts the carrying value of property, plant and equipment, and their respective depreciation rates. These include the decision to capitalise or expense costs; the review of useful life and residual value on reporting date; the use of management assumptions and estimates for the determination or the measurement criteria for Property, Plant and Equipment (PPE) derecognised upon disposal, replacement, deduction and reclassification. Due to the materiality in the context of the Balance Sheet of the Company and the level of judgement and estimates required, we consider this to be as area of significance.	We assessed the controls in place over the Property, Plant & Equipment, evaluated the appropriateness of capitalisation process, performed tests checks on costs capitalised, and the de-recognition criteria for assets disposed, replaced, and reclassified. In performing these procedures, we reviewed the judgements made by the management including the nature of underlying costs capitalised; the appropriateness of useful life and residual value considered for calculation of depreciation; the useful lives of assets prescribed in Schedule II to the Companies Act and the useful lives of certain assets as per the technical assessment of the management. We observed that the management has regularly reviewed the aforesaid judgements and there are no material changes.
2.	Evaluation of Contingent Liabilities and Recoverability of pre-deposit thereto (Refer Note No 45) Contingent liabilities disclosed are in respect of items which in each case are above the threshold limit. There are several claims and litigations pending before various forums against the company which have not been acknowledged as debt by the company and are disclosed as contingent liabilities. These claims and litigations involve significant judgment to determine the possible outcome of these disputes. In view of significant management estimate and judgement involved, we considered this as a key audit matter	The following audit procedures were carried out in this regard: We examined items above the threshold limit for determination of contingent liabilities and obtained details of Excise, customs, VAT/ Sales Tax/ Entry Tax, Goods and Services Tax, Income tax assessments/demands as well as other disputed claims against the Company as on March 31, 2025. Obtained an understanding of the nature of litigations pending against the Company and discussed the developments during the year for key litigations with the management and legal department of the company. We have assessed the Management's underlying assumptions in estimating the possible outcome of such disputed claims/ cases against the Company, based on records and judicial precedents made available.

3.	Recognition and measurement of Deferred Tax Assets (Refer Note No.25) As per “Ind AS 12 - Income Taxes”, Deferred Tax Assets are the amount of income tax recoverable in future periods in respect of (a) deductible temporary differences (b) the carry forward of unused tax losses and (c) the carry forward of unused tax credits. A deferred tax asset shall be recognised for the carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised. Determination of probable future taxable profit is a matter of judgment based on convincing evidence. Considering the management's involvement in estimation and judgment of determining the future taxable profits which have a degree of uncertainty, this matter has been determined as a key audit matter.	Our audit procedure included, but was not limited to the following: Considered the company's past and current year's taxable profits, taxes paid, obtained details of carry forward losses under income tax and details of estimates of future taxable profits. Tested the period over which the deferred tax assets on such unused tax losses and unused tax credits would be recovered against future taxable income. Tested the management's underlying assumptions and judgments in estimating the probable future taxable profits and the existence of sufficient taxable temporary difference against which the unused tax losses or unused tax credits can be utilised by the company. Assessed the adequacy and appropriateness of the disclosures in the Consolidated financial statements.

Information Other than Consolidated Financial Statements and Auditors Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Company's Board of Director's Report including Annexure to Board of Director's Report, Management Discussion and Analysis, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditors' report thereon. The above referred information is expected to be made available to us after the date of this auditors' report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. When we read the information, If, we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions necessitated by the circumstances and the applicable laws and regulations.

Responsibilities of Management and those charged with governance for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the the Companies Act, 2013 (“the Act”) with respect to the preparation of these consolidated financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and Cash flows of the Company including its jointly controlled entity in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. The respective

Board of Directors of the company and of its jointly controlled entity are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective Board of Directors of the company and of its jointly controlled entity are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors of the company and its jointly controlled entity either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the company and of its jointly controlled entity are responsible for overseeing the financial reporting process of the company and its jointly controlled entity.

Auditors' Responsibilities for the audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing an opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the company and its jointly controlled entity to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the company and its jointly controlled entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including

the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company and its jointly controlled entity to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the consolidated financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entity and unit included in the consolidated financial statements, which have been audited by other auditor, such other auditor remains responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The Consolidated Financial Statements include Company's share of net profit of ₹281.25 million and total comprehensive income of ₹273.40 million for the year ended March 31, 2025 as considered in the Consolidated Financial Statements, in respect of Jointly controlled entity, whose financial statements/financial information have not been audited by us. These financial statements / financial information have been audited by other auditor whose report have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this jointly controlled entity, and our report in terms of subsection (3) of Section 143 of the Act, in so far as it relates to the aforesaid Jointly controlled entity is based solely on the report of the other auditor.

Our opinion above on the Consolidated Financial Statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the report of the other auditor.

Report on Other Legal and Regulatory Requirements

1. The company does not have the required number of Independent Directors on its Board due to vacancy arising out of end of term of the existing independent directors, from September 2020 onwards hence being

non-compliant with relevant Regulations of SEBI Listing Obligation and Disclosure Requirements (LODR) Regulations, 2015. Also refer Note No.56 to the consolidated financial statements.

2. As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- c) The Consolidated Balance Sheet, Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Cash Flows and the consolidated statement of changes in Equity dealt with by this Report are in agreement with the books of account;
- d) In our opinion, the aforesaid consolidated financial statements comply with Indian Accounting Standards specified under Section 133 of the Act.
- e) In view of exemption given vide notification no. G.S.R. 463(E) dated June 5, 2015, issued by Ministry of Corporate Affairs, provisions of Section 164(2) of the Act regarding disqualification of directors, are not applicable to the Company, since it is a Government Company.

Based on the audit report of the jointly controlled entity incorporated in India, none of the directors of the jointly controlled entity incorporated in India is disqualified as on 31st March, 2025, from being appointed as a director in terms of Section 164 (2) of the Companies Act, 2013.

- f) With respect to the adequacy of the internal financial controls with reference to consolidated financial statement of the Company and its jointly controlled entity and the operating effectiveness of such controls, refer to our separate report in “**Annexure –A**”. With regard to the jointly controlled entity, the report of the other auditor is taken into account.
- g) As per Notification No GSR 463 (E) of Ministry of Corporate Affairs dated June 5, 2015 provisions of Section 197 of the Act as regards managerial remuneration are not applicable to the company since it is a Government Company. With regard to the jointly controlled entity, based on the report of the other auditor, the remuneration paid by the said jointly controlled entity to its directors during the year is in accordance with the provisions of Section 197 read with schedule V of the Act.
- h) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of report of other auditor of the jointly controlled entity as noted in the 'Other matters' paragraph:
 - (i) The consolidated financial statements disclose the impact of pending litigation as at 31st March, 2025 on the consolidated financial position of the Company and its jointly controlled entity – Refer Note No. 45 to the consolidated financial statements.
 - (ii) The Company and its jointly controlled entity did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - (iii) There has been no delay in transferring amounts required to be transferred to the Investor Education and Protection Fund by the Company and there were no amounts which are required to be transferred to the Investor Education and Protection Fund by its jointly controlled entity.
 - (iv) a. The Management has represented that, to the best of its knowledge and belief, as disclosed in the Note no 48.11 to the consolidated financial statements, and based on the audit report of the jointly

controlled entity, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

b. The Management has represented that, to the best of its knowledge and belief, as disclosed in the Note no 48.12 to the consolidated financial statements, and based on the audit report of the jointly controlled entity, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

c. Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, and that performed by the auditors of the jointly controlled entity, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) of the Companies (Audit and Auditors) Rules, 2014, as provided under (a) and (b) above, contain any material mis-statement.

(v) The dividend declared and paid during the year by the Company and its jointly controlled entity is in compliance with Section 123 of the Act.

(vi) Based on our examination which included test checks, the company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with.

Audit trail has been preserved by the company and its jointly controlled entity as per the statutory requirements for record retention in accordance with the requirements of Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014

3. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 (the “Order”/ “CARO”) issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Company and by other auditor for its jointly controlled entity included in the consolidated financial statements of the Company, to which reporting under CARO is applicable, we report that there are no qualifications or adverse remarks in these CARO reports

“ANNEXURE - A” TO THE INDEPENDENT AUDITORS’ REPORT

[Referred to in paragraph 2(f) under “Report on Other Legal and Regulatory Requirements” in our Independent Auditors Report of even date on the Consolidated Financial Statements to the members of Mangalore Refinery and Petrochemicals Limited for the year ended March 31, 2025]

Report on the Internal Financial Controls Over the Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial of **Mangalore Refinery and Petrochemicals Limited** (“the Company”) and its jointly controlled entity **Shell MRPL Aviation Fuels and Services Limited** as of March 31, 2025 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Company and its jointly controlled entity is responsible for establishing and maintaining internal financial controls based on the internal controls with reference to financial reporting criteria established by the Company and its jointly controlled entity respectively considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls system of the company and its jointly controlled entity with reference to the consolidated financial statements reporting based on audit conducted by us in respect of the company and based on the audit conducted by other auditor in respect of the jointly controlled entity. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to consolidated financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls system with reference to these consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to these consolidated financial statements reporting and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to the consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by other auditor in terms of their reports referred to in the Other Matter paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system of the company and its jointly controlled entity with reference to these consolidated financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control system with reference to these consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial control system with reference to the consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls system with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us and based on the consideration of report of other auditor, the Company has, in all material respects, an adequate internal financial controls systems with reference to these consolidated financial statements and such internal financial controls system with reference to these consolidated financial statements were operating effectively as at 31 March 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matter

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the Internal Financial Controls with reference to Consolidated Financial Statements in so far as it relates to the jointly controlled entity is based on the report of the auditor of such jointly controlled entity.

Our opinion is not modified in respect of this matter.

**Notes to the Consolidated Financial Statements for the year ended March 31, 2025****1. Corporate information**

Mangalore Refinery and Petrochemicals Limited ('MRPL' or 'the Company') is a Central Public Sector Enterprise domiciled and incorporated in India having its registered office at Mudapadav, Kuthethoor P.O. via Katipalla, Mangaluru, Karnataka - 575030. The Company's equity shares are listed and traded on BSE Limited and National Stock Exchange of India Limited. The Company is engaged in the business of refining of crude oil. The Company is a subsidiary of Oil and Natural Gas Corporation Limited which holds 71.63% equity shares.

2. Application of new and revised Indian Accounting Standards

All the Indian Accounting Standards issued under Section 133 of the Companies Act, 2013 and notified by the Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) till the financial statements are approved have been considered in preparing these Financial Statements.

In accordance with the amendments to the Indian Accounting Standards (Ind AS) effective April 1, 2023, the Company is now disclosing only material accounting policy information in its financial statements, instead of significant accounting policies as required previously. This change aligns the Company's disclosure practices with the updated Ind AS framework and does not affect the financial statements themselves.

As on the reporting date, there were no new Indian Accounting Standards (Ind AS) issued by the Ministry of Corporate Affairs (MCA) which would have been applicable from April 1, 2025.

3. Material Accounting Policy Information :**3.1. Statement of compliance**

These Financial Statements have been prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") as prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules as amended from time to time and the presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the financial statements.

3.2. Basis of preparation

The Financial Statements have been prepared on going concern basis on the historical cost convention using accrual system of accounting except for certain assets and liabilities which are measured at fair value / amortized cost / net present value at the end of each reporting period, as explained in the accounting policies for financial instruments.

All Assets and Liabilities have been classified as current or non-current as per the Company's normal operating cycle (same has been assumed to have duration of 12 months) and other criteria set out in Ind AS – 1 "Presentation of Financial Statements" and the Schedule III to the Companies Act, 2013.

The Financial Statements are presented in Indian Rupees (₹) which is also company's functional currency. All values are rounded off to the nearest two decimal million except otherwise stated.

3.3. Goodwill

- 3.3.1 Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.
- 3.3.2 Goodwill arising on amalgamation of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.
- 3.3.3 The Company has elected to use the exemption available under Ind AS 101 to continue the carrying value for goodwill as recognized in the financial statements as at the date of transition to Ind AS, measured as per

the previous GAAP and use that as its deemed cost as at the date of transition (April 1, 2015).

3.4. Revenue Recognition

- 3.4.1 Revenue from sales of goods and services are recognized upon the satisfaction of a performance obligation, which occurs when control transfers to the customer. Control of the goods is determined to be transferred to the customer when the title of goods passes to the customer, which typically takes place when product is physically transferred into a vessel, pipeline (other than Company owned pipeline) or other delivery mechanism. In respect of revenue contracts for goods which provide for provisional pricing (wherever applicable) at the time of shipment, the final price adjustment if any will be given effect in the period in which it is finalised/ settled.
- 3.4.2 Revenue is measured at the transaction price of the consideration received or receivable and represents amounts receivable for goods and services including excise duty provided in the normal course of business, net of discounts or rebates, GST and sales tax. Any retrospective revision in prices is accounted for in the year of such revision.

3.5. Leases

To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) The contract involves use of an identified assets.
- (ii) The company has substantially all the economic benefits from the use of the asset through the period of the lease, and
- (iii) The company has the right to direct the use of the asset.

Company as a Lessee:

At the date of commencement of the lease, the Company recognizes a Right-of-Use Asset (ROU Asset) and a corresponding Lease Liability for all lease contracts / arrangements in which it is a lessee, except for lease with a term of twelve months or less (i.e. short term leases) and lease of low value assets.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. Right-of-Use Assets and Lease Liabilities include these options when it is reasonably certain that they will be exercised.

The Lease Liability is initially measured at present value of the future lease payments over the reasonably certain lease term. The lease payments are discounted using the interest rate implicit in the lease, if it is not readily determinable, using the incremental borrowing rate. For leases with similar characteristics, the Company, on a lease by lease basis applies either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole.

The Right-of-Use Assets are initially recognized at cost, which comprises the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the inception date of the lease along with any initial direct costs, restoration obligations and lease incentives received.

Subsequently, the Right-of-Use Assets are measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The Right-of-Use Assets are depreciated using the straight-line method, except in case of leasehold lands where the ownership will be transferred to the Company, from the commencement date over the shorter of lease term or useful life of Right-of-Use Assets. However, in case of ownership of such right-of-use asset transfers to the lessee at the end of the lease term, such assets are depreciated over the useful life of the underlying asset. The Company applies Ind AS 36 to determine whether a Right-of-Use Asset are impaired and accounts for any identified impairment loss as described in the accounting policy below on "Impairment of Non-Financial Assets".

The interest cost on Lease Liability (computed using effective interest method) is expensed in the Statement of Profit and Loss unless eligible for capitalization as per accounting policy below on "Borrowing or Finance costs".

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract in accordance with Ind AS 116 and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

Right-of-Use Assets are derecognized upon completion or cancellation of the lease contract.

Lease Liability and Right-of-Use Assets have been separately presented in the Balance Sheet and lease payments have been classified as financing activity in the Statement of Cash Flows.

Lease modification impact is on prospective basis.

The Company has elected not to apply Ind AS 116 "Leases" to intangible assets.

3.6. Foreign Currency Transactions

Transactions in currencies other than the Company's Functional Currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated using closing exchange rate prevailing on the last day of the reporting period.

Exchange difference arising in respect of foreign currency monetary items is recognised in the Statement of Profit and Loss either as 'Exchange Rate Fluctuation loss/ (gains) (Net)' or as 'Finance Costs' except for the exchange difference related to long term foreign currency monetary items outstanding as at March 31, 2016, in so far as, they relate to the acquisition of depreciable assets, are adjusted against the cost of such assets and depreciate the said adjustment, over the balance life of asset.

3.7. Borrowing or Finance Costs

Borrowing costs specifically identified to the acquisition or construction of qualifying assets are capitalized as part of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Capitalization of borrowing costs is suspended when active development of the qualifying asset is interrupted other than on temporary basis and charged to the statement of Profit and Loss during such extended periods. All other borrowing costs are charged to the Statement of Profit and Loss in the period in which they are incurred.

3.8. Government Grants

Government Grants including the export incentives are not recognised until there is reasonable assurance that the Company will comply with the conditions attached to them and that the grants will be received.

Government Grants are recognised in Statement of Profit and Loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate.

Specifically, Government Grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in the Balance Sheet and transferred to Statement of Profit and Loss on a systematic and rational basis over the useful lives of the related assets.

The benefit of a Government loan at a below market rate of interest is treated as a Government Grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

3.9. Employee Benefits

Employee benefits include salaries, wages, Contributory provident fund, gratuity, leave encashment towards un-availed leave, compensated absences, post-retirement medical benefits and other terminal benefits.

3.9.1. Short Term Employee Benefits

All short term employee benefits are recognized at their undiscounted amount in the accounting period in which they are incurred.

3.9.2. Post-Employment benefits

Defined Contribution Plans: Employee Benefit under defined contribution plans comprising Contributory provident fund, superannuation benefit, Employee pension scheme-1995, etc. is recognized based on the undiscounted amount of obligations of the Company to contribute to the plan. The superannuation benefit is paid to a fund administered through a separate trust.

Defined Benefit Plans: Defined employee benefit plans comprising of gratuity, post-retirement medical benefits and other terminal benefits, are recognized based on the present value of defined benefit obligation which is computed using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. These are accounted either as current employee cost or included in cost of assets as permitted.

Net interest on the net defined liability is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset and is recognised in the Statement of Profit and Loss except those included in cost of assets as permitted.

Remeasurement of defined retirement benefit plans except for leave encashment towards un-availed leave and compensated absences, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest as defined above), are recognized in other comprehensive income except those included in cost of assets as permitted in the period in which they occur and are not subsequently reclassified to profit or loss.

The Company contributes all ascertained liabilities with respect to gratuity to the MRPL Gratuity Fund Trust (MGFT). Liability towards post-retirement medical benefits and other terminal benefits etc. are unfunded.

The retirement benefit obligation recognised in the Financial Statements represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of reductions in future contributions to the plans.

3.9.3. Other Long-term Employee Benefits :

Other long term employee benefit comprises of leave encashment towards un-availed leave. These are recognized based on the present value of defined obligation which is computed using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. These are accounted either as current employee cost or included in cost of assets as permitted.

Re-measurements of leave encashment towards un-availed leave are recognized in the Statement of profit and loss except those included in cost of assets as permitted in the period in which they occur.

3.9.4. Termination Benefits :

Expenditure on account of schemes like premature retirement on medical grounds, post-retirement benefit and benefit on separation and Benefits of separation under SABF etc. are charged to Statement of Profit and Loss as and when incurred.

3.10. Income Taxes

Income Tax Expense represents the sum of the Current Tax and Deferred Tax.

**(i) Current Tax**

The tax currently payable is based on Taxable Profit for the year together with any adjustment to tax payable in respect of previous years. Taxable profit differs from 'Profit Before Tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's Current Tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current Income Tax Assets and Liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities.

(ii) Deferred Tax

Deferred Tax is provided using the Balance Sheet method and is recognized on temporary differences between the carrying amounts of Assets and Liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit. Deferred Tax Liabilities are generally recognised for all taxable temporary differences. Deferred Tax Assets are generally recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses to the extent that it is probable that taxable profits will be available against which those deductible temporary differences, the carry forward of unused tax credits and any unused tax losses can be utilized.

Deferred Taxes are recognised in respect of temporary differences which originate during the tax holiday period but reverse after the tax holiday period. For this purpose, reversal of temporary difference is determined using first in first out method.

The carrying amount of Deferred Tax Assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred Tax Liabilities and Assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

The measurement of Deferred Tax Liabilities and Assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its Assets and Liabilities.

Deferred Tax Assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT is recognised as Deferred Tax Asset in the Balance Sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with asset will be realised.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Current and Deferred Tax for the year

Current and Deferred Tax are recognised in Statement of Profit and Loss, except when they relate to items that are recognised in Other Comprehensive Income or directly in equity, in which case, the Current and Deferred Tax are also recognised in Other Comprehensive Income or directly in Equity respectively.

3.11. Property, Plant and Equipment (PPE) and Right of Use Assets (ROU)

3.11.1. Recognition

Property, Plant and Equipment including Capital Work in Progress (CWIP) are stated in the Balance Sheet at cost, less accumulated depreciation and accumulated impairment losses if any.

The Company has elected to use the exemption available under Ind AS 101 to continue the carrying value for all of its Property, Plant and Equipment as recognized in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition (April 1, 2015).

3.11.2. Cost of Property, Plant and Equipment

Parts of an item of PPE having different useful lives and material value as assessed by management and subsequent capital expenditure on Property, Plant and Equipment are accounted for as separate components.

Catalyst whose useful life is more than one year is capitalised as Property, Plant and Equipment.

Stores and Spares which qualifies as Property, Plant and Equipment are capitalised based on materiality threshold (if any). [Refer para 4.3].

Item of PPE having basic value not exceeding ₹ 1,000/- (other than company employee's asset purchase scheme) are fully charged to statement of Profit and Loss in the year of purchase.

Item of PPE purchased under employee's asset purchase scheme are capitalized based on Company's policy for the applicable scheme.

Directly identifiable expenditure on overhaul and repairs on account of planned shutdown (other than replacement spare) which are of significant value i.e. 5% of the gross value of particular asset / unit or ₹ 10 million or more for a particular asset /unit whichever is lower is capitalized as component of relevant items of PPE and will be depreciated over the period till next planned shutdown on straight line basis. All replacement spares procured and consumed during overhaul and repairs on account of planned shutdown are capitalised.

In respect of the capital goods common for both GST and non-GST products, the GST input tax credit is taken on the eligible portion based on GST and non-GST product ratio in the month of accounting and the ineligible portion is capitalized. Subsequently, this ratio is reviewed every month as per the GST provisions and the differential GST amount (if any) arising due to changes in the ratio is capitalized when it is beyond the materiality threshold. [Refer para 4.3].

3.11.3. Useful Life

The useful life of PPE (other than employee's asset purchase scheme) and their components are either based on useful life as stated in Schedule II to the Companies Act, 2013 or based on technical assessment by the Company.

The useful life of assets purchased under employee's asset purchase scheme are based on Company's policy for the applicable scheme.

In respect of immovable assets constructed on leasehold land, useful life as per Schedule II or lease period of land (including renewable/likely renewable period) whichever is earlier is considered.

Estimated useful life of the Assets are as follows:

Sl. No.	Particulars	Useful life (in years)
1.	Buildings	3-60
2.	Plant and Equipment –Refinery and Petrochemical Plant • Civil and Structural works. • Piping Items. • Offshore Components. • SPM and related components. • Storage tanks. • Pipelines. • Boiler, Electrical items, Exchanger, Air Coolers, Fire protection and Safety, Heater, Packages, Reactors, Rotary Equipment, Spares, Static Equipment and Miscellaneous items. • DCS, EOT crane, Instrumentation items. • Catalyst. • Continuous Process Plant not covered under Specific Industries (Triple shift).	2-42
3.	Plant and Equipment –Power Plant • Power producing equipment. • Civil and Structural works. • Instrumentation items.	15-40
4.	Plant and Equipment –Desalination Plant • Offshore Components. • Civil and Structural works. • Piping items. • Electrical items, Exchange Air cooler, Fire protection and Safety items, Packages, Rotary equipment, Static Equipment and Miscellaneous Items. • DCS, EOT crane and Instrumentation items	15-30
5.	Furniture and fittings	3-15
6.	Motor vehicles	4-15
7.	Railway Siding	15
8.	Office Equipment	3-15
9.	Computers and data processing units	3-10
10.	Laboratory Equipment	5-15
11.	Retail outlets • Dispensing Units • Tankages • Electrical installation & Equipment's • Automation	7-15 7-15 10 5

3.11.4. Residual Value

The Company has assessed the estimated residual value of its Property, Plant and Equipment and has adopted the same as prescribed in Schedule II i.e. up to 5% except for the assets purchased under employee's asset purchase scheme are based on Company's policy (10% to 20%).

3.11.5. Depreciation

Depreciation is provided on the cost of PPE (other than Freehold Land and Properties under construction) less their residual values over their useful lives, using Straight Line Method.

Catalysts are depreciated over the guaranteed useful life as specified by the supplier /technical evaluation (whichever is earlier) when the catalyst is put to use.

Planned shutdown cost which are recognized as PPE are depreciated over the period till next planned shutdown on straight line basis.

Depreciation on stores and spares which are capitalised as Property, Plant and Equipment are depreciated over the period starting when it is available for use i.e. from date of acceptance of material and continuing over the shorter of its useful life or the remaining expected useful life of the asset to which it relates.

The depreciation for assets purchased under employee's asset purchase scheme are based on Company's policy for the applicable scheme.

Depreciation on additions to PPE during the year is provided for on a pro-rata basis with reference to the date of additions except low value items not exceeding basic value ₹ 5,000/- per unit (other than company asset purchase scheme for employee's) which are fully depreciated at the time of addition.

Depreciation on subsequent expenditure on PPE arising on account of capital improvement or other factors is provided for prospectively over the remaining useful life. The Company depreciates significant components of the main asset (which have different useful lives as compared to the main asset) based on the individual useful life of those components.

Right-of-Use Assets are depreciated on a straight line basis over the lease term or useful life of the underlying asset, whichever is lower, except leasehold lands where the ownership will be transferred to the Company.

3.11.6. De-recognition

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising on de-recognition of an item of Property, Plant and Equipment is determined as the difference between the net disposal proceeds (if any) and the carrying amount of the item.

In the event of replace of spare, the written down value of the old spare is charged to the Statement of Profit and Loss as and when replaced.

3.12. Intangible Assets

3.12.1. Intangible Assets other than Goodwill

Intangible Assets with finite useful lives that are acquired separately are carried at cost less Accumulated amortisation and Accumulated impairment losses, if any. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are not subject to amortization and are carried at cost less Accumulated impairment losses if any.

The Company has elected to use the exemption available under Ind AS 101 to continue the carrying value for all of its intangible assets as recognized in the financial statements as at the date of transition to Ind AS,

measured as per the previous GAAP and use that as its deemed cost as at the date of transition (1st April 2015).

3.12.2. Useful lives of Intangible Assets

Estimated useful life of the Intangible Assets are as follows:

Sl. No.	Particulars	Useful life (in years)
1.	Computer Software	2-10
2.	Licence and Franchise	3-5

3.13. Impairment of Non-financial Assets

The Company reviews the carrying amounts of its Non-financial assets other than inventories, deferred tax assets and non-current assets classified as held for sale at the end of each reporting period to determine whether there is any significant indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the Cash Generating Unit (CGU) to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or Cash Generating Unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or Cash Generating Unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the Statement of Profit and Loss.

An assessment is made at the end of each reporting period as to see if there are any indications that impairment losses recognized earlier may no longer exist or may have come down. The impairment loss is reversed, if there has been a change in the estimates used to determine the Asset's recoverable amount since the previous impairment loss was recognized. If it is so, the carrying amount of the asset is increased to the lower of its recoverable amount and the carrying amount that have been determined, net of depreciation / amortization, had no impairment loss been recognized for the asset in prior years. After a reversal, the depreciation / amortization charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life. Reversals of Impairment loss are recognized in the Statement of Profit and Loss.

3.14. Statement of Cash Flows

Statement of Cash Flows are reported using the indirect method, whereby Profit After Tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with Investing or Financing activities. The Cash Flows are segregated into Operating, Investing and Financing activities.

3.15. Inventories

Inventories are valued at lower of cost and net realizable value. Cost of inventories comprises of purchase cost and other costs incurred in bringing inventories to their present location and condition. The cost has been determined as under:

Raw Materials (Crude)	On First in First Out (FIFO) basis.
Other Raw Materials	On Weighted Average Cost basis.
Finished Goods	On First In First Out (FIFO) basis.
Stock-in-Trade	On Weighted Average Cost basis.
Stock-in-Process	At Raw Material and Proportionate Conversion Cost.
Stores and Spares including packing materials	On Weighted Average Cost basis.

Raw Materials are not written down below cost except in case where their prices have declined subsequently and it is estimated that the cost of the finished goods will exceed their net realizable value.

Excise duty on Finished Goods lying at manufacturing location is provided for at the assessable value based on applicable duty.

Customs duty on Raw Materials lying in bonded warehouse is provided for at the applicable rates.

Obsolete, Slow Moving, Surplus and Defective Stocks are identified at the time of physical verification of stocks and where necessary, provision is made for such stocks.

3.16. Provisions, Contingent Liabilities, Contingent Assets and Commitments

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Contingent assets are disclosed in the Financial Statements by way of Notes to Accounts when an inflow of economic benefits is probable.

Contingent liabilities are possible obligations whose existence will only be confirmed by future events not wholly within the control of the Company, or present obligations where it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured with sufficient reliability. Contingent liabilities are disclosed on the basis of judgment of the management / independent experts in the Financial Statements by way of Notes to Accounts, unless possibility of an outflow of resources embodying economic benefit is remote. [Refer para 4.3].

Contingent assets and contingent liabilities are reviewed at each balance sheet date to reflect the current management estimate.

Capital and Other Commitments disclosed are in respect of items which in each case are above the threshold limit. [Refer para 4.3].

3.17. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments. A financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another entity or a contract that will or may be settled in the entity's own equity instruments and is a non-derivative for which the entity is or may be obliged to deliver a variable number of the entity's own equity instruments.

Initial recognition and measurement

Financial Assets and Financial Liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of Financial Assets and Financial Liabilities (other than

Financial Assets and Financial Liabilities at fair value through profit or loss) are added to or deducted from the fair value of the Financial Assets or Financial Liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of Financial Assets or Financial Liabilities at fair value through profit or loss are recognised immediately in Statement of Profit and Loss. [Refer para 4.3].

3.18. Financial Assets

Subsequent Measurement

All recognised Financial Assets are subsequently measured in their entirety at either amortised cost or fair value, based on the business model for managing the financial assets and the contractual cash flow characteristics.

(i) Financial Assets at Amortised Cost

Financial Assets are subsequently measured at amortised cost using the effective interest method if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the Financial Asset give rise on specified dates to Cash Flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

(ii) Financial Assets at Fair value through Other Comprehensive Income (FVOCI)

Financial Assets are measured at fair value through Other Comprehensive Income if these Financial Assets are held within a business whose objective is achieved by both selling Financial Assets and collecting contractual Cash Flows, the contractual terms of the Financial Asset give rise on specified dates to Cash Flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

(iii) Financial Assets at Fair value through Profit or Loss (FVTPL)

Financial Assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through Other Comprehensive Income.

After initial measurement, any fair value changes including any interest income, impairment loss and other net gains and losses are recognized in the Statement of Profit and Loss.

(iv) Cash and Cash Equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be Cash Equivalents. Cash and Cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

(v) Equity Investments:

Equity Investments (Other than Subsidiaries, Joint Ventures (JV) and Associates):

All Equity Investments in the scope of Ind AS 109 are measured at Fair value. Equity Instruments which are held for trading are classified as at FVTPL. For all other such equity investments, the Company decides to classify the same either as FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

(vi) Impairment of Financial Assets

The Company assesses at each Balance Sheet date whether a Financial Asset or a group of Financial Assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to 12 month expected credit losses or at an amount equal to lifetime expected losses, if the credit risk on the financial asset has increased significantly since initial recognition.

(vii) Derecognition of Financial Assets

The Company derecognises a Financial Asset when the contractual rights to the cash flows from the asset expire, or when it transfers the Financial Asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a Financial Asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in the Statement of Profit and Loss.

3.19. Financial Liabilities and Equity Instruments
3.19.1 Financial Liabilities
Subsequent measurement
(i) Financial liabilities at amortised cost:

Financial Liabilities are measured at Amortised Cost at the end of subsequent accounting periods. The carrying amounts of Financial Liabilities that are subsequently measured at amortised cost are determined based on the Effective Interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance Costs' line item.

(ii) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include derivatives. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss.

(iii) Embedded derivatives

Derivatives embedded in all other host contract except for an asset are separated only if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host and are measured at fair value through profit or loss. Embedded derivatives closely related to the host contracts are not separated.

Derecognition of Financial Liabilities

The Company derecognises Financial Liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the Financial Liability derecognised and the consideration paid and payable is recognised in the Statement of Profit and Loss.

3.19.2 Equity Instruments

An Equity Instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received. Incremental costs directly attributable to the issuance of new ordinary equity shares are recognized as a deduction from equity, net of tax effects.

3.20. Financial Guarantee

Financial guarantee contracts issued by the Company are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of

- i. The amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- ii. The amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 115.

When the Company receives Financial Guarantee from its holding company, initially it measures guarantee fees at the fair value. The Company records the difference between the fair value of Corporate Guarantee received and the consideration paid by the company as **“Deemed Equity”** from Holding Company with a corresponding asset recorded as prepaid guarantee charges or by debiting to statement of Profit and Loss as

the case may be. Such deemed equity is presented under the head 'Other Equity' in the Balance Sheet. Prepaid guarantee charges are recognized in the Statement of Profit and Loss over the period of Financial Guarantee received.

4 Critical Accounting Judgments, Assumptions and Key Sources of Estimation Uncertainty

Inherent in the application of many of the Accounting Policies used in preparing the Financial Statements is the need for management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses. Actual outcomes could differ from the estimates and assumptions used.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Key source of judgments, assumptions and estimation uncertainty in the preparation of the Financial Statements which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are in respect of useful lives of Property, Plant and Equipment, Employee Benefit Obligations, Provision for Income Tax and measurement of Deferred Tax Assets.

4.1 Critical judgments in applying accounting policies

The following are the critical judgements, apart from those involving estimations (Refer note 4.2 below), that the Management have made in the process of applying the Company's accounting policies and that have the significant effect on the amounts recognized in the Financial Statements.

Determination of Functional Currency

Currency of the primary economic environment in which the Company operates ("the Functional Currency") is Indian Rupee (₹) in which the company primarily generates and expends cash. Accordingly, the management has assessed its Functional Currency to be Indian Rupee (₹).

4.2 Assumptions and key sources of estimation uncertainty

Information about estimates and assumptions that have the significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may differ from these estimates.

a) Useful life of Property, Plant and Equipment and Intangible Assets

Management reviews its estimate of the useful lives of PPE and Intangible Assets at each reporting date, based on the future economic benefits expected to be consumed from the Assets.

b) Defined Benefit Obligation (DBO)

Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, medical cost trends, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

c) Provision for Income Tax

Significant judgements are involved in determining the provision for Income Taxes, including amount expected to be paid/recovered for uncertain tax positions.

d) Recognition of Deferred Tax Assets

The extent to which Deferred Tax Assets can be recognized is based on an assessment of the probability of the Company's future taxable income against which the Deferred Tax Assets can be utilized. In addition, significant judgement is required in assessing the impact of any legal or economic limits or uncertainties.

e) **Leases**

Identifying whether a Contract includes a Lease

The Company enters into hiring/service arrangements for various assets/services. The Company evaluates whether a contract contains a lease or not, in accordance with the principles of Ind AS 116. This requires significant judgments including but not limited to, whether asset is implicitly identified and substantive substitution rights available with the supplier, decision making rights with respect to how the underlying asset will be used, economic substance of the arrangement, etc.

Determining Lease Term (Including Extension and Termination Options)

The Company considers the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. Assessment of extension/termination options is made on lease by lease basis, on the basis of relevant facts and circumstances. The lease term is reassessed if an option is actually exercised. In case of contracts, where the Company has the option to hire and de-hire the underlying asset on some circumstances (such as operational requirements), the lease term is considered to be initial contract period.

Identifying Lease Payments for Computation of Lease Liability

To identify fixed (including in-substance fixed) lease payments, the Company consider the non-operating day rate/standby as minimum fixed lease payments for the purpose of computation of Lease Liability and corresponding Right of Use Assets.

Low Value Leases

Ind AS 116 requires assessment of whether an underlying asset is of low value, if lessee opts for the option of not to apply the recognition and measurement requirements of Ind AS 116 to leases where the underlying asset is of low value. For the purpose of determining low value, the Company has considered nature of assets and concept of materiality as defined in Ind AS 1 and the conceptual framework of Ind AS which involve significant judgment.

Determining Discount Rate for Computation of Lease Liability

For computation of Lease Liability, Ind AS 116 requires lessee to use their incremental borrowing rate as discount rate if the rate implicit in the lease contract cannot be readily determined.

For leases denominated in Company's Functional Currency, the Company considers the incremental borrowing rate to be Corporate Bond Rates for similar rated Organizations.

4.3 The Company has adopted materiality threshold limits in the preparation and presentation of Financial Statements as given below:

Threshold Limit	Threshold Limit Value for FY 2024-25	Threshold Limit Value for FY 2023-24
Capitalization of spares parts (other than replacement spares procured and consumed during shutdown) meeting the definition of Property, Plant and Equipment in each case (Basic Value per unit)	₹ 1.50 million and above	₹ 1.50 million and above
GST on common capital goods per unit per month capitalized (differential ineligible GST arising on account of change in GST and Non GST product ratio)	₹ 1.50 million and above	₹ 0.50 million and above
Income/ expenditure (net) in aggregate pertaining to prior year(s)	₹ 600 million and above	₹ 500 million and above
Re-classification of items in Financial Statements in aggregate pertaining to prior year(s)	₹ 1,800 million and above	₹ 500 million and above

Prepaid expense in each case	₹ 1.50 million and above	₹ 0.30 million and above
Disclosure of contingent liabilities in each case	₹ 1.50 million and above	₹ 0.50 million and above
Disclosure of Capital Commitments in each case	₹ 1.50 million and above	₹ 0.50 million and above
Refundable Non-current Financial Deposits (not yielding interest i.e. “interest free” or concessional interest i.e. “below market rate”) excluded from fair-valuation	Less than ₹ 5.00 million	Less than ₹ 3.00 million
Low Value Lease (exemption given for not making lease accounting as per Ind AS 116)	NPV of Future Rental Payment(s) less than ₹ 5 million or Average Annual Rent less than ₹ 0.50 million	NPV of Future Rental Payment(s) less than ₹ 2.50 million or Average Annual Rent less than ₹ 25,000

- 21.1 An amount of ₹ 76.78 million as at March 31, 2025 (As at March 31, 2024 ₹ 63.76 million) shown as deemed equity which denotes the difference between the fair value of Corporate Guarantee received from Holding Company and the consideration paid by the company.
- 21.2 The Company created capital redemption reserve on redemption of preference share capital during the financial years 2011-12 and 2012-13.
- 21.3 The Company created securities premium on issue of equity share capital and the same can be utilized as per the requirement of the Companies Act, 2013.
- 21.4 Capital reserve created on account of consolidation during the year 2014-15.
- 21.5 The General reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to Statement of Profit and Loss.
- 21.6 Other reserve represents excess consideration paid towards acquisition of non-controlling interest in erstwhile subsidiary company ONGC Mangalore Petrochemicals Limited (OMPL) from non-controlling share holders.
- 21.7 The amount that can be distributed by the Company as dividend to its equity shareholders is determined considering the requirements of the Companies Act, 2013 and the dividend distribution policy of the Company. Thus, the amount reported in General Reserve is not entirely distributable.
- 21.8 The cash flow hedging reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of designated portion of hedging instruments entered into for cash flow hedges by Joint Venture, Shell MRPL Aviation Fuels and Services Limited. The cumulative gain or loss arising on changes in fair value of the designated portion of the hedging instruments that are recognised and accumulated under the heading cash flow hedging reserve will be reclassified to profit or loss only when the hedged transaction affects the profit or loss, or included as a basis adjustment to the non-financial hedged item.
- 21.9 On August 22, 2024, the shareholders of the Company approved the final dividend of ₹ 2.00 per share (20%) for FY 2023-24 amounting to ₹ 3,505.20 million which has since been paid. This was in addition to the interim dividend of ₹ 1.00 per share for FY 2023-24 (10%) amounting to ₹ 1,752.60 million declared by the Board of Directors paid during FY 2023-24.
- 21.10 The company has a dividend distribution policy in line with SEBI (LODR) Regulation, 2016, Department of Investment and Public Asset Management (DIPAM) guidelines, Provisions of Companies Act, 2013, Companies (Declaration & Payment of Dividend) Rules, 2014 and other guidelines to the extent applicable. As per the guidelines with respect to payment of dividend issued by DIPAM, Government of India, the company is required to pay a minimum annual dividend of 30% of PAT or 4% of the net-worth, whichever is higher subject to maximum dividend permitted under extant legal provisions. Though the company endeavours to declare dividend as per these guidelines, during the Financial Year, considering Company's Capital Expenditure and loan repayments plans due in FY 2024-25 and FY 2025-26, the Company did not declare dividends as prescribed by the DIPAM for FY 2024-25. The dividend as per extant guidelines works out to ₹ 1,752.60 million and ₹ 10,787.81 million for FY 2024-25 and FY 2023-24 respectively against which ₹ Nil million and ₹ 5,257.80 million was paid / proposed to be paid respectively **[Refer Note No. 21.9]**.

The Company has represented to the Ministry of Petroleum and Natural Gas (MoPNG) being its Administrative Ministry, for grant of exemption from payment of dividend for FY 2024-25 and for payment of lower dividend in comparison to the amount payable as per DIPAM guidelines and reply from MoPNG in this regard is awaited.

- 25.1** In accordance with Ind AS 12 - Income Taxes, the Company has recognised deferred tax asset for all deductible temporary differences and also for carry-forward of unused tax losses and unused tax credits. The recognition of Deferred Tax Asset (DTA) is based on the probability of earning sufficient taxable profits in the future years as projected by the management (duly considering capacity utilization and price realisation) against which the deductible temporary difference and carry forward of unused tax losses and unused tax credits can be utilised. Deferred Tax asset has been recognised net of deferred tax liability.

@ An amount of ₹ 705.21 million representing unspent money on ongoing projects for FY 2024-25 will be transferred to Specified Bank account within the stipulated timeline as applicable.

(e) Reason for Shortfall :

The Company has allocated a total CSR budget of ₹ 828.52 Million for various projects under the items listed in Schedule VII of the Companies Act, 2013 in FY 2024-25. During the financial year, an expenditure

of ₹ 123.31 Million was incurred against the allocated budget. The shortfall of ₹ 705.21 Million is primarily due to milestone-based payments for multi-year ongoing projects, which are currently in various stages of implementation.

In compliance with statutory provisions, the unspent amount of ₹ 705.21 Million will be transferred to the Unspent CSR Account (UCSRA) within the stipulated timeline as applicable, and will be utilized in accordance with the applicable CSR Rules.

Additionally, ₹ 25.03 Million was transferred to the UCSRA (Unspent CSR Account) for the financial year 2022-23, which was fully utilized during the financial year 2023-24 as per CSR guidelines. Furthermore, ₹ 225.78 Million was transferred to the UCSRA for the financial year 2023-24, out of which ₹ 162.30 Million has been utilized during 2023-24. The remaining balance is planned to be utilized by 2025-26.

Total	-	82.90

- 36.5.1** During the previous financial year, certain arbitration cases have been settled which were pertaining to earlier years.

- 36.5.2** In compliance with the norms of the Karnataka Electricity Regulatory Commission, Company had made provision towards purchase of Renewable Energy Certificates (REC) in order to meet compliance requirement of Renewable Purchase Obligation (RPO) and accordingly, provision for same was recognized in the books amounting to ₹ 1,211.70 million till March 31, 2023.

During the previous financial year, the REC price had reduced substantially resulting in closing provision in the books pertaining to the said purchase obligation being restated to ₹ 459.97 million. Further, considering the legal opinion along with other favourable judgements in similar matter, during the previous Financial Year, the company had re-assessed the requirement of carrying the provision in books of accounts and concluded that the provision was no longer required to be carried in the books. Accordingly, the said provision had been reversed.

Besides, the company being a Co-generation Captive user, is not an obligated entity for RPO. Nevertheless, it has fulfilled the RPO requirements based on power generated from own solar roof top, captive plant gas turbine using refinery fuel gas, green energy purchase from open access and Heat Recovery Steam Generators. Considering the fact that the outflow of resource for the company is also remote, no contingent liability has been disclosed.

40.1.2 Defined benefit plans

40.1.2.1 Brief Description: A general description of the type of Defined benefit plans are as follows:

a) Gratuity:

15 days salary for every completed year of service. Vesting period is 5 years and the payment is restricted to ₹ 2 million. Besides the ceiling of gratuity will increase by 25% whenever IDA rises to 50%.

The MRPL Gratuity Fund Trust was formed on April 20, 2007 and investments of the funds received from the company after actuarial valuation and the investment of the funds upto June 28, 2013 was made in the manner prescribed by Income tax Rule 67(1) of the Income Tax Rules, 1962 as amended from time to time.

The Funds of MRPL Gratuity Fund Trust after June 28, 2013 are being invested in Group Gratuity Cash Accumulation Scheme (Traditional Fund) of various insurance companies.

b) Post-Retirement Medical Benefits (PRMB):

After retirement, on payment of one time lump sum contribution, the superannuated employee and his/her dependent spouse and dependent parents will be covered for medical benefit as per the rules of the Company.

During the current financial year, the company has invested part portion of its PRMB liability in LIC's Group Post Retirement Medical Benefit Plan to the tune of ₹ 140.39 million.

c) Resettlement Allowance:

At the time of superannuation, employees are entitled to settle at a place of their choice and they are eligible for Settlement Allowance.

40.1.2.2 These plans typically expose the Company to actuarial risks such as: investment risk, interest rate risk, longevity risk and salary risk.

Investment risk	The present value of the defined benefit plan liability (denominated in Indian Rupee) is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds; if the return on plan asset is below this rate, it will create a plan deficit. Currently it has a relatively balanced mix of investments in government securities, insurance investment and other debt instruments.
Interest risk	A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.
Longevity risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
Salary risk	The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

No other post-retirement benefits are provided to these employees.

In respect of the plans, the most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out as at March 31, 2025 by a member firm of the Institute of Actuaries of India. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method. The liabilities for Defined Benefit Plans are recognized and charged to Statement of Profit and Loss.

40.1.2.3 The principal assumptions used for the purposes of the actuarial valuations were as follows:

Sl. No.	Particulars	As at March 31, 2025	As at March 31, 2024
	Gratuity (Funded)		
1	Expected return on plan assets	6.82%	7.21%
2	Rate of discounting	6.82%	7.21%
3	Rate of salary increase	7.50%	7.50%
4	Rate of employee turnover	2.00%	2.00%
5	Mortality rate during employment	Indian Assured lives Mortality (2012-14) Urban	Indian Assured lives Mortality (2012-14) Urban

Sl. No.	Particulars	As at March 31, 2025	As at March 31, 2024
	Post-Retirement Medical Benefits		
1	Rate of discounting	7.05%	7.24%
2	Medical cost inflation	0.00%	0.00%
3	Rate of employee turnover	2.00%	2.00%
4	Mortality rate during employment	Indian Assured lives Mortality (2012-14) Urban	Indian Assured lives Mortality (2012-14) Urban
5	Mortality rate after employment	Indian Individual AMT (2012-15)	Indian Individual AMT (2012-15)
	Resettlement Allowance:		
1	Rate of discounting	7.05%	7.24%
2	Rate of salary increase	7.50%	7.50%
3	Rate of employee turnover	2.00%	2.00%
4	Mortality rate during employment	Indian Assured lives Mortality (2012-14) Urban	Indian Assured lives Mortality (2012-14) Urban

The rate of discounting is based upon the market yield available on Government bonds at the accounting date with a term that matches. The salary growth takes into account inflation, seniority, promotion and other relevant factor on long term basis. Expected rate of return on plan assets is based on market expectation, at the beginning of the year, for return over the entire life of the related obligation.

The actual return on plan assets of gratuity was ₹ 133.24 million (Year ended March 31, 2024 ₹ 118.35 million).

Significant actuarial assumptions for the determination of the defined benefit obligations are discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

40.1.2.9 Sensitivity Analysis as at March 31, 2025

Significant actuarial assumptions	Gratuity	Post-Retirement Medical Benefits	Resettlement Allowance
Rate of discounting			
- Impact due to increase of 50 basis points	(109.37)	(18.92)	(5.39)
- Impact due to decrease of 50 basis points	118.69	21.06	5.96
Rate of salary increase			
- Impact due to increase of 50 basis points	117.95	-	-
- Impact due to decrease of 50 basis points	(120.09)	-	-
Rate of Employee turnover			
- Impact due to increase of 50 basis points	7.14	(7.16)	(0.24)
- Impact due to decrease of 50 basis points	(7.41)	6.58	0.25
Future Cost Escalation			
- Impact due to increase of 50 basis points	-	-	-
- Impact due to decrease of 50 basis points	-	-	-

Sensitivity Analysis as at March 31, 2024

Significant actuarial assumptions	Gratuity	Post-Retirement Medical Benefits	Resettlement Allowance
Rate of discounting			
- Impact due to increase of 50 basis points	(97.24)	(9.30)	(1.44)
- Impact due to decrease of 50 basis points	105.48	10.35	1.60
Rate of salary increase			
- Impact due to increase of 50 basis points	104.11	-	-
- Impact due to decrease of 50 basis points	(105.44)	-	-

Rate of Employee turnover			
- Impact due to increase of 50 basis points	9.39	(3.56)	(0.04)
- Impact due to decrease of 50 basis points	(9.84)	3.21	0.04
Future Cost Escalation			
- Impact due to increase of 50 basis points	-	-	-
- Impact due to decrease of 50 basis points	-	-	-

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

42.3 Transactions with other Government-Controlled Entities

The Company is a Government related entity, engaged in the business of refining of crude oil and marketing of petroleum products. The Company also deals on regular basis with entities directly or indirectly controlled by the Central / State Governments through its Government authorities, agencies, affiliations and other organizations (collectively referred as “Government related entities”).

Apart from transactions with Company’s group Companies, the Corporation has transactions with other Government related entities, including but not limited to the followings:

- Sale and purchase of products;
- Rendering and receiving services;
- Leasing of assets;
- Depositing and borrowing money; and
- Use of public utilities

These transactions are conducted in the ordinary course of the Company’s business on terms comparable to those with other entities that are not Government related.

43 Financial instruments

43.1 Capital Management

The Company’s objective when managing capital is to safeguard its ability to continue as going concern so that the Company is able to provide maximum return to stakeholders and benefits for other stakeholders; and maintain an optimal capital structure to reduce the cost of capital.

The Company maintains its financial framework to support the pursuit of value growth for shareholders, while ensuring a secure financial base. In order to maintain or adjust the capital structure, the Company may vary the distribution of dividends to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The capital structure of the Company consists of net debt (borrowings as detailed in note 22 offset by cash and bank balances) and total equity of the Company.

The Company’s management reviews the capital structure of the Company on quarterly basis. As part of this review, the management considers the cost of capital and the risks associated with each class of capital requirements and maintenance of adequate liquidity.

43.1.1 Gearing Ratio

(c) Trade payables	58,146.55	72,035.98
(d) Other financial liabilities	8,455.33	8,118.94

43.3 Financial risk management objectives

The Company's Risk Management Committee monitors and manages key financial risks relating to the operations of the Company by analysing exposures by degree and magnitude of risks. These risks include market risk (including currency risk and interest rate risk), credit risk and liquidity risk.

43.4 Market Risk

Market risk is the risk or uncertainty arising from possible market price movements and their impact on the future performance of a business. The major components of market risk are foreign currency exchange risk and interest rate risk.

43.5 Foreign currency risk management

The Company undertakes transactions denominated in foreign currencies, primarily for purchases of crude oil and exports sales and has borrowings denominated in foreign currency; consequently, exposures to exchange rate fluctuations arise. Significant carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

Transaction Currency	Liabilities		Assets	
	As at March 31, 2025	As at March 31, 2024	As at 31 March, 2025	As at 31 March, 2024
USD	76,757.05	1,03,494.24	10,178.73	5,390.45
AED	10,037.03	5,398.54	-	-
EURO	106.28	41.89	-	-
CHF	0.34	0.32	-	-
GBP	0.42	0.40	-	-
JPY	8.69	0.50	-	-

43.5.1 Foreign currency sensitivity analysis

The Company is mainly exposed to the currency of United States of America (USD). Sensitivity of profit or loss arises mainly from USD denominated receivables and payables.

As per management's assessment of reasonable possible changes in the exchange rate of +/- 5% between USD-INR currency pair, sensitivity of profit or loss only on outstanding foreign currency denominated monetary items at the period end is presented below:

USD sensitivity at year end	Year Ended March 31, 2025	Year Ended March 31, 2024
Receivables:		
Weakening of INR by 5%	508.94	269.52
Strengthening of INR by 5%	(508.94)	(269.52)
Payables:		
Weakening of INR by 5%	(3,837.85)	(5,174.71)
Strengthening of INR by 5%	3,837.85	5,174.71

43.5.2 Forward foreign exchange contracts

The Company books short term forward contracts upto a maximum period of 30 days to the limited extent when export receivables date and import payments date do not fall within the spot date.

43.6 Interest rate risk management

The Company has availed borrowings at fixed and floating interest rates, hence is exposed to interest rate risk. The Company has not entered into any of the interest rate swaps and hence the Company is exposed to interest rate risk.

Interest rate sensitivity analysis

The sensitivity analysis below have been determined based on the exposure to interest rates at the end of the reporting period. For floating rate borrowings, the analysis is prepared assuming the amount of the borrowings outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used for disclosing the sensitivity analysis.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Company's profit for the year ended March 31, 2025 would decrease/increase by ₹ 232.16 million (for the year ended March 31, 2024 : decrease/increase by ₹ 260.32 million). This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowings (considered on closing balance of borrowings as at year end).

43.7 Credit risk management

Credit risk refers to the risk that a counter party will default on its contractual obligations resulting in

financial loss to the Company. Credit risk arises from cash and cash equivalents, deposits with banks as well as customers including receivables. Credit risk management considers available reasonable and supportive forward-looking information including indicators like external credit rating (as far as available), macro-economic information (such as regulatory changes, government directives, market interest rate etc.).

Major customers comprise of public sector undertakings (Oil Marketing Companies - OMCs) having highest credit ratings and carry negligible credit risk. Concentration of credit risk to any other counterparty did not exceed 10% of total monetary assets at any time during the year.

Only high rated banks are considered for placement of deposits. Bank balances are held with reputed and creditworthy banking institutions.

43.8 Liquidity risk management

The Company manages liquidity risk by maintaining sufficient cash and cash equivalents including bank deposits and availability of funding through an adequate amount of committed credit facilities to meet the obligations when due. Management monitors rolling forecasts of liquidity position and cash and cash equivalents on the basis of expected cash flows. In addition, liquidity management also involves projecting cash flows considering level of liquid assets necessary to meet obligations by matching the maturity profiles of financial assets & liabilities and monitoring balance sheet liquidity ratios. The Company manages liquidity risk by maintaining adequate cash & credit lines and continuously monitoring forecast and actual cash flows and by matching the maturity profiles of financial assets and liabilities.

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows. The contractual maturity is based on the earliest date on which the Company may be required to pay.

ANNEXURE TO THE NOTICE

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 (1) OF THE COMPANIES ACT, 2013 IN RESPECT OF SPECIAL BUSINESS ITEMS

Item No. 4: Ratification of Remuneration payable to Cost Auditors for the Financial Year 2025-26.

In accordance with the provisions of Section 148 of the Companies Act, 2013 (the Act) and the Companies (Audit and Auditors) Rules, 2014 (the Rules), the Company is required to appoint a Cost Auditor to audit the cost records of the Company for the Financial Year 2025-26. On the recommendation of the Audit Committee, the Board at its 270th meeting held on 18/07/2025 approved the appointment of M/s Bandyopadhyaya Bhaumik & Co., Cost Accountants, Kolkata as the Cost Auditor of the Company for the Financial Year 2025-26 at remuneration of ₹2,25,000/- plus applicable taxes and ₹25,000/- towards e-filing of Cost Audit Report plus applicable taxes. Fees payable to MCA for e-filing, travel cost, lodging, boarding and other expenses are to be paid at actual plus applicable taxes.

As per Rule 14 of the Companies (Audit and Auditors) Rule, 2014 read with Section 148 (3) of the Companies Act, 2013, the remuneration approved by the Board of Directors shall be ratified by the Shareholders. Accordingly, members are requested to ratify the remuneration payable to the Cost Auditors for the Financial Year 2025-26.

None of the Directors, Key Managerial Personnel and their relatives are concerned or interested in this Resolution.

The Board recommends passing of the Resolution as set out in the Notice as Ordinary Resolution.

Item No. 5: Appointment of Secretarial Auditors

In accordance with the provisions of Section 204 and other applicable provisions of the Companies Act, 2013, read with Rule 9 of the Companies (Appointment & Remuneration of Managerial Personnel) Rules, 2014 (including any statutory modification(s) or re-enactment(s) thereof, for the time being in force) ("the Act"), every listed company and certain other prescribed categories of companies are required to annex a Secretarial Audit Report, issued by a Practicing Company Secretary, to their Board's report, prepared under Section 134(3) of the Act. Furthermore, pursuant to recent amendments to Regulation 24A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('SEBI Listing Regulations'), every listed entity and its material Subsidiaries in India are required to conduct Secretarial Audit and annex the Secretarial Audit Report to its annual report. Additionally, a listed entity must appoint a Secretarial Audit firm for a maximum of two terms of five consecutive years, with shareholders' approval.

Accordingly, based on the recommendation of the Audit Committee, the Board of Directors at its 269th meeting held on 26/04/2025, has approved the appointment of M/s Ullas Kumar Melinamogaru & Associates, Practicing Company Secretaries, Mangalore as the Secretarial Auditors of the Company for the Financial Year 2025-26, subject to approval of the Members at the Annual General Meeting.

Furthermore, in terms of the amended regulations, M/s Ullas Kumar Melinamogaru & Associates have provided a confirmation that they have subjected themselves to the peer review process of the Institute of Company Secretaries of India and hold a valid peer review certificate. M/s Ullas Kumar Melinamogaru & Associates have confirmed that they are not disqualified from being appointed as Secretarial Auditors and that they have no conflict of interest. M/s Ullas Kumar Melinamogaru & Associates, have further furnished a declaration that they have not taken up any prohibited non-secretarial audit assignments for the Company and its holding companies.

The terms and conditions of the appointment of M/s Ullas Kumar Melinamogaru include remuneration of ₹63,000/- (inclusive of travel and out of pocket expenses) plus applicable Goods & Service Tax (GST) for the Financial Year 2025-26.

M/s Ullas Kumar Melinamogaru & Associates have provided their consent to act as the Secretarial Auditors of the Company and have confirmed that the proposed appointment, if made, will be in compliance with the provisions of the Act and the SEBI Listing Regulations. Accordingly, approval of the shareholders is sought for appointment of M/s Ullas Kumar Melinamogaru & Associates, Practicing Company Secretaries, Mangalore as the Secretarial Auditors of the Company.

None of the Directors, Key Managerial Personnel and their relatives are concerned or interested in this Resolution.

The Board recommends passing of the Resolution as set out in the Notice as Ordinary Resolution.

In case of shares held in dematerialized form, the nomination has to be lodged with the respective DP.
18. Securities and Exchange Board of India (SEBI) vide its circular no. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2021/655 dated 03/11/2021 and SEBI/HO/MTRSD-PoD-1/P/CIR/2023/37 dated 16/03/2023 prescribed common and simplified norms for processing Investor's service requests by R&T Agent and norms for furnishing PAN, KYC details and Nomination as an ongoing measure to enhance the ease of doing business for investors in the securities market. The Listed companies, RTAs and Stock Exchanges are required to disseminate the requirement of the holders of physical securities of all listed companies to furnish valid PAN, KYC details and Nomination, on their respective websites. The SEBI has introduced the Form ISR-1 for all requests to register PAN, KYC details or changes / update thereof for securities held in physical mode.
19. Pursuant to SEBI circular dated 03/11/2021, the Company is also mandated to directly intimate its security holders about folios which are incomplete and to communicate regarding nomination procedure. The form needs to be sent to shareholders (both Single and Joint holders) holding shares in physical mode, as per the schedule mentioned in the said circular. In terms of above circulars, intimation was sent to the shareholders of the Company, holding shares in physical form and whose KYC details are not updated with the company with a request to furnish valid PAN, KYC details and ensure Nomination through prescribed form.
